Be It Enacted by the Legislature of the State of Alabama:

Section 2. Application. The provisions of this Act shall be applicable to all vessels as herein defined, navigating the waters within the jurisdiction of this state, except where inconsistent with any laws or regulations of the United States, in which case such laws or regulations shall prevail.

Section 3. Definitions. As used in this Act, unless the context clearly requires a different meaning;

(1) "Vessel" means every description of watercraft, other than a sea plane capable of being used as a means of transportation on water, but shall not include vessels under foreign registry temporarily using the public waters of this state nor shall it include public vessels of the United States, State, County, or Municipal vessels, ships' life-boats or vessels temporarily operating upon the public waters of this State which have been validly licensed by another state or the Federal Government.

(2) "Waters of this State" means any waters within the territorial limits of this State and the marginal sea adjacent to this State and the high seas when navigated as a part of a journey or ride to and from the shore of this State. Provided, however, "waters of this State" shall not be interpreted to mean any private pond which is not used for boat rentals or the charging of fees for fishing therein.

(3) "Owner" means a person, other than a lien holder, having the property in or title to a vessel. The term includes a person entitled to the use or possession of a vessel subject to an interest in another person, reserved or created by agreement and securing payment or performance of an obligation, but the term excludes a lessee under a lease not intended as security.

(4) "Person" means an individual, partnership, firm, corporation, association, or other entity.

(5) "Operate" means to navigate or otherwise use a vessel.

(6) "Director" as used in this Act means the Director of the State Conservation Department.

(7) "State Department of Conservation" or "Department of Conservation" means that department created by the laws of this State having supervision over game, fish, forestry, parks, seafoods, and such lands of the State and such supervision over public waters of this State as now are constituted by law or any subsequent amendment thereto.

It is hereby expressly made the duty of the Director to set up a division within the Department of Conservation to be known as 'Division of Water Safety' with sufficient personnel to perform the necessary clerical and routine work for the Department in issuing, handling and recording vessel registration identifying numbers, including the receiving and accounting of all registration fees and payments of same into the state treasury, receiving and recording accident reports, and making such reports of such accidents to such federal agency as may be required by federal law and such other incidental clerical work connected with the administration of this Act.

Section 5. Enforcement. This Act shall be enforced by the Department of Conservation, Division of Water Safety, and by all law enforcement officers of the State, and by such other agents and employees of the Department of Conservation as may be designated and required by the Director.

Section 6. Sale of certificate; fees, appropriation; use of funds. The Department of Conservation will issue annual certificates of registration directly or may authorize any probate judge in the State or any other official in the State who are presently authorized to issue automobile license plates, to issue certificates of registration and numbers in connection therewith. In conformity with this Act and any rules and regulations which may be validly issued by the Department of Conservation, the Department of Conservation may assign to each issuing officer in said county a block of numbers and certificates therefor which upon issue the issuing officer shall be allowed a fee of twenty-five cents (25c) for each certificate issued by him which fee in counties where the probate judge is on the fee system shall be retained by the probate judge and in counties where the issuing officer or probate judge is on salary basis the fee shall be paid into the county treasury.

(1) All registration monies, except the twenty-five cent (25c) fee allowed as aforesaid, shall be remitted monthly to the Department of Conservation not later than ten (10) days after the first of each month. The Department of Conservation shall transmit all monies received by it to the state treasurer, there to be deposited in a fund to be known as the "State Water Safety Fund."

(3) There is hereby appropriated from any funds in the State Treasury, not otherwise appropriated, the sum of Thirty-two Thousand Five Hundred Dollars (\$32,500.00) to the Department of Conservation, Division of Water Safety, for use in administering the provisions of

this Act. The Division of Water Safety upon the order of the Director of Conservation shall transfer to the Administrative Division of the Department of Conservation its pro rata share of the administration costs of the Department of Conservation in the same manner as the other divisions of the Department of Conservation so transfer. Provided, however, the Director of Conservation shall not transfer to the Administrative Division monies from Water Safety Division in excess of twenty-five percent (25%) of the Water Safety Division's yearly income from all sources. The Administrative Division of the Department of Conservation shall expend such monies as may be transferred, in addition to all other monies heretofore appropriated to said Division, in such manner as the Director of Conservation may deem necessary and appropriate. Upon receipt of the application and its approval by the authorized issuing officer he shall enter the same upon the records of his office and issue to the applicant a certificate of registration stating the number awarded to the vessel, the name and address of the owner; and a description of the vessel. The owner shall paint on or attach to each side of the bow of the vessel the annual identification number issued to him in such manner as may be prescribed by rules and regulations of the Department of Conservation, in order that it may be clearly visible and be of such size as required by the Federal Boating Act of 1958 or any subsequent amendment thereto. Such transfer, destruction, or abandonment shall terminate the certificate for such vessel except, that in the case of a transfer of a part interest which does not affect the owner's right to operate such vessel, such transfer shall not terminate the certificate.

(1) Any holder of a certificate shall notify the Department of Conservation within fifteen (15) days, if his address no longer conforms to the address appearing on the certificate and shall, as a part of such notification, furnish the Department of Conservation with his new address. The Department of Conservation may provide in its rules and regulations for the surrender of the certificate bearing the former address and its replacement with a certificate bearing the new address or for the alteration of an outstanding certificate to show the new address of the holder.

When an arrest for violation of the provisions of this Act or regulations promulgated thereunder is made by a salaried officer of the Department of Conservation and the defendant is convicted, there shall be taxed as cost the same fee as a sheriff in this State is entitled to for similar services and if collected from the defendant shall be immediately remitted by the trial court direct to the Department of Conservation which fee shall be deposited to the credit of the Water Safety Fund. If the officer making the arrest be a non-salaried officer and if said fee is collected from the defendant,

said non-salaried officer shall be entitled to said fee; provided, however, no person shall be entitled to receive an informer's fee and further provided no fee shall be allowed in cases of acquittal. In the event the arrest is made by a county officer, salaried or non-salaried, fifty percent (50%) of the fine shall be remitted to the credit of the county treasury of the county in which the offense was committed, and the remaining 50% of the fine shall be remitted to the State Treasurer for deposit to the "State Water Safety Fund". Such agents shall receive licenses from the Department of Conservation in the same manner as the probate judges and license commissioners and shall make such reports and be subject to such audits as the Director of Conservation may specify. Special agents so appointed shall make returns to the Department of Conservation in the same manner as probate judges and license commissioners. The Director of Conservation is further authorized to cancel such special agents' authority to sell licenses at any time he may so desire. Special agents shall be entitled to an issuance fee of twenty-five cents (25c). Any special agent selling licenses in excess of the cost of licenses as herein specified shall be guilty of a misdemeanor and upon conviction thereof shall be punished by a fine of not more than One Hundred Dollars (\$100.00).

### REPORT OF CONFERENCE COMMITTEE

#### TO THE SENATE

#### TO THE HOUSE OF REPRESENTATIVES

We, your Conference Committee, appointed on the disagreement of the two houses on the Senate amendment to House Bill 102 beg leave to report as follows:

1. We recommend that the Senate recede from its amendment to the bill.
2. We further recommend that the Senate and the House adopt the following substitute for the bill:

#### SUBSTITUTE FOR H. B. 102

#### A BILL TO BE ENTITLED AN ACT

Relating to the small loan business; providing for the regulation, examination, investigation, and licensing of individuals, firms, and cor-

portions engaged in the business of lending money in amounts of three hundred dollars or less, and for the suspension and revocation of such licenses; prescribing maximum rates of interest and other charges for loans; providing for the administration and enforcement of the Act; and prescribing penalties.

Be It Enacted by the Legislature of Alabama:

Section 1. Declaration of Legislative Intent. The Legislature finds as facts and determines that:

1. There exists among citizens of this state a widespread demand for small loans. The scope and intensity of this demand have been increased progressively by many social and economic forces.

2. The expense of making and collecting small loans, which are usually made on comparatively unsubstantial security to wage earners, salaried employees and other persons of relatively low incomes is necessarily high in relation to the amounts lent.

3. Such loans cannot be made profitably under the limitations imposed by existing laws relating to interest and usury. These limitations have tended to exclude lawful enterprises from the small loan field. Since the demand for small loans cannot be legislated out of existence, many small borrowers have been left to the mercy of those willing to bear the opprobrium and risk the penalties of usury for a large profit.

4. Interest charges are often disguised by the use of subterfuges to evade the usury law. These subterfuges are so complicated and technical that the usual borrower of small sums is defenseless even if he is aware of the usurious nature of the transaction and of his legal rights.

5. As a result, borrowers of small sums are being exploited, to the injury of the borrower, his dependents, and the general public. Charges are generally exorbitant in relation to those necessary to the conduct of a legitimate small loan business; trickery and fraud are common; and oppressive collection practices are prevalent.

6. These evils characterize and distinguish loans of three hundred dollars (\$300) or less. Legislation to control this class of loans is necessary to protect the public welfare.

7. It is the intent of the legislature in enacting this law to bring under public supervision those engaged in the business of making such loans, to eliminate practices that facilitate abuse of borrowers, to establish a system of regulation for the purpose of insuring honest and efficient small loan service and of stimulating competitive reductions in charges, to allow lenders who meet the conditions of this Act a rate of charge sufficiently high to permit a business profit, and to provide the administrative machinery necessary for effective enforcement.

Section 2. Definitions. The following words and terms when used in this Act shall have the following meanings unless the context clearly requires a different meaning. The meaning ascribed to the singular form shall apply also to the plural.

"Person" shall include individuals, co-partnerships, associations, trusts, corporations, and any other legal entities.

"License" shall mean a license, issued under the authority of this Act, to make loans in accordance with the provisions of this Act at a single place of business.

"Licensee" shall mean a person to whom one or more licenses have been issued.

"Supervisor" shall mean the Supervisor of the Bureau of Loans of the State Banking Department.

"Bureau" shall mean the Bureau of Loans of the State Banking Department.

"Cash Advance" means the amount of cash or its equivalent that the borrower actually receives or is paid at his direction or on his behalf.

Section 3. Scope (a) No person shall engage in the business of lending in amounts of three hundred dollars (\$300) or less and contract for, exact, or receive, directly or indirectly, on or in connection with any such loan, any charges whether for interest, insurance, compensation, consideration, or expense, which in the aggregate are greater than the interest that the lender would be permitted by law to charge for a loan of money if he were not a licensee under this Act, except as provided in and authorized by this Act, and without first having obtained a license from the supervisor. For the purpose of this section a loan shall be deemed to be in the amount of three hundred dollars (\$300) or less if the net amount or value advance to or on behalf of the borrower, after deducting all payments for interest, expenses, and charges of any nature taken substantially contemporaneously with the making of the loan, does not exceed three hundred dollars (\$300).

(b) Exemptions. This Act shall not apply to any person doing business under the authority of, and as permitted by, any law of this State or of the United States relating to Banks, Savings Banks, Trust Companies, Savings or Building and Loan Associations, Credit Unions as defined by law nor to any lawful, bona fide pawnbroking business nor shall this Act apply to any person making loans to their tenants engaged in agriculture, nor to loans by agricultural suppliers to persons whose principal business is farming, nor shall it apply to agricultural credit corporations or associations organized under an Act of the Congress of the United States, nor shall it apply to the business of financing the purchase of motor vehicles, refrigerators or other personal property, nor shall this apply to loans insured or guaranteed by the United States or any of its Agencies.

(c) Evasions. The provisions of subsection (a) of this section shall apply to any person who seeks to evade its application by any device, subterfuge, or pretense whatsoever including, but not thereby limiting the generality of the foregoing: the loan, forbearance, use, or sale of credit (as guarantor, surety, endorser, co-maker, or otherwise), money, insurance, goods, or things in action; the use of collateral or related sales or purchases of goods or services, or agreements to sell or purchase, whether real or pretended; receiving or charging compensation for goods or services, whether or not sold, delivered, or provided and the real or pretended negotiation, arrangement, or procurement of a loan through any use of activity of a third person, whether real or fictitious.

(d) Penalty. Whoever violates or participates in the violation of any provision of this section shall be guilty of a misdemeanor and upon conviction thereof shall be punishable by a fine of not more than five hundred dollars (\$500) nor less than one hundred dollars (\$100), or by imprisonment for not more than six months, or by both such fine and imprisonment, in the discretion of the court. Any contract of loan in the making or collection of which any act shall have been done which

violates this section shall be void and the lender shall have no right to collect, receive, or retain any principal, interest, or charges whatsoever.

Section 4. Application and Fee. Application for a license shall be in writing, under oath, and in the form prescribed by the supervisor. The application shall give the approximate location where the business is to be conducted and shall contain such further relevant information as the supervisor may require, including the names and addresses of the partners, officers, directors, or trustees, and of such of the principal owners or members as will provide the basis for the investigations and findings contemplated by Section 5 of this Act. Provided, however, that such application shall contain a statement made by the applicant under oath that he is not at the time of making the application a member of the National Association for the Advancement of Colored People or of the Communist party or any front thereof and that he has not prior to making said application contributed funds to any such organization and that he has never been a member of any such organization. At the time of making such application, the applicant shall pay to the supervisor the sum of one hundred dollars (\$100) as a fee for investigating the application. All licensees under this Act shall pay an annual license of two hundred dollars (\$200) which shall be due on October 1 of each year and shall be for one year ending September 30 following, and shall be delinquent on the first day of November of each year. And there shall be a penalty of ten percent (10%) added to such license upon delinquency and collected by the bureau. If any applicant licensed under this Act for the first time shall commence business after the first day of April in any year, the amount of the license shall be one-half of the amount of a full year's license. The amount of the license (and penalties if any) shall be paid to the supervisor of the bureau of loans, who shall remit the same to the treasurer of the State of Alabama, as provided by law. The license herein provided for shall be in addition to all other licenses now or hereafter provided for by law, and shall be in addition to the tax provided for by Chapter 18, Title 51, Code of Alabama (1940) as amended; and the amount of the license levied by this section shall not be credited upon or deducted from, in whole or in part, the tax levied by said Chapter 18, as amended, as to the current state tax year or as to any prior or subsequent state tax year. No refunds for the current or any prior or subsequent state tax year or any portion of the tax levied by said Chapter 18, as amended, shall be made on the ground that the license levied by this section was not credited upon or deducted from the tax levied by said Chapter 18, as amended; and no suit or action shall lie to enforce any claim for such refund.

Section 5. (a) Investigation of Application. Upon the filing of such application and the payment of such fees, the supervisor shall investigate the facts concerning the application and the requirements provided for in subsection (b) of this section. The supervisor shall grant or deny such application for a license within ninety days from the filing thereof with the required information and fees unless the period is extended by written agreement between the applicant and the supervisor.

(b) Issuance of License. If the supervisor shall find that the liquid assets, financial responsibility, experience, character, the general fitness of the applicant are such as to warrant the belief that the business will be operated lawfully, honestly, fairly, and efficiently, within the purposes of this Act, and that allowing such applicant to engage in the business would promote the convenience and advantage of the community in which the business of the applicant is to be conducted, he shall thereupon enter an order granting such application, and file his findings with the bureau, and forthwith issue and deliver a license to the applicant.

(c) Denial of License. If the supervisor shall not so find, he shall notify the applicant in writing who may request a hearing on the application. The request for a hearing must be within thirty (30) days of the rejection with the hearing to be held within thirty (30) days of the date of the request. After such hearing, or, if no hearing is demanded, the supervisor may deny such application by written order, accompanied by his findings of fact, and shall deliver a copy of such order and findings to the applicant. The investigation fee shall be retained by the supervisor while the license fee shall be returned to the applicant.

Section 6. (a) Posting of License. Each license shall state the address at which the business is to be conducted and shall state fully the name of the licensee, and if the licensee is a copartnership or association, the names of the members thereof, and if a corporation, the date and place of its incorporation. Each license shall be kept conspicuously posted in the licensed place of business and shall not be transferable or assignable.

(b) Continuing License. Each license shall remain in full force and effect until surrendered, revoked, or suspended as hereinafter provided.

Section 7. (a) Place of Business. Not more than one place of business shall be maintained under the same license, but the supervisor may issue additional licenses to the same licensee upon his compliance with all the provisions of this Act governing the issuance of the first or original license.

(b) Removal. No change in the place of business of a licensee to a location outside of the original municipality shall be permitted under the same license. When a licensee wishes to change his place of business within the same municipality, he shall give written notice thereof to the supervisor who shall investigate the facts, and if he shall find the proposed location is reasonably accessible to borrowers under existing loan contracts, he shall enter an order permitting the change and shall amend the license accordingly. If the supervisor shall not so find he shall enter an order denying the licensee such permission in the manner specified in and subject to the provisions of Section 5 (c) of this Act.

(c) Residence of Borrower. Nothing in this Act shall be construed to restrict the loans of any licensee to residents of the community in which the licensed place of business is situated.

Section 8. (a) Revocation of License. The supervisor shall, upon ten days' written notice to the licensee stating the contemplated action and in general the grounds therefor, and upon reasonable opportunity to be heard, revoke any license issued hereunder if he finds that:

1. The licensee has failed to pay the annual license fee; or that
2. The licensee, either knowingly or without the exercise of due care to prevent the same, has violated any provisions of this Act or any regulation or order lawfully made pursuant to and within the authority of this Act; or that
3. Any fact or condition exists which, if it had existed or had been known to exist at the time of the original application for such license, clearly would have justified the supervisor in refusing originally to issue such license, except the license shall not be revoked because of convenience and advantage; or that
4. The licensee is found guilty by the supervisor of using unreasonable collection tactics.

(b) **Suspension of License.** If the supervisor finds that probable cause for revocation of any license exists and that enforcement of the Act requires immediate suspension of such license pending investigation, he may, upon three days' written notice and a hearing, enter an order suspending such license for a period not exceeding thirty days.

(c) **Records and Notice.** Whenever the supervisor shall revoke or suspend a license issued pursuant to this Act, he shall enter an order to that effect and forthwith notify the licensee of the revocation or suspension. Within five days after the entry of such an order he shall file with the bureau his findings and a summary of the evidence supporting them, and he shall forthwith deliver a copy thereof to the licensee.

(d) **Surrender of License.** Any licensee may surrender any license by delivering it to the supervisor with written notice of its surrender, but such surrender shall not affect his civil or criminal liability for acts committed prior thereto.

(e) **Pre-Existing Contracts.** No revocation, suspension or surrender of any license shall impair or affect the obligation of any pre-existing contract between the licensee and any borrower.

(f) **Reinstatement of License.** The supervisor may reinstate suspended licenses or issue new licenses to a person whose license or licenses have been revoked if no fact or condition then exists which clearly would have justified the supervisor in refusing originally to issue such license under this Act.

(g) **Complaints of Violation Investigated.** The supervisor shall, upon sworn complaint of any borrower, investigate or cause to be investigated any alleged violation of this Act.

**Section 9. (a) Annual Examinations of Licensees.** At least once each year and at such other time as may be deemed necessary by the supervisor of the bureau of loans an examination shall be made of the place of business of each licensee and of the loans, transactions, books, papers and records of such licensee so far as they pertain to the business licensed under this Act. As cost of examination the licensee shall pay to the bureau of loans under such rules and regulations as may be reasonably prescribed by the supervisor thereof with the approval of the superintendent of banks an examining fee of fifty dollars (\$50) per day or any part thereof for each examiner and in addition thereto ten dollars (\$10) per day per examiner as per diem; provided, however, that no licensee whose business is free from willful violations of this Act shall be required to pay more than a total sum of four hundred dollars (\$400) in any twelve (12) month period as examiners fees; provided, further, that all fees collected by the bureau of loans under the terms of this section shall be paid into a special fund to be set up by the State Treasury; the special fund shall be used to pay the salaries of the officials and employees and the expenses of the bureau of loans, and all moneys deposited therein are hereby appropriated for that purpose; provided, however, nothing herein shall be construed to mean that all salaries of the officials and employees and expenses of operating the bureau of loans shall come from the special fund.

(b) **Investigations.** For the purpose of discovering violations of this Act or of securing information lawfully required hereunder, the supervisor or his duly authorized representatives may at any time investigate the business and examine the books, accounts, papers, and records used therein, of (1) any licensee, (2) any other person engaged in the business described in Section 3 (a) of this Act or participating in such business as principal, agent, broker, or otherwise, and (3) any per-

son who the supervisor had reasonable cause to believe is violating or is about to violate any provision of this Act, whether or not such person shall claim to be within the authority or beyond the scope of this Act. For purposes of this section, any person who shall advertise for, solicit, or hold himself out as willing to make loan transactions in the amount or of the value of three hundred dollars (\$300) or less shall be presumed to be engaged in the business described in Section 3 (a) of this Act.

(c) Access to Records: Witnesses. For the purposes of this section, the supervisor or his duly authorized representatives shall have and be given free access to the offices and places of business, files, safes, and vaults of all such persons, and shall have authority to require the attendance of any person and to examine him under oath relative to such loans or such business or to the subject matter of any examination, investigation, or hearing.

(d) Cease and Desist Orders: Injunctions; Receivers. Whenever the supervisor has reasonable cause to believe that any person is violating or is threatening to or intends to violate any provision of this Act, he may in addition to all actions provided for in this Act, and in addition to all other remedies that he may have at law or in equity, and without prejudice thereto enter an order requiring such person to desist or to refrain from such violation; and an action may be brought on the relation of the Attorney General or the supervisor to enjoin such person from engaging in or continuing such violation or from doing any act or acts in furtherance thereof. In any such action, an order or judgment may be entered awarding such preliminary or final injunction as may be deemed proper. In addition to all other means provided by law for the enforcement of a restraining order or injunction, the court in which such action is brought shall have power and jurisdiction to impound, and to appoint a receiver for the property and business of the defendant, including books, papers, documents, and records pertaining thereto or so much thereof as the court may deem reasonably necessary to prevent violations of this Act through or by means of the use of said property and business. Such receiver, when appointed and qualified, shall have such powers and duties as to custody, collection, administration, winding up, and liquidation of such property and business as shall from time to time be conferred upon him by the court.

Section 10. (a) Books and Records. Each licensee shall keep and use in his business such books, accounts, and records as will enable the supervisor to determine whether such licensee is complying with the provisions of this Act and with the orders and regulations lawfully made by the supervisor hereunder. Each licensee shall preserve such books, accounts, and records for at least two years after making the final entry on any loan recorded therein.

(b) Annual Reports. (1) Each licensee shall annually, on or before the first day of May, file a report with the supervisor as to each licensed place of business under this Act, covering the preceding calendar year. This report shall include the following information, all reported in accordance with sound and generally accepted accounting practice;

(a) Balance sheets at the beginning and end of the period.

(b) A statement of income and expense for the period.

(c) A reconciliation of surplus or net earning with the balance sheets.

(d) A schedule of assets used and useful in the business.

(e) An analysis of charges, sizes of loans and types of security on loans and an analysis of delinquent accounts.

(f) An analysis of suits, repossessions and sales of chattels.

(g) The type of business organization and if the licensee is a corporation, the principal officers and the resident agent, the partners, if the licensee is a partnership or, the owner, if a sole proprietorship.

(2) If the licensee conducts other business or is affiliated with other licensees under this Act, or, if any other situation exists under which allocations are necessary, the licensee shall make such allocation according to appropriate and reasonable methods.

(3) If the licensee is affiliated with other licensees under this Act, a composite report may be filed on behalf of all affiliated licensees within the State of Alabama, but such composite report shall not be required by the supervisor.

(4) Such report shall be made under oath and shall be in the form prescribed by the supervisor who shall make and publish annually an analysis and recapitulation of such reports.

Section 11. (a) Rules, Regulations and Orders. The supervisor shall have authority to make reasonable rules, regulations and orders for the administration and enforcement of this Act, in addition hereto and not inconsistent herewith. Such regulation or order shall be referenced to the section or sections of the Act which set forth the legislative standard which it interprets or to which it applies. Every regulation shall be promulgated by an order, and any ruling, demand, requirement, or similar administrative act may be promulgated by an order. Every order shall be in writing, shall state its effective date and the date of its promulgation, and shall be entered in an indexed permanent book which shall be a public record. A copy of every order promulgating a regulation and of every other order containing a requirement of general application shall be mailed to each licensee at least ten days before the effective date thereof. The failure of a licensee to receive a copy of the regulations shall not exempt him from the duty of compliance with the valid regulations lawfully issued.

(b) Certified copies of Official Documents. On application of any person and payment of the costs thereof, the supervisor shall furnish, under his seal and signed by him or his deputy, a certified copy of any license, regulation, or order. In any court or proceeding such copy shall be prima facie evidence of the fact of the issuance of such license, regulation or order.

Section 12. (a) Advertising. No licensee or other person subject to this Act shall advertise, display, distribute, or broadcast or cause to permit to be advertised, displayed, distributed, or broadcast, in any manner whatsoever, any false, misleading, or deceptive statement or representation with regard to the rates, terms, or conditions for loans in the amount or of the value of three hundred dollars (\$300) or less. The supervisor may require that charges or rates of charge, if stated by a licensee, be stated fully and clearly in such manner as he may deem necessary to prevent misunderstanding thereof by prospective borrowers. The supervisor may permit or require licensees to refer in their advertising to the fact that their business is under state supervision, subject to conditions imposed by him to prevent an erroneous impression as to the scope or degree of protections provided by this Act.

(b) **Schedule of Charges.** Each licensee shall prominently display in each licensed place of business a full and accurate schedule of the rates of charge upon all classes of loans currently to be made by him.

**Section 13. (a) Other Business in Same Office.** No licensee shall conduct the business of making loans under this Act within any office, suite, room or place of business in which any other business is solicited or engaged in or in association or conjunction with any other business until three days' written notice of an intention so to do has been given the supervisor. Upon receipt of written notification, the supervisor may investigate the facts and, if he finds that the character of the licensee and the nature of the other business warrant belief that such conduct of business would conceal violation or evasion of this Act or of regulations lawfully made hereunder, he shall enter an order directing the licensee to discontinue said other business. The order shall be entered in the manner specified in and subject to the provisions of Section 5 (c) of this Act.

(b) **Business Confined to Licensed Office.** No licensee shall conduct the business of making loans provided for by this Act under any name, or at any place of business within this state, other than that stated in the license. Nothing herein shall prevent the making of loans by mail nor prohibit accommodations to individual borrowers when necessitated by sickness or other emergency situations.

(c) **Liens on Real Estate.** No licensee shall take a lien upon real estate as security for any loan made under this Act, except such lien as is created by law through the rendition or recording of a judgment.

**Section 14. (1) Maximum Rates of Interest and Charge.** Every licensee hereunder may contract for and receive interest on any loan of money not exceeding three hundred dollars (\$300) an amount at a rate not exceeding 3% a month on that part of the unpaid principal balance not in excess of two hundred dollars (\$200), two per cent a month on that part of the unpaid principal balance in excess of two hundred dollars (\$200) but not exceeding three hundred dollars (\$300).

(2) **Charges on Loans of Seventy-five Dollars (\$75) or Less.** On a cash advance of seventy-five dollars (\$75) or less a licensee may charge, in lieu of charges specified in subsection (1) of this section, not in excess of one dollar (\$1) for each five dollars (\$5) of cash advanced to the borrower, up to the amount of seventy-five dollars (\$75); and a period of at least fifteen (15) days must be allowed for the repayment of each five dollars (\$5) of the cash advanced, such charges cannot be assessed by any subterfuge or device on any loan over seventy-five dollars (\$75) or on any balance of seventy-five dollars (\$75) or less when the original cash advanced was greater than seventy-five dollars (\$75).

(3) (a) **Method of Computing Charges .** Interest or charges on loans made under this Act shall not be paid, deducted, discounted or received in advance or compounded but the rate of charge authorized by this Section may be precomputed as provided in Paragraph B of this sub-section. For the purpose of this Section one month shall be that period of time from any date in a month to a corresponding date in the next month and if there is not such corresponding date then to the next day of the next month and a day shall be considered 1/30 of a month when computation is made for a fraction of a month.

(b) When the loan contract requires repayment in substantially equal and consecutive monthly installments of principal and charges or interest combined, the charges or interest may be precomputed at

the agreed monthly or periodic rate not in excess of that provided for in sub-section 1 or 2 of this Section on scheduled unpaid principal balances according to the terms of the contract and added to the principal of the loan. Every payment may be applied to the combined total of principal and precomputed charge until the contract is fully paid. The acceptance or payment of charges on loans made under the provisions of this sub-section shall not be deemed to constitute payment, deduction or receipt thereof in advance nor compounding under Paragraph 1 above.

(4) (a) Refund. When any loan contract is paid in full by cash, a new loan, renewal or otherwise, one month or more before the final installment date, the licensee shall refund or credit the borrower with that portion of the total charges which shall be due the borrower as determined by schedules prepared under the rule of 78ths or sum of the digits principle as follows: The amount of the refund or credit shall be as great a proportion of the total charges originally contracted for as the sum of the periodic time balances of the contract scheduled to follow the date of pre-payment bears to the sum of all the periodic time balances of the contract, both sums to be determined according to the payment schedule originally contracted for.

(B) If the loan contract is not prepaid in full but becomes partially prepaid in an amount equal to three or more installments, the licensee shall reduce the balance due by the amount that would be required to be refunded for prepayment in full on the date of such partial prepayment and compute charges as payments are made thereafter in the manner prescribed in Paragraph 1 of sub-section 3 hereof or the licensee may with the consent of the borrower reschedule the remaining installments and precompute charges as prescribed in Paragraph 2 of sub-section 3 hereof.

(5) Default or Extension Charges. If the contract so provides, the additional charge for any installment past due fifteen (15) or more days, whether by reason of default or extension agreement, may be three per cent (3%) of the installment past due and said amount may be charged once and no more. It is the intent of this sub-section that if the payment date of all wholly unpaid installments is deferred or extended one or more full months and the contract so provides the licensee may charge and collect a deferment or default charge only on the installment which is delinquent at the date the contract is extended or deferred.

(6) In addition to the general authority granted to him by Section 11 (a) of this Act, the Supervisor shall have power and authority to make such rules and regulations as he may deem necessary or advisable to insure that rebates, default charges and deferment charges are so computed, paid to, or collected from borrowers that the total charges collected by licensees under Paragraph B of subsection (3) hereof are substantially equivalent to charges authorized to be collected by licensees under paragraph (1) or (2) of this subsection.

(7) Recording Fees. The licensee may collect from the borrower the actual fees paid a public official, or agency of the State, for filing, recording or releasing any instrument securing the loan.

(8) No Further Charge, No Splitting Contracts, Certain Contracts Void. No further or other charges shall be directly or indirectly contracted for or received by any licensee, including insurance premiums of any kind, except those specifically authorized by this Act. No licensee shall divide into separate parts any contract made for the purpose of or with the effect of obtaining charges in excess of those au-

thorized by this Act. All balances due to a licensee from any person, as a borrower, or as an endorser, guarantor or surety for any borrower or otherwise, or due from any husband or wife, jointly or severally, shall be considered a part of any loan being made by a licensee to such person for the purpose of computing charges. If any amount in excess of the charges permitted by this Act is charged, contracted for, or received, except as the result of an accidental and bona fide error of computation, the contract of loan shall be void and the licensee shall have no right to collect or receive any cash advance, charges or recompense whatsoever; and the licensee and the several members, officers, directors, agents and employees thereof who shall have participated in such violation, shall be guilty of a misdemeanor and upon conviction thereof shall be punishable by a fine of not more than five hundred dollars (\$500) and not less than one hundred dollars (\$100) or by imprisonment of not more than six months, or by both such fine and imprisonment, in the discretion of the court. Any borrower may recover the full amount of principal and charges paid by him on any contract made in violation of this section, together with a reasonable attorney fee, by action at law or in equity brought within twelve months from the date of the last payment of principal or charges on such contract.

(9) Installment Payment, Contract Period. No licensee shall enter into any contract of loan under this Act in which the borrower agrees to make any scheduled repayment of the cash advance more than twenty-five (25) calendar months from the date of making such contract of loan. Every loan contract shall require payment of the cash advance and charges in installments which shall be payable at approximately equal periodic intervals except that payment dates may be omitted to accommodate borrowers with seasonal incomes. No installment contracted for shall be substantially larger than any preceding installment.

(10) Interest as provided in this Act shall not accrue or be recovered or charged on any loan made under this Act for any longer than six months after the due date of the final installment of principal or interest. After the expiration of said six months period interest may be charged at a rate not to exceed eight per cent per annum.

(11) No licensee shall induce or permit any person, or any husband and wife jointly or severally, to become obligated directly or contingently, or both, under more than one contract of loan at the same time, for the purpose of obtaining a higher rate of charge than would otherwise be permitted by this section. And it shall be unlawful for any licensee to evade, or attempt to evade this section by inducing a customer to borrow from another loan company in which he has a pecuniary interest or with whom he has an arrangement for exchange of customers.

Section 15. (a) Requirements for Making and Payment of Loans. Every licensee shall:

1. At the time a loan is made deliver to the borrower or if there be two or more borrowers, to one of them a copy of the loan contract, or a written statement in the English language showing in clear and distinct terms:

2. Give to the person making any cash payment on account of any loan a receipt at the time such payment is made which receipt need only show the total amount of such cash payment. No receipt shall be required in the case of payments made by the borrower's check or money order, and the use of a coupon book system shall be deemed in compliance with this section.

3. Permit the payment to be made in advance in any amount on any contract of loan at any time during a licensee's regular business hours.

4. Upon repayment of the loan in full, mark plainly every obligation and security signed by any obligor with the word "Paid" or "Cancelled," and release any mortgage, restore any pledge, and cancel and return any note and any assignment given to the licensee.

(b) Confessions of Judgment; Incomplete Instruments. No licensee shall (1) take any confession of judgment or any power of attorney running to himself or to any third person to confess judgment or to appear for the borrower in a judicial proceedings; nor (a) take any note, promise to pay that does not disclose the total amount to be repaid, a schedule of payments or a description thereof, and the agreed rate or aggregate amount of charge, nor any instrument in which blanks are left to be filled in after execution.

5. Every loan contract shall provide for repayment of principal and charges at approximate equal periodic intervals of time of which shall be so arranged that no installment is substantially greater in amount than any preceding installment.

6. Any contract of loan in the making or collection of which any provision of this section shall have been violated, either knowingly or without the exercise of due care to prevent the same shall be void and the licensee shall have no right to collect, receive or retain any principal, charges or recompense whatsoever.

#### Section 16. Additional Security for Loans.

(1) On loans in amounts of one hundred dollars (\$100) or more, a licensee may accept as additional security for a loan, insurance written on the life of one of the principal obligors under the loan contract. Such insurance must be reasonably related to the hazard or risk of the loan and must not exceed the term of the loan or the approximate amount of the indebtedness at any time during the life thereof.

(2) The premium, or identifiable charge, collected by licensee or its officers, agents or employees on life insurance shall not exceed the lowest premium or identifiable charge for such insurance as filed with and approved by the insurance commissioner of the State of Alabama by a company licensed to do business in the State of Alabama and writing such insurance; provided, however, that in no event shall the premium or identifiable charge exceed 75c per annum for each \$100 of life insurance.

(3) Every insurance policy or certificate written in connection with the loan transaction shall provide for cancellation of the coverage and a refund of the unearned premium or identifiable charge upon the discharge of the loan obligation for which such insurance is security, without prejudice to any claim. Such refund shall be made under a formula filed by the insurer with the department of insurance except no refund of less than \$1.00 need be made.

(4) In accepting such insurance as security for the loan, the licensee, or an employee, may deduct the premiums or identifiable charge for such insurance from the proceeds of the loan and transmit them to the insurance company.

(5) Any gain or advantage in the form of commission or otherwise, to the licensee or to any employee, affiliate or associate of the licensee from such insurance of its sale shall not be considered an additional or further charge in connection with the loan.

(6) All such insurance shall be written by a company authorized to conduct business in this state and the licensee shall not require the purchase of such insurance from any agent or broker designated by the licensee, nor shall the licensee decline existing coverages which equal or exceed the standards of this section; provided further, that all other types of insurance are hereby specifically prohibited.

Section 16½. Loans of More Than Three Hundred Dollars (\$300). If a licensee makes a loan in excess of three hundred dollars (\$300), the charges authorized by this Act shall not apply to any part of the loan. The rates on the entire amount of the loan shall be governed by Section 60 or 61 of Title 9, Code of Alabama, 1940, as amended. The foregoing prohibition shall also apply to any licensee who permits any person, as borrower, or as endorser, guarantor, or surety for any borrower, or otherwise or any husband and wife jointly or severally, to owe directly or contingently, or both, to the licensee at any time a sum of more than three hundred dollars (\$300) for principal. The supervisor may suspend or revoke the license of any licensee who violates this section, in the manner prescribed by Section 8 of this Act, and the penalties provided for in Section 23 (c) of this Act shall apply to any person, firm or corporation violating this section.

Section 17. Loans Made Elsewhere. Any loans made outside this state in accordance with the law applicable to such loan in the state in which the loan was made may be collected in this state.

Section 18. Review. In addition to any other remedy he may have, any licensee and any person considering himself aggrieved by any act or order of the supervisor hereunder may, within thirty days from the entry of the order complained of, or within sixty days of the act complained of if there is no order, petition the circuit court of Montgomery County to review such act or order; provided such petition shall be docketed, heard and tried in the same manner as other extraordinary writs issued by the court and a copy of the petition and order setting the same for hearing shall be served on the supervisor, giving him such notice of the time and place of the hearing as may be directed by the court.

Section 19. Suits on Debts. In any suit filed on any debt or evidence of any indebtedness governed hereby in any court, the judge thereof shall not render any judgment by default, nil dicit or otherwise until he had heard the testimony of the licensee or of a representative of such licensee, and the judge must on his own motion interrogate such licensee or such other witness to determine whether there

has been any violation of the provisions of this Act and whether any charges have been contracted for, made or received in excess of the amount allowed under this Act. If it be made to appear that the provisions of this Act have been violated or that charges in excess of those allowed have been contracted for, made or received, then the suit shall be dismissed at the cost of the plaintiff. In any such suit the plaintiff must allege that he is a licensee under this Act, and if such plaintiff is subject to this Act and fails to allege in his complaint that he is a licensee hereunder, or if it is shown to the court that he is subject to this Act and is not a licensee then the court *ex mero motu* shall dismiss the suit at the cost of the plaintiff. No garnishment shall issue in such suit or in connection therewith until after judgment has been rendered.

**Section 20. Pre-Existing Contracts.** This Act or any part thereof may be modified, amended, or repealed so as to effect a cancellation or alteration of any license or right of a licensee hereunder, provided that such cancellation or alteration shall not impair or affect the obligation of any pre-existing lawful contract between any licensee and any borrower.

**Section 21. Status of Pre-Existing Licensees.** Any person having a license under Act No. 159, H. 233, approved June 23, 1945, (General Acts of Alabama, 1945, page 200), as amended, in force when this Act becomes effective, or had such a license in effect on September 30, 1959, shall be deemed to have a license under this Act for a period expiring six months after the effective date hereof, if not sooner revoked. Any such license so continued in effect under the provisions of this Act shall be subject to revocation during such six months' period as provided in Section 8 of this Act; except that such license may not be revoked nor shall an application for a new license be denied upon the ground that the convenience and advantage of such community will not be promoted by the operation therein of such business.

**Section 22. Records (a)** The supervisor shall cause to be kept on file in the bureau of loans, open to public inspection during business hours, an alphabetical listing of all licensees doing business in Alabama; and such list shall reveal the true ownership of the licensee companies. If the company is a corporation, the list shall indicate the name of the corporation, the address of the home office, and the names and addresses of its officers and directors.

(b) Except as provided in subsection (a) of this section, all applications, reports, and other papers and documents submitted by licensees to the supervisor or to the bureau shall be open to public inspection only upon approval of the supervisor; but the supervisor shall not deny any person access to such records when the disclosure thereof to such person is in the public interest.

**Section 23. (a) Repealer.** The provisions of Act No. 159, H. 233, approved June 23, 1945 (General Acts of Alabama, 1945, page 200), as amended, in conflict herewith are hereby repealed. And all other laws or parts of laws which conflict with this Act are also repealed. But such repeal shall not be considered an abolition of the bureau of loans, whose existence is hereby continued as a state agency, for the purpose of administering and enforcing this Act.

(b) **Status of Pre-Existing Obligations.** Nothing herein contained shall be so construed as to impair or affect the obligation of any contract of loan between any licensee under Act No. 159, H. 233, approved June 23, 1945 (General Acts of Alabama, 1945, page 200), as amended,

and any borrower which was entered into prior to the effective date of this Act.

(c) Any person, firm, corporation or association who shall wilfully violate any of the provisions of this Act for which a specific penalty is not herein specifically provided shall be guilty of a misdemeanor and upon conviction thereof shall be punished by a fine of not more than five hundred dollars (\$500), nor less than one hundred dollars (\$100), or by imprisonment for not more than six months, or by both such fine and imprisonment, in the discretion of the court.

Section 24. If a part of this Act is invalid, all valid parts that are severable from the invalid part remain in effect. If a part of the Act is invalid in one or more of its applications, the part remains in effect in all valid applications that are severable from the invalid applications.

Section 25. Citation of Act. This Act shall be known and may be cited as the "Alabama Small Loan Act."

Section 26. Effective Date. This Act shall become effective 60 days after its passage and approval by the Governor, or 60 days after its otherwise becoming a law.

MESSAGE FROM THE GOVERNOR

To the House of Representatives  
State Capitol  
Montgomery, Alabama

Gentlemen:

I herewith transmit to you a message from the Governor relative to House Bill No. 762.

Respectfully submitted,

JOSEPH G. ROBERTSON,  
Executive Secretary.

OCTOBER 30, 1959

To the House of Representatives  
State Capitol  
Montgomery, Alabama

Gentlemen:

I am returning to you, the Body in which this bill originated, House Bill No. 762, with suggested executive amendments as follows:

Amend House Bill No. 762 by striking therefrom the following from the caption of said bill:

"To authorize the sale and issuance of not exceeding \$3,000,000 principal amount of general obligation bonds of the State of Alabama for the purpose of constructing and equipping a hospital building to constitute a part of the University of Alabama Medical Center and to be used for the care and treatment of mental patients and for training of medical students in the field of mental illness; to pledge the full faith and credit of the state for payment of the principal of and interest on said bonds; to appropriate and pledge, as additional security therefor, so much as may be necessary for those portions of the state taxes on the sale of spirituous or vinous liquors and of the state license taxes on those selling, storing or receiving for distribution malt or brewed beverages that are required by law to be paid into the Alabama Special Mental Health Fund; to create a bond commission with authority to specify the details of and to make provisions for the sale of and to sell said bonds; and to make provision for the terms, execution, and issuance of said bonds and the use of the proceeds thereof."

and substituting in lieu thereof the following:

"To authorize the sale and issuance of not exceeding \$3,000,000 principal amount of general obligation bonds of the State of Alabama for the purpose of constructing and equipping a hospital building to constitute a part of the University of Alabama Medical Center and to be used for the care and treatment of mental patients and for training of medical students in the field of mental illness; to pledge the full faith and credit of the state for payment of the principal of and interest on said bonds; to appropriate and pledge, as additional security therefor, so much as may be necessary of that portion of the state taxes on the sale of spirituous or vinous liquors that is required by law to be paid into the Alabama Special Mental Health Fund; to create a bond commission with authority to specify the details of and to

make provisions for the sale of and to sell said bonds; and to make provision for the terms, execution, and issuance of said bonds and the use of the proceeds thereof."

Amend House Bill 762 further by striking therefrom the following from Section 2 of said bill:

"There are hereby authorized to be issued not exceeding \$3,000,000 aggregate principal amount of bonds of the state, which shall be general obligations of the state for the "prompt and faithful payment of the principal of and interest on which the full faith and credit of the state are hereby irrevocably pledged. In addition thereto, there is hereby appropriated and hereby specially and irrevocably pledged, for payment of the principal of and interest on the bonds, pro rata and without priority of one over another by reason of prior issuance or otherwise, so much as may be necessary for said purpose of those portions of the state taxes on the sale of spirituous or vinuous liquors and of the state license taxes on those selling, storing or receiving for distribution malt or brewed beverages that are required by law on the date of the adoption of this act to be paid into the Alabama Special Mental Health Fund, being those portions of said taxes levied respectively by Act No. \_\_\_\_\_ and Act No. \_\_\_\_\_ adopted at the 1959 Regular Session of the Legislature of Alabama. The said special pledge shall create a charge on the said portions of the said taxes prior to all other charges or expenses for mental health purposes or other purposes."

and substituting in lieu thereof the following:

"There are hereby authorized to be issued not exceeding \$3,000,000 aggregate principal amount of bonds of the state, which shall be general obligations of the state for the prompt and faithful payment of the principal of and interest on which the full faith and credit of the state are hereby irrevocably pledged. In addition thereto, there is hereby appropriated and hereby specially and irrevocably pledged, for payment of the principal of and interest on the bonds, pro rata and without priority of one over another by reason of prior issuance or otherwise, so much as may be necessary for said purpose of that portion of the state taxes on the sale of spirituous or vinous liquors that is required by law on the date of the adoption of this act to be paid into the Alabama Special Mental Health Fund, being that portion of said taxes provided to be paid into said fund by Act No. 312, adopted 1959., Regular Session of Alabama. The said special pledge shall create a charge on the said portions of the said taxes prior to all other charges or expenses for mental health purposes or other purposes."

If the above suggested executive amendments are adopted my objections to the bill will be removed.

Respectfully,

JOHN PATTERSON,  
Governor.

**BILLS ON THIRD READING**

H. 1031. Providing further for the election and organization of the council in all cities having a population of not less than 14,000 nor more than 19,000, according to the last or any subsequent federal decennial census, and operating under the mayor-council form of government; providing for the election of councilmen by place and number; and prescribing additional qualifications for candidates seeking election to such council.

Was taken up.

Mr. Roberts offered the following amendment to the bill, H. 1031:

AMENDMENT OF H. B. 1031

Amend the bill by striking all of Section 4 and substituting the following in lieu thereof:

"Section 4. Any candidate who receives a majority of all votes cast for all candidates seeking election to the position for which he is a candidate shall be declared elected to that position. In the event no candidate receives a majority of all the votes cast for any one or more positions on the council then the council shall order a second or run-off election to be held, not more than thirty days thereafter, at which election the two candidates receiving the most and the second most votes, respectively, for each position to be filled shall be candidates, and the person receiving the highest number of votes for each office for which the run-off election is held shall be declared elected. A certificate of election shall be given by the council, or a majority of them to each of the persons elected. Such certificate shall entitle the person so certified to the possession of the office to which he was elected immediately upon the expiration of the term of incumbent of the office, as provided by law. In the event that all opposition to a candidate in the run-off election is withdrawn, then no second election need be held for such position and such candidate shall receive a certificate of election. In the event of a tie vote between two or more persons in such run-off election for the same position on the council, the currently serving council shall decide the election. A vote for a particular candidate by a majority of the total membership of such body shall be necessary to decide the election in his favor. On the first Monday in October after their election, the members of any council elected pursuant to this Act shall assemble and organize and choose a chairman or president of the council from among their own number."

And the amendment was adopted.

And the bill:

S. 270 (with amendment): To dissolve the municipal corporation of Daleville, Dale County, revoke its charter, and provide for the disposition of its property and payment of its debts.

Was taken up.

The question was upon the adoption of the amendment reported by the Standing Committee on Local Legislation No. 1, said committee amendment being as follows:

AMENDMENT TO S. B. 270

Strike Section 3 of the bill and substitute in lieu thereof the following:

"Section 3. The substantive provisions of this Act shall become operative only if approved by a majority of the qualified electors residing within the corporate limits of the town of Daleville on the date this Act became law and voting in a referendum to be held on a day designated by the judge of probate of Dale County, not less than thirty nor more than sixty days from the date on which this Act becomes law. Notice of the election shall be given by the probate judge of Dale County in a newspaper published in such county for three successive weeks before the election.

"The judge of probate, the circuit clerk, and the sheriff acting jointly may designate the voting places within the town, and shall appoint three inspectors of election and one returning officer for each voting place which inspectors shall manage the election at the respective voting places.

"The question submitted shall be: Shall Act No. ——— S. B. 270 of the 1959 Regular Session of the Legislature of Alabama which dissolves the municipal corporation of Daleville and revokes its charter be adopted? Each voter may furnish his own ballot and if he desires to vote for the adoption of said Act there shall be written or printed on such ballots the words "Yes." If he desires to vote against the adoption of such Act the word "No" shall be written or printed on his ballot. The inspectors at the respective voting places must, as soon as the polls are closed, ascertain and certify the results of the election at their respective voting places to the judge of probate and deliver the same to the returning officer, who must at once return the same to the judge of probate.

"The judge of probate, circuit clerk and sheriff of the county must canvass the returns as made by the inspectors, and if it appears that the majority of the votes cast at the election were in favor of adoption of the act the judge shall make and enter an order on the records of the probate court adjudging and decreeing the act adopted and dissolving the municipal corporation of Daleville. If it appears that a majority of the votes cast at the election are against adoption of the act the judge of probate shall make and enter an order on the records of the court adjudging and decreeing that a majority of the votes cast at such election were cast against adoption of the act and that such act shall have no further force and effect. Within ten days after ascertaining the results of the election the judge of probate shall certify the results thereof to the mayor of the town of Daleville and also to the Secretary of State of the State of Alabama.

"The result of such election may be contested by and qualified elector voting at the election as is provided by the general laws for contesting the election of justices of the peace, making the city the contestee.

"The town of Daleville shall pay all cost and expenses pertaining to the election and the notice thereof.

"If a majority of the votes cast in the election are 'Yes', the provisions of this Act shall become operative sixty days thereafter. If a majority are 'No' this Act shall have no further force or effect."

And the amendment was adopted.

Messrs. Ferguson and Callahan offered the following substitute for the bill, S. 286:

**A BILL  
TO BE ENTITLED  
AN ACT**

Relating to municipalities having a population of not less than 40,000 nor more than 50,000, according to the last or any subsequent federal decennial census; providing optional forms of government which may be adopted by such municipalities; and providing the method by which any such municipality may adopt such an optional form of municipal government.

**Be It Enacted by the Legislature of Alabama:**

**Chapter 1**

Section 1. This act shall apply only to municipalities having a population of not less than 40,000 nor more than 50,000, according to the last or any subsequent federal decennial census. Any such city may retain the form of government under which it is presently operating or may adopt, upon proceeding in the manner provided in this act, one of the optional plans or forms of government provided herein.

Section 2. The legally qualified voters of any municipality to which this act is applicable may adopt any of the optional plans of this act upon petition and referendum, as hereinafter provided.

Section 3. Upon petition signed by ten per cent or more of the qualified voters of a municipality within the scope of this act, such petition to be addressed to the judge of probate of the county in which the municipality is situated, an election shall be held on the question of the adoption of such optional plan under this act as the petition may designate.

Section 4. The judge of probate shall examine the petition, and if he determines that the petition is signed by at least ten per cent of the qualified voters of the municipality, he shall certify such fact to the governing body of the municipality; and such governing body, immediately upon receipt of such certification, shall call such election to be held together with, and as part of, the next general or municipal election if one is to be held not less than seventy-five nor more than one hundred twenty days after the filing of the petition, and if a general or municipal election is not to be held within that time, a special election within such time. The question of adoption of an optional plan of government shall be submitted to the voters in the same manner as other public questions to be voted upon by the voters of a single municipality.

Section 5. No petition for submission of the question of adopting an optional plan of government pursuant to this act may be filed within two years after any other such petition has been duly filed, nor within five years after an optional plan of government hereunder shall have been adopted for the municipality.

Section 6. Whenever the legally qualified voters of any municipality to which this act applies, by a majority of those voting on the

question, vote in favor of adopting a change in their form of government pursuant to this act, the officers herein provided for such form of government shall be elected and the plan of government shall become effective as hereinafter provided.

## Chapter 2

Section 7. The form of government provided in this chapter of this act shall be known as the "mayor-council plan" and shall apply to any municipality the voters of which have adopted it pursuant to this act.

Section 8. Each municipality hereunder shall be governed by an elected council, an elected mayor, and such other officers and employees as may be duly appointed pursuant to law or ordinance.

Section 9. The council shall consist of five members, who shall be elected at large by the voters of the municipality; and, except as otherwise herein provided for the first council, the members of the council shall be elected at a regular municipal election to be held every four years in the month of September. Each councilman shall have been a citizen and resident of the municipality at least two years preceding his election.

Section 10. Members of the council shall serve for a term of four years, beginning at twelve o'clock noon on the first Monday of October next following their election, except as otherwise provided for those first elected. Five councilmen shall be elected at the first election following the adoption by the municipality of this plan, as provided in chapter 4 of this act. All councilmen elected at such first election shall serve from twelve o'clock noon on the first day the plan takes effect until twelve o'clock noon on the first Monday in October of the year in which regular municipal elections are held, and their successors are elected and qualified. Vacancies shall be filled for the remainder of the unexpired term at the next general election to be held not less than sixty days after the occurrence of the vacancy. Council may fill the vacancy temporarily by appointment to serve until the qualification of a person so elected. Councilmen shall be entitled to a compensation of twelve hundred dollars per annum each, payable in installments as the salaries of other municipal officers are paid.

Section 11. All legislative powers and other powers granted to cities and towns shall be exercised by the council, except those powers conferred on some officer by law or ordinance, and except as may otherwise be provided by this act or by other general laws.

Section 12. The council, in addition to such other powers and duties as may be conferred upon it by this act or otherwise by law, may:

(a) Consider and approve or decline to approve nominations for appointments to be made by the mayor;

(b) Require any municipal officer, in its discretion, to prepare and submit sworn statements regarding his official duties and the performance thereof, and otherwise to investigate the conduct of any department, office, or agency of the municipal government;

(c) Remove any municipal officer, other than the mayor or a member of council, for cause, upon notice and opportunity to be heard.

Section 13. The council shall appoint a municipal clerk, who shall serve as clerk of the council, keep its minutes and records of its proceedings, maintain and compile its ordinances and resolutions, and per-

form such other functions as may be required by law for municipal clerks generally. The municipal clerk shall, prior to his appointment, have been qualified by training or experience to perform the duties of the office.

Section 14. The executive power of the municipality shall be exercised by the mayor. The mayor shall be elected by the qualified voters of the municipality at the regular municipal election to be held every four years in the month of September, and shall serve for a term of four years beginning at twelve o'clock noon on the first Monday in October following his election. Vacancies in the office of mayor shall be filled in the same manner as vacancies in council. However, the mayor elected at the first election following the adoption of this plan shall serve from twelve o'clock noon on the first day the plan takes effect until twelve o'clock noon on the first Monday in October of the year in which regular municipal elections are held and his successor is elected and qualified. The mayor shall be entitled to compensations at the rate of ten thousand dollars per annum, payable in installments as the salaries of other municipal officers are paid.

Section 15. The mayor shall enforce the ordinances of the municipality and all laws applicable thereto. He shall annually address the council on the condition and requirements of the municipal government and shall from time to time make such recommendations for action by the council as he may deem in the public interest. He shall supervise all of the departments of the municipal government and shall require each department to make an annual and such other reports of its work as he may deem desirable.

Section 16. (a) The mayor shall nominate and appoint, with the advice and consent of the council, the judge of the municipal court, or recorder, and the department heads of the municipality other than the municipal clerk, and may remove at his pleasure the officers appointed by him.

(b) Ordinances adopted by the council shall be submitted to the mayor, and he shall within ten days after receiving any ordinance, either approve the ordinance by affixing his signature thereto or return it to the council, by delivering it to the municipal clerk, together with a statement setting forth his objections thereto or to any item or part thereof. No ordinance or any item or part thereof shall take effect without the mayor's approval, unless the mayor fails to return an ordinance to council within ten days after it has been presented to him, or unless council upon reconsideration thereof on or after the next regular council meeting following its return by the mayor shall by a vote of four members resolve to override the mayor's veto.

(c) The mayor may attend all meetings of the council and preside as chairman and may take part in the sessions of council but shall have no vote except in the case of tie, in which case he may cast the deciding vote.

Section 17. The mayor shall designate the director of administration (or other municipal administrative official subject to the approval of the council) to act as mayor whenever the mayor shall be prevented by absence from the municipality, disability, or other cause from attending the duties of his office. During such time the person so designated by the mayor shall possess all the rights, powers, and duties of the mayor except to hire or dismiss departmental heads or other key officials. Whenever the mayor shall have been unable to attend the duties of his office for a period of sixty consecutive days for any of the above stated reasons, an acting mayor shall be appointed by the

council, and he shall succeed to all the rights, powers, and duties of the then acting mayor.

Section 18. The municipality shall have a department of administration and such other departments not exceeding nine in number as council may establish by ordinance. All of the functions, powers, and duties of the municipality shall be allocated and assigned among and within such departments. Each department shall be headed by a director or other officer appointed by the mayor with the advice and consent of the council. The department heads shall serve at the pleasure of the mayor.

Section 19. The department of administration shall be headed by a director who shall be known and designated as the director of administration. The director of administration shall be appointed as other department heads are appointed, and shall be chosen solely on the basis of his executive and administrative qualifications with special reference to his actual experience in, or his knowledge of, accepted practice in respect to the duties of his office as hereinafter set forth. He shall have, exercise, and discharge the functions, powers, and duties of the department. The department under the direction and supervision of the mayor shall:

(a) Assist in the preparation of the budget;

(b) Administer a centralized purchasing system; provided, all contracts of whatever nature for the purchase of materials, equipment, supplies, or other personal property involving more than 100 dollars or less than 2,000 dollars made by or on behalf of the municipality, shall be let by free and open bidding, on written sealed bids, to the lowest responsible bidder. Provided further that all purchases of 2,000 dollars or more shall be advertised for by publication three successive weeks before the date set for the letting, in a newspaper published in the city, and in any other manner and for such lengths of time as the council may determine. All bids shall be sealed when received, shall be opened in public at the hour stated in the notice, and all original bids together with all documents relating to the award of the contract shall be retained and made a part of a permanent record or file and shall be open to public inspection;

(c) Be responsible for the development and administration of a sound personnel system; provided, all appointments and removals of officers and employees of the municipality shall be made in accordance with the provisions of the existing merit or civil service system law, if any, in effect in the municipality;

(d) Perform such other duties as council may prescribe.

Section 20. Council shall provide by ordinance for a municipal engineer who shall be qualified at least as a licensed professional engineer prior to his appointment, and shall serve either full or part time, or on a consulting basis. The municipal engineer shall supervise all work by or for the municipality of a technical or engineering nature. He shall as directed by council compile and compute any cost of all work and services of an engineering or technical nature paid for by the municipality whether charged to force account or by contract, and shall report thereon to council annually and at such other times as the mayor or council may require.

Section 21. The municipal budget shall be prepared by the mayor with the assistance of the director of administration. During the month of August, the mayor shall require all department heads to submit requests for appropriations for the ensuing budget year, and to appear

before the mayor or director of administration at public hearings, which shall be held in that month, on the various requests.

Section 22. On or before the fifteenth day of September the mayor shall submit to council his recommended budget together with such explanatory comment or statement as he may deem desirable. The budget shall be in such form as may be prescribed by the council, and shall in addition have appended thereto a detailed analysis of the various items of expenditure and revenue. Council may increase or reduce any item or items in the mayor's budget by a vote of a majority of the council. The budget shall become effective on the ensuing first day of October.

Section 23. The council shall where practicable provide for the maintenance of a system of quarterly allotments for the operation of the budget. It shall be the duty of the officer or department administering any function of the municipality to report to the director of administration such financial statistics as the mayor or director of administration may require in the formulation of the budget.

Section 24. The council shall provide by ordinance for the exercise of a control function, in the management of the finances of the municipality, by some officer other than the director of administration. The control function shall include provision for an encumbrance system of budget operation, for expenditures only upon written requisition, for the pre-audit of all claims and demands against the municipality prior to payment, and for the control of all payments out of any public funds by individual warrants for each payment to the official having custody thereof.

### Chapter 3

Section 25. The form of government provided in this chapter of this act shall, be known as the "council-manager plan" and shall apply to any municipality the voters of which have adopted this plan pursuant to this act.

Section 26. Each municipality under this chapter shall be governed by an elected council, an appointed municipal manager, and such other officers and employees as may be duly appointed pursuant to law or ordinance.

Section 27. The municipal council shall consist of five members. Each councilman shall have been a citizen and resident of the municipality at least two years immediately preceeding his election.

Section 28. Except as otherwise herein provided for the first councilmen, members of the municipal council shall be elected at large by the voters of the municipality at a regular municipal election to be held every four years in the month of September.

Section 29. Members of the council shall serve for a term of four years, beginning on the first Monday in October next following their election, except as otherwise provided for those first elected. Five councilmen shall be elected at the first election following the adoption by the municipality of this plan, as provided in chapter 4 of this act. All councilmen elected at such first election shall serve from twelve o'clock noon on the first day the plan takes effect until twelve o'clock noon on the first Monday in October of the year in which regular municipal elections are held, and their successors are elected and qualified. Vacancies shall be filled by election for the remainder of the unexpired term at the next general election occurring not less than sixty days after the occurrence of the vacancy. Council may fill the vacancy temporarily by appointment to serve until the qualification of a person so

elected. Councilmen shall be entitled to a compensation of 1,200 dollars per annum each, payable in installments as the salaries of other municipal officers are paid.

Section 30. On the first Monday in October following their election, and, in the case of the first councilmen elected, on the day this plan takes effect, the members elected to the municipal council shall assemble at the usual place of meeting of the governing body of the municipality and organize and elect one of their number as mayor. The mayor shall be chosen by ballot by a majority vote of all members of the municipal council. If the members shall be unable, within five ballots to be taken within two days of said organization meeting to elect a mayor, then the member who in the election for members of the municipal council received the greatest number of votes shall be the mayor. Should such person decline to accept the office, then the person receiving the next highest vote shall be mayor and so on. The compensation of the mayor under this plan shall be \$2,400.00 dollars.

Section 31. The mayor shall preside at all meetings of the municipal council and shall have a voice and vote in its proceedings. All bonds, notes, contracts, and written obligations of the municipality shall be executed on its behalf by the mayor, or in the event of his inability to act, by such councilman as the municipal council shall designate to act as mayor during his absence or disability.

Section 32. All legislative powers and other powers granted to cities and towns shall be exercised by the council, except those powers conferred on some officer by law or ordinance, and except as otherwise provided herein.

Section 33. The municipal council shall appoint a municipal manager, a municipal clerk, and a municipal attorney. Any of such offices may be held by the same person. The council may provide for the appointment of other necessary officers and employees, and may create commissions and other bodies with advisory powers. All appointments and removals of personnel, except the municipal manager, shall be made in accordance with the provisions of such merit or civil service system law as may be applicable to such municipality.

Section 34. The municipal council shall continue or create, and determine and define the powers and duties of, such executive and administrative departments, boards, and officers in addition to those provided for herein, as it may deem necessary for the proper and efficient conduct of the affairs of the municipality. Any department, board, or office so created may at any time be abolished by the municipal council.

Section 35. It is the intention of this chapter of this act that the municipal council shall act in all matters as a body, and it is contrary to the intent of this chapter for any of its members to seek individually to influence the acts of the municipal manager, or any other officer, or to direct or request the appointment of any person to, or his removal from office; or to interfere in any way with the performance by such officers of their duties. The council and its members shall deal with the administrative service solely through the manager and shall not give orders to any subordinate of the manager, either publicly or privately. Nothing herein contained shall prevent the municipal council from appointing committees or commissioners of its own members or of citizens to conduct investigations into the conduct of any officer or department, or any matter relating to the welfare of the municipality, and delegating to such committees or commissions such powers of inquiry as the municipal council may deem necessary. Any councilman violat-

ing the provisions of this section shall be disqualified to serve thereafter, and may be removed from his office by an appropriate proceeding brought in a court of competent jurisdiction.

Section 36. The municipal council shall as soon as possible after its organization appoint by a vote of a majority of all its members, a municipal manager at such salary and under such conditions as the municipal council by a majority vote may decide.

Section 37. The manager may designate a qualified administrative officer of the municipality to perform his duties during his temporary absence or disability. In the event of his failure to make such designation, the council may by resolution appoint an officer of the municipality to perform the duties of the manager during such absence or disability until he shall return or his disability shall cease.

Section 38. The municipal manager shall be chosen by the council solely on the basis of his executive and administrative qualifications, with special reference to his actual experience in, or his knowledge of, accepted practice in respect to the duties of his office as hereinafter set forth. At the time of his appointment, he need not be a resident of the municipality or state, but during his tenure of office he must reside inside the municipality.

Section 39. The municipal manager shall hold office for an indefinite term and may be removed by a majority vote of the council. At least thirty days before such removal shall become effective, the council shall by a majority vote of its members adopt a preliminary resolution stating the reasons for his removal. The manager may reply in writing and may request a public hearing, which shall be held not earlier than twenty days nor later than thirty days after the filing of such request. After such public hearing, if one is requested, and after full consideration, the council by a majority vote of its members may adopt a final resolution of removal. By a preliminary resolution the council may suspend the manager from duty, and shall in any case cause to be paid him forthwith any unpaid balance of his salary and his salary for the next three calendar months following adoption of the preliminary resolution.

(d) Negotiate contracts of the municipality subject to the approval of the municipal council, make recommendations concerning the nature and location of municipal improvements, and execute municipal improvements as determined by the municipal council; provided, all contracts of whatever nature for the purchase of materials, equipment, supplies, or other personal property involving more than 100 dollars or less than 2,000 dollars, made by or on behalf of the municipality, shall be let by free and open competitive bidding, on written sealed bids, to

the lowest responsible bidder. Provided further that all purchases of 2,000 dollars or more shall be advertised for by publication three successive weeks before the date set for the letting, in a newspaper published in the city, and in any other manner and for such lengths of time as the council may determine. All bids shall be sealed when received, shall be opened in public at the hour stated in the notice, and all original bids together with all documents relating to the award of the contract shall be retained and made a part of a permanent record or file and shall be open to public inspection;

(e) See that all terms and conditions imposed in favor of the municipality or its inhabitants in any statute, public utility franchise, or other contract are faithfully kept and performed, and upon knowledge of any violation call the same to the attention of the municipal council;

(f) Attend all meetings of the municipal council with the right to take part in the discussions, but without the right to vote;

(g) Recommend to the municipal council for adoption such measures as he may deem necessary or expedient, and make reports to the council as requested by it, and at least once a year make an annual report of his work for the benefit of the council and the public;

The budget shall be in such form as may be required by the council, and shall in addition have appended thereto a detailed analysis of the various items of expenditure and revenue. The council shall, where practicable, provide by ordinance for the operation of a system of quarterly allotments for the operation of the budget, and for the development and reporting of appropriate unit costs of budgeted expenditures. The budget shall become effective on the first day of October.

Section 43. In any act or ordinance a provision conferring the appointing power or other power upon the mayor or other executive officer of the municipality shall be construed as meaning the municipal manager in a municipality governed under this chapter of this act, and the appointments or the power exercised by the municipal manager in accordance with such provisions shall be classified and given the same force and effect as if executed by the official named therein.

Section 44. A municipal engineer shall supervise all work by or for the municipality of a technical or engineering nature. He shall as directed by council, compile and compute the unit cost of all

work and services of an engineering or technical nature paid for by the municipality, whether charged to force account or by contract, and shall report thereon annually and at such other times as the mayor or council may require.

#### Chapter 4

Section 45. A schedule of the installation of an optional plan adopted pursuant to this act shall, as provided herein, take the following course:

Section 46. Upon the effective date of an optional form of government adopted pursuant to this act, the provisions of this act pertaining thereto shall become applicable to such municipality, and the existing form of government for such municipality shall be abolished. All ordinances and resolutions of the municipality to the extent that they are not inconsistent with the provisions of this act shall remain in full force and effect until modified or repealed as provided by law. All officers and employees of any municipality adopting an optional plan pursuant to this act, except those whose terms of office are abolished by the adoption of such optional plan, shall continue in office until otherwise provided by the municipal council.

Section 47. All actions and proceedings of a legislative, executive, or judicial character which are pending upon the effective date of an optional plan adopted pursuant to this act may continue, and the appropriate officer or employee under such optional plan shall be substituted for the officer or employee theretofore exercising or discharging the function, power, or duty involved in such action or proceeding.

Section 48. The provisions of this act are severable. If any part of the act is declared invalid or unconstitutional, such declaration shall not affect the part which remains.

Section 49. All laws or parts of laws which conflict with this act are repealed.

H. 1086 (with amendment): To empower the county board of ed-

#### AMENDMENT TO H. B. 1086

Substitute the following for Section 1 of the bill:

"Section 1. The county board of education of Marengo County may authorize the use of county school buses for the purpose of transporting persons to and from any encampment or educational, recreational, or civic function held, sponsored, or conducted by any farm demonstration or farm life club in the county whenever such use will not interfere with the principal use of such school buses; and may make such reasonable charge for the use of such school buses as in its opinion is necessary to reimburse the school funds for all necessary costs and expenses incurred by reason of such use. Whenever the board of education authorizes the use of school buses for any of the purposes enumerated herein, such buses shall be used only for the specific purpose which the board authorized and in strict conformity to any regulations or stipulations relative to such use as may be prescribed by the board."

And the bill:

H. 1092. To provide, with respect to any pension system heretofore or hereafter established for the employees of any city of the state having a population of 300,000 or more according to the last or any subsequent federal census, that if there are numerous members of any such pension system, or if there are numerous beneficiaries under any such pension system, whose several rights to benefits or several claims for benefits are affected by the same question of law, then such of them, one or more, as will fairly insure the adequate representation of all, may upon behalf of all file a class suit against the trustees of the pension system to enforce the benefits in the equity division, or on the equity side of the circuit court, of that judicial circuit wherein the city is situated; to provide that no such class suit shall be instituted unless one of the parties in the original bill of complaint, either personally or through his attorney, files with the secretary of the trustees of the pension system a demand for payment of the benefit claimed, and that no such class suit shall be filed until ninety days have elapsed between the time of the filing of the said claim with said secretary and the filing of the bill of complaint in the circuit court, or until after the trustees of the pension system or the said secretary of the said trustees, or the city attorney, has advised the claimant or the claimant's attorney that the benefit demanded is denied; to provide for the allowance of a solicitor's fee to the solicitor or solicitors prosecuting the class suit subject to the terms, conditions and limitations prescribed in said act; to provide that any such solicitor's fee allowed shall not be charged as costs in the suit and shall not be charged against the city, the trustees of the pension system or against the pension fund, and to provide the funds out of which any such solicitor's fee allowed shall be payable; to provide the factors which shall be taken into consideration in determining the amount of any such solicitor's fee; and to provide that Section 63, Title 46, Code of Alabama of 1940, shall not apply so as to authorize the allowance of any attorney's fee or solicitor's fee in any action or suit involving any such pension system of any such city.

A BILL  
TO BE ENTITLED  
AN ACT

TO PROVIDE, WITH RESPECT TO ANY PENSION SYSTEM HERETOFORE OR HEREAFTER ESTABLISHED FOR THE EMPLOYEES OF ANY CITY OF THE STATE HAVING A POPULATION OF 300,000 OR MORE ACCORDING TO THE LAST OR ANY SUBSEQUENT FEDERAL CENSUS, THAT IF THERE ARE NUMEROUS MEMBERS OF ANY SUCH PENSION SYSTEM, OR IF THERE ARE NUMEROUS BENEFICIARIES UNDER ANY SUCH PENSION SYSTEM, WHOSE SEVERAL RIGHTS TO BENEFITS OR SEVERAL CLAIMS FOR BENEFITS ARE AFFECTED BY THE SAME QUESTION OF LAW, THEN SUCH OF THEM, ONE OR MORE, AS WILL FAIRLY INSURE THE ADEQUATE REPRESENTATION OF ALL, MAY UPON BEHALF OF ALL FILE A CLASS SUIT AGAINST THE TRUSTEES OF THE PENSION SYSTEM TO ENFORCE THE BENEFITS IN THE EQUITY DIVISION, OR ON THE EQUITY SIDE OF THE CIRCUIT COURT, OF THAT JUDICIAL CIRCUIT WHEREIN THE CITY IS SITUATED; TO PROVIDE THAT NO

SUCH CLASS SUIT SHALL BE INSTITUTED UNLESS ONE OF THE PARTIES IN THE ORIGINAL BILL OF COMPLAINT, EITHER PERSONALLY OR THROUGH HIS ATTORNEY, FILES WITH THE SECRETARY OF THE TRUSTEES OF THE PENSION SYSTEM A DEMAND FOR PAYMENT OF THE BENEFIT CLAIMED, AND THAT NO SUCH CLASS SUIT SHALL BE FILED UNTIL NINETY DAYS HAVE ELAPSED BETWEEN THE TIME OF THE FILING OF THE SAID CLAIM WITH SAID SECRETARY AND THE FILING OF THE BILL OF COMPLAINT IN THE CIRCUIT COURT, OR UNTIL AFTER THE TRUSTEES OF THE PENSION SYSTEM OR THE SAID SECRETARY OF THE SAID TRUSTEES, OR THE CITY ATTORNEY, HAS ADVISED THE CLAIMANT OR THE CLAIMANT'S ATTORNEY THAT THE BENEFIT DEMANDED IS DENIED; TO PROVIDE FOR THE ALLOWANCE OF A SOLICITOR'S FEE TO THE SOLICITOR OR SOLICITORS PROSECUTING THE CLASS SUIT SUBJECT TO THE TERMS, CONDITIONS AND LIMITATIONS PRESCRIBED IN SAID ACT; TO PROVIDE THAT ANY SUCH SOLICITOR'S FEE ALLOWED SHALL NOT BE CHARGED AS COSTS IN THE SUIT AND SHALL NOT BE CHARGED AGAINST THE CITY, THE TRUSTEES OF THE PENSION SYSTEM OR AGAINST THE PENSION FUND, AND TO PROVIDE THE FUNDS OUT OF WHICH ANY SUCH SOLICITOR'S FEE ALLOWED SHALL BE PAYABLE; TO PROVIDE THE FACTORS WHICH SHALL BE TAKEN INTO CONSIDERATION IN DETERMINING THE AMOUNT OF ANY SUCH SOLICITOR'S FEE; AND TO PROVIDE THAT SECTION 63, TITLE 46, CODE OF ALABAMA OF 1940, SHALL NOT APPLY SO AS TO AUTHORIZE THE ALLOWANCE OF ANY ATTORNEY'S FEE OR SOLICITOR'S FEE IN ANY ACTION OR SUIT INVOLVING ANY SUCH PENSION SYSTEM OF ANY SUCH CITY.

Be It Enacted by the Legislature of Alabama:

Section 1. This act shall apply to any pension system heretofore or hereafter established for employees of any city of the state having a population of three hundred thousand or more according to the last or any subsequent federal census. "The city" shall mean a city wherein such pension system is established. "Pension system" shall mean a pension system to which this act applies. "Benefit" shall mean any retirement benefit, disability benefit, widow's benefit, or child's benefit provided for by the pension system; and the word benefit shall include any disputed part of a benefit or supplement to a benefit, in the event there should be a controversy with respect to such part of, or supplement to, a benefit. "Trustees" shall mean the members of the board of trustees or the members of the board of managers in whom the law vests authority to manage, control or operate the pension system. "Members of the pension system" shall mean and include persons who as employees of the city belong to the pension system, retired employees entitled to benefits under the pension system and persons who as widows or as children of deceased employees of the city are entitled to benefits under the system. "Class suit" shall mean a class suit filed in accordance with the terms of this act.

Section 3. If there are numerous members of a pension system whose several rights to benefits or several claims for benefits are af-

fectured by a common question of constitutional law, then such of them, one or more, as will fairly insure the adequate representation of all, may upon behalf of all file against the trustees a class suit to enforce the claimed benefits in the equity division, or on the equity side, of the circuit court of that judicial circuit wherein the city is situated, but only after compliance with all of the provisions of this act prescribing what shall be done before such suit is filed.

Section 4. No class suit shall be instituted under this act by any persons unless prior to the institution of such suit one of the parties complainant in the original bill of complaint, either personally or through his or her attorney, shall have filed with the Secretary of the trustees a written or typed demand for payment of the benefit claimed, which said demand shall state specifically what benefit is demanded and the basis of the demand. Nor shall any class suit be instituted under this act until ninety days have elapsed between the filing of the claim with the secretary of the trustees, as aforesaid, and the filing of the bill of complaint in the circuit court; provided, however, that the ~~said bill of complaint~~ may be filed at any time after the trustees have advised, or the secretary of the trustees, ~~or the city attorney~~, has advised, the claimant or the claimant's attorney, in writing, that the benefit demanded is denied.

No class suit shall be instituted under this act unless every complainant in the original bill of complaint shall, prior to or contemporaneously with filing the bill of complaint, file with the Register of the Circuit Court security for costs in an amount approved by a judge of the Circuit Court, which security for costs may consist of a cash deposit or a bond executed by the complainant or complainants and a surety or sureties approved by the said Register. It is further provided that at any time during the pendency of such class suit the amount of such security for costs shall be increased to such amount as may be required by order of the court on motion of the trustees of the pension system, which increase shall be made within the time specified in the said order. The complainant or complainants shall be given such notice of any motion to increase the amount of the security as may be provided for by the judge to whom the motion is presented. Upon failure to increase the amount of the security as required by any such order, the suit shall be subject to dismissal.

Section 5. Any such class suit shall not be dismissed or compromised without the approval of the court.

Notice of the proposed dismissal or compromise shall be given to all members of the class or to such members of the class as the court may direct. No such notice shall be given unless the court requires it.

Section 6. Any person who belongs to the class of those whose several rights to benefits or several claims for benefits are affected by the common question of constitutional law involved in the suit shall have the right to intervene in the suit and to be represented therein by a solicitor of his own choice.

The right of intervention hereby accorded shall apply to any person who has any present or contingent interest in the question of constitutional law involved in the class suit, even though such person is still in the active employ of the city.

Section 7. The decision rendered in such class suit shall be operative under the doctrine of *res judicata* in favor of, or against, all persons whose right to the benefit claimed is affected by the question of constitutional law involved in the suit, including persons still in the

active employ of the city and persons whose right, or claimed right, to the benefit is contingent.

Section 8. If the bill of complaint in any class suit brought under this act requests the allowance of a solicitor's fee to the solicitor or solicitors prosecuting the class suit, the court, subject to the conditions and limitations herein stated, may ascertain a reasonable solicitor's fee to be allowed the solicitor or solicitors prosecuting the class suit. In no event shall any solicitor's fee be charged as a part of the costs in the suit, or charged against the city, or against the trustees of the pension system, or against the fund of the said pension system. Any solicitor's fee allowed hereunder shall be payable from, and only from, benefits payable to the members of a class whose right to disputed benefits was established as a consequence of said suit. Any such solicitor's fee allowed under this act shall not be chargeable against, or payable out of, benefits received by any person from the pension system if such person is employed by the city at the time the class suit is instituted. The purpose of the next preceding sentence is to prohibit any solicitor's fee being charged against benefits which may be payable in the future to persons in the employ of the city when the suit is instituted; and it is, therefore, hereby provided that any person who has been retired for length of service shall not be deemed to be in the employ of the city notwithstanding following his retirement he becomes, and continues to be, a member of a reserve force the members of which are subject to such duties as may be assigned to them.

If the right to a claimed benefit is not established in the suit, no solicitor's fee shall be allowed for litigating the question of the right to such benefit.

In a class suit wherein the court renders a decree the effect of which is to establish the right to a disputed benefit claimed, the court in determining the amount of the fee may take into consideration the fact that the members of the class will receive benefits accruing in the future as well as benefits accrued down to the time of the decree.

In the event more than one solicitor prosecutes the class suit, the court may divide any solicitor's fee allowed between the solicitors so participating on such basis as the court determines is fair and reasonable.

In any such class suit the written statement hereinafter to be made by the city comptroller, or the person holding the office comparable to the office of the city comptroller, may be considered by the court in determining the amount of benefits which members of the class are severally entitled to recover, in the event the court holds that members of the class are entitled to the disputed benefits claimed; and such statement may also be considered by the court in determining the amount of the solicitor's fee, if any, to be allowed. Such statement shall not be construed as any admission by the trustees or the city that members of the class are entitled to any of the disputed benefits claimed; but if the court finds that the members of the class are entitled to the disputed benefits claimed, then such statement shall constitute prima facie evidence that the members of the class are severally entitled to recover the disputed benefits claimed in such amount or amounts as is reflected by the said statement. The said statement shall be signed by the city comptroller, or by the person occupying the office comparable to the office of city comptroller, shall be verified by him under oath, and shall contain such information as will enable the court to determine the amount of benefits which members of the class are severally entitled to recover down to the time of the decree,

in the event the court concludes that members of the class are entitled to the disputed benefits claimed.

In the event of an appeal to the Supreme Court of Alabama, the circuit court upon termination of such appeal may, upon motion of the solicitor or solicitors representing the class, allow any additional fee, which is appropriate for services rendered by the solicitor or solicitors on the appeal to the Supreme Court subject to all the conditions and limitations above stated.

If the court allows any fee hereunder, the court shall provide in its decree allowing such fee that the fee shall be a lien upon benefits of the class whose disputed rights were established by such suit; and the disbursing agent of the pension system, in accordance with the terms of the decree, shall deduct from the benefits payable to the class benefited by said suit the amount required to be deducted by said decree as solicitor's fee, and pay the sums so deducted to the solicitor or solicitors to whom the said solicitor's fee is awarded.

Section 9. No attorney's fee or solicitor's fee shall be allowed by any court under Section 63, Title 46, Code of Alabama of 1940, in any action or suit instituted by any member of any pension system established for the employees of any such city wherein such member of said pension system seeks to recover either for himself or for any class to which he belongs any benefit which such member claims is payable out of the said pension system fund to himself or to the class to which he belongs. The provisions of the sentence next above shall apply to any action or suit instituted by any member of such pension system to recover a benefit for himself or for the class to which he belongs, irrespective of whether such action or suit is a class action or suit within the meaning of this act.

Section 10. If any section, clause or provision of this act shall be held unconstitutional it shall in no wise affect any other section, clause or provision not unconstitutional in itself.

Section 11. This act shall become effective upon its approval by the Governor or upon its otherwise becoming a law.

And the substitute was adopted.

Be It Enacted by the Legislature of Alabama:

Section 1. Whenever any county, city or independent school district board of education shall have failed to act under the provisions of Act No. 528, General Acts of Alabama of 1957, and whenever the Governor shall determine, from such facts as he may find to exist, the sufficiency of which he shall be the sole judge, that the continued operation of any public school in any county, city or independent school district in the State is likely to result in or cause violence or public disorder or endanger life and property in the community in which such school is situated, or that it is necessary in order to preserve the good order, peace and dignity of the State, or any subdivision thereof, that any such school be closed, he must make public his findings by proclamation, and such school must thereupon be closed upon service of an official copy of such proclamation upon the person or persons in charge of such school by the sheriff of the county in which such school is located.

Section 2. A determination by the Governor to close a public school made in accordance with the provisions of this Act shall be final and not subject to review by any court or other authority.

Section 3. Whenever any public school is closed pursuant to this Act, the Board of Education or other public authorities of the County, city or independent school district shall take necessary action to protect all public school property of such public schools so closed. Nothing contained in this Act shall be construed as impairing the power

of the county, city or independent school district boards of education with respect to the reopening of the school or schools ordered closed by the Governor, the sale, lease, or exchange of public school property under their jurisdiction as provided by law. Whenever any public school is ordered by the Governor, pursuant to this Act, to be closed, the local Board of Education may transfer the teachers and other employees of the closed school to other schools within the jurisdiction of the employing board of education at the same compensation, upon the same terms and with the same rights and benefits to which they are entitled at the closed school, and may transfer or assign, as the case may be, any pupils affected by said closure to another school or schools within the jurisdiction of said board, or said board of education may make such other provisions for the education of such pupil or pupils as is authorized by law.

Section 4. If any provision of this Act or the application thereof to any person or circumstance is held invalid, such invalidity shall not affect other provisions or applications of the Act which can be given effect without the invalid provision or application, and to this and the provisions of this Act are declared to be severable.

Section 5. All laws and parts of laws in conflict with this Act are hereby repealed.

Section 6. This Act shall become effective immediately upon its passage and approval by the Governor or upon its otherwise becoming a law.

And the substitute was adopted.

Mr. Ashworth offered the following substitute for the bill, H. 669:

A BILL  
TO BE ENTITLED  
AN ACT

To implement the powers of the Governor as conservator of the peace and to authorize the Governor to close any school, trade school, or institution or any branch or department thereof under the control of the State Board of Education; and to provide for the effective date of this Act.

Be It Enacted by the Legislature of Alabama:

Section 1. Whenever the Governor shall determine, from such facts as he may find to exist, the sufficiency of which he shall be the sole judge, that the continued operation of any school, trade school, or institution or any branch or department thereof under the control of the State Board of Education is likely to result in or cause violence or public disorder or endanger life and property in the community in

which such school, trade school, or institution or any branch or department thereof is situated, or that it is necessary to preserve the good order, peace and dignity of the State, or any subdivision thereof, that any such school, trade school, or institution or any branch or department thereof, be closed, he as conservator of the peace shall make public proclamation of such findings, and such school, trade school, or institution or any branch or department thereof, shall thereupon be closed upon service of an official copy of such proclamation upon the person or persons in charge of such school or institution by the sheriff of the county in which such school or institution is located.

Section 2. A determination by the Governor to close a school, trade school, or institution or any branch or department thereof, made in accordance with the provisions of this Act shall be final and not subject to review by any court or other authority.

Section 3. Whenever any school, trade school, or institution or any branch or department thereof, is closed pursuant to this Act, the board under whose jurisdiction said school, trade school, or institution or any branch or department thereof, lies, shall take the necessary action to protect all public property of such school, trade school, or institution or branch or department thereof, so closed. Such board may reopen such school, trade school or institution or branch or department at its discretion.

Section 4. If any provision of this Act or the application thereof to any person or circumstance is held invalid, such invalidity shall not affect other provisions or applications of the Act which can be given effect without the invalid provision or application, and to this end the provisions of this Act are declared to be severable.

Section 5. All laws and parts of laws in conflict with this Act are hereby repealed.

Section 6. This Act shall become effective immediately upon its passage and approval by the Governor or upon its otherwise becoming a law.

And the substitute was adopted.

nial census; designating the date for regular elections, and authorizing the board of commissioners to call special elections; prescribing the manner of giving notice of municipal elections, of designating voting places, and of preparation of ballots and voting machines for such elections; prescribing the manner of casting ballots, counting the votes, and making returns of elections; providing for and requiring a second or run-off election whenever no candidate receives a majority of the votes cast; designating certain acts and omissions relative to municipal elections as offenses and prescribing penalties therefor; prescribing the grounds on which such elections may be contested and the procedure for contests thereof; and providing that the costs of municipal elections shall be paid for by the city or town holding such elections.

Be It Enacted by the Legislature of Alabama:

Section 1. Elections in cities and towns of this state organized under a commission form of government, which cities and towns have a population of less than 325,000 inhabitants according to the 1950 decennial census, shall be held and conducted at the times and in the manner herein prescribed; and the expenses of and costs incident to the conduct of all such elections shall be paid out of the treasury of the city or town holding the election.

Section 2. Whenever in this Act an hour of the day is prescribed for the doing of any act the time used shall be that of the ninetieth degree of longitude west of Greenwich, otherwise known as standard railroad central time. Whenever the last day on which an act may be done pursuant to this Act falls on a legal holiday as defined in Section 184 of Title 39, Code of Alabama, 1940, or on a day on which the office in which the act must be done is authorized by law to be closed such act may be done on the next succeeding secular or working day. Section 3. (a) The regular municipal elections in such cities and towns shall be held on the first Tuesday in September 1960, and on the first Tuesday in September of each year thereafter in which the term of office of a commissioner shall expire; and when necessary as provided in Section 35 of this Act a second or run-off election shall be held on the third Tuesday in September thereafter. Commissioners elected at regular elections shall assume the duties of their offices on the first Monday in October following their election unless herein otherwise provided.

(b) A special election shall be held on any second or fourth Tuesday between the fifteenth day of April and the second day of the following February when ordered by the municipal governing body, provided, that notice of any such election was published, in the manner prescribed in the following section, on or before the corresponding Tuesday of the second month preceding the month in which the election is held.

(a) It shall be the duty of the mayor or other chief executive officer of the city or town to give notice of all municipal elections by publishing notice thereof in a newspaper published in the city or town, and if no newspaper is published in the city or town then by posting notices thereof in three public places. When the notice is of a regular election such notice shall be published on or before the first Tuesday in July preceding the election. When the notice is of a special election to be held on the second Tuesday in a month such notice shall be published on or before the second Tuesday of the second month preceding the month in which the election will be held. When the notice is of a special election to be held on the fourth Tuesday of a month such

notice shall be published on or before the fourth Tuesday of the second month preceding the month in which the election will be held. Whenever and wherever two or more commissioners are to be elected the notice of the election shall clearly indicate which positions are to be filled, and each candidate in the announcement of his candidacy, shall designate the number of the position for which he is a candidate.

Section 5. The boundaries of wards within municipalities which have been divided into wards as now defined shall so remain until changed by ordinance. Hereafter the municipal governing body may, in its discretion, readjust the boundary lines of wards and may divide or consolidate any number of wards and resubdivide the same into voting districts; provided that no such ordinance making an adjustment to ward lines or subdividing wards into districts shall be adopted within three months of an election. Whenever the municipal governing body readjusts any ward lines or divides a ward into voting districts the ordinance whereby the ward is established or subdivided into voting districts shall describe the territory composing the ward, and when the ward is subdivided the territory composing each district therein, by metes and bounds; and the municipal clerk, within five days after adoption of the ordinance, shall file with the judge of probate of the county in which the municipality lies a certified copy of such ordinance, accompanied by a map or plat of the city or town showing the boundaries

of all wards and voting districts in wards into which the municipality is then divided, and shall also publish notice of all such changes or adjustments of boundaries of wards and voting districts within wards, in a newspaper published in such city or town, or if no newspaper is published therein then by posting notice thereof at three public places in such city or town. The board of commissioners shall, when it orders an election, designate at least one place of voting in each ward and if such ward has been divided into voting districts then at least one place of voting in each district. In those wards or districts where paper ballots are used in which there are more than three hundred legal voters or where voting machines are used six hundred legal voters the board of commissioners may divide alphabetically the list of qualified voters in such ward or district into groups and assign each qualified voter a designated voting place and a designated box or voting machine in such ward or district. Nothing herein contained shall be construed to require the board of commissioners to designate more than one voting place in any ward which has not been divided into districts nor more than one voting place in any district, nor to provide a ballot box for every three hundred qualified electors when paper ballots are used or a voting machine for every six hundred qualified electors where voting machines are used.

Section 7. In all municipal elections on any subject which may be submitted by law to a vote of the people of the municipality and for commissioners, if paper ballots are used, the voting shall be by official ballot printed and distributed as hereinafter provided, and no ballot shall be received or counted in any election unless it is provided as prescribed by law.

There shall be but one form of ballot for all the candidates for the board of commissioners, and every ballot provided for use at any polling place in a municipal election shall contain the names of all candidates whose nominations for any position to be filled at such election have been duly made and not withdrawn, as hereinafter provided, together with the number of the position for which they are candidates, arranged in tickets under the titles of the respective political parties or independent bodies as certified in the certificates of nomination.

All ballots shall be printed in black ink on clear book paper. At the bottom of each ballot and at a point an equal distance from the sides thereof there shall be printed a one-inch square in which the number of the ballot shall be placed by the inspector when the ballot is cast; and every ballot shall contain a party device for each political party represented on the ticket. The arrangement of the ballot shall in general conform substantially to the plan hereinafter given, and in all cases the party columns must be placed in alphabetical order, beginning on the left of the ballot. The list of candidates of the several parties shall be printed in parallel and perpendicular columns, each column shall be headed by the chosen device of such party, as shown by the certificate of the secretary of state filed with the probate judge of the county immediately prior to the last preceding general election for state officers, and the party name or other designation. There shall be a column for each separate ticket of candidates and such columns as are required for independent candidates to be voted for at the polling place for which the ballot is provided, and in the appropriate place the words "vote for one."

Ballots shall be fastened together in convenient numbers in books or blocks in such manner that each ballot may be detached and re-

moved separately and each ballot shall have attached to it a stub of sufficient size to enable one of the inspectors to write or stamp his name or initials thereof and so attached to the ballot that when the same is folded the stub can be detached therefrom without injury to the ballot or exposing the contents thereof.

In the case of nomination by independent bodies, the ballot shall be so arranged that at the right of the last column for party nomination the several tickets of names of independent candidates shall be printed in one or more columns according to the space required, having above each of the tickets the political or other names selected to designate such independent nominations. The ballot herein provided shall be substantially in the following form, viz:

| Names of officers<br>to be voted for | Emblem<br>Democratic<br>O | Emblem<br>Republican<br>O | Emblem<br>Independent<br>O |
|--------------------------------------|---------------------------|---------------------------|----------------------------|

( ) James Jones

Place No. 2 ( ) \_\_\_\_\_ ( ) \_\_\_\_\_ ( ) \_\_\_\_\_

Place No. 3 ( ) \_\_\_\_\_ ( ) \_\_\_\_\_ ( ) \_\_\_\_\_

The names of all the candidates who have been put in nomination by any caucus, convention, mass meeting, primary election, or other assembly of any political party or political faction in the municipality, and certified in writing and filed with the chief executive officer of the municipality by five o'clock p.m. on the first Tuesday in August preceding the date of the election shall be printed on the ballots. The certificate must contain the name of each person nominated and the office for which he is nominated, and must be signed by the presiding officer and secretary of the caucus, convention, mass meeting or other assembly, or by the chairman and secretary of the canvassing board of the primary election at which such candidates were nominated.

The mayor or other chief executive officer of the municipality, except when he is a candidate in such election, in which case some person appointed by the board of commissioners to serve in his stead, shall also cause to be printed on the ballots the name of any qualified elector who has, by five o'clock p.m., on the first Tuesday in August preceding the date set for the election, filed a statement of candidacy, accompanied by an affidavit taken and certified by an officer authorized to take acknowledgments in this state, that such person is duly qualified to hold the office for which he desires to become a candidate. Such statement shall be substantially in the following form: "State of Alabama, \_\_\_\_\_ County. I, the undersigned, being first duly sworn, depose and say that I am a citizen of the city (or town) of \_\_\_\_\_ in said county, and reside at \_\_\_\_\_ in said city (or town); that I desire to become a candidate from Place No. \_\_\_\_\_ on the Board of Commissioners of said city (or town) for the term of \_\_\_\_\_ years at the election for such office to be held on the \_\_\_\_\_ day of \_\_\_\_\_, 19\_\_\_\_; that I am duly qualified to hold said office if elected thereto and I hereby request that my name be printed upon the official ballot at said election. (Signed) \_\_\_\_\_ Subscribed and sworn to before me by said \_\_\_\_\_ on this \_\_\_\_\_ day of \_\_\_\_\_, 19\_\_\_\_. (Signed) \_\_\_\_\_ (Style of Officer)."

No names shall be printed upon the ballot as a candidate for election except the names of such persons as become candidates in the manner above prescribed, nor may any person be a candidate or be permitted to file his declaration for more than one place or position on the board of commissioners.

All certificates of nomination and statements of candidacy filed with the mayor or other chief executive officer of the city or town, or person appointed to act in his stead when he is a candidate in such election, within the time prescribed above shall be preserved for six months after the election for which such nominations or statements of candidacy were filed.

Section 8. The board of commissioners must, not more than twenty nor less than fifteen days before the holding of any municipal election, appoint from the qualified electors of the respective wards or voting districts, officers to hold the election as follows: where paper ballots are used one returning officer for each ward and three inspectors and two clerks for each box at each voting place; and where voting machines are used an inspector, a chief clerk and a first and second assistant clerk for each voting machine.

The chairman of the municipal executive committee of any political party which has made nominations for office or the nominee thereof, may furnish the board of commissioners a list of not less than three names of qualified electors from each voting place and an inspector and a clerk shall be appointed from said lists for each voting place; provided, that where there are more than two lists filed, the appointments shall be made from the lists presented by the two political parties having received the highest number of votes in the preceding regular municipal election, if each of said parties presents a list.

In the event a person appointed as an election official is excused from serving or otherwise disqualifies himself prior to election day, the vacancy created thereby shall be filled by the municipal governing body in the same manner that original appointments are made. It is provided, however, that if the vacancy is among the officers appointed to serve at a polling place where voting machines will be used, after the school of instruction for election officials has been held as prescribed in Section 11 of this Act, a person who has received a certificate from a previous school of instruction shall, if possible, be appointed to fill the vacancy.

The mayor or other chief executive officer of the municipality or when he is a candidate in such election the person appointed to act in his stead, shall publish a list of the election officers so appointed, either by posting a list thereof, showing the voting places and the election officers appointed for each such voting place, at three public places in the city or town, or by publishing such a list in a newspaper published in the city or town at least ten days prior to the election.

The mayor or other chief executive officer of the municipality or when he is a candidate in such election the person appointed to act in his stead, shall notify the inspectors, clerks and returning officers of their appointment.

The returning officer, the inspectors and the clerks at polling places where voting is solely by paper ballots shall each be entitled to five dollars, and each election officer at a polling place where elections are conducted in whole or in part by voting machines shall be

entitled to eight dollars. The compensation of the election officials shall be paid as preferred claims out of the general fund of the municipality holding the election, on proper proof of service rendered.

Section 9. The election officers at voting places where paper ballots are used shall meet at the respective places of holding elections for which they have been appointed, by eight o'clock of the morning of the election; and before nine o'clock open the several polling places as designated, and keep them open without adjournment or recess until six o'clock in the afternoon, and no longer.

The election officials at voting places where voting machines are used shall meet at the place of holding elections for which they have been appointed by 7:30 o'clock of the morning of the election; and at eight o'clock, a.m., shall open the polls and keep them open without adjournment until six o'clock, p.m., and no longer, except that in counties having a population of 400,000 or more inhabitants, according to the last or any subsequent federal decennial census, the poll shall be kept open until seven o'clock, p.m., and no longer, and any qualified elector entitled to vote at such polling place who has identified himself with the election officials at such polling place by such closing time shall be permitted to cast his ballot. Before entering upon their duties the election officers must take an oath to perform their duties at the election according to law, and such oath may be administered either by any person authorized by law to administer oaths or by an election inspector.

When paper ballots are used, the inspectors shall select one of their number, on opening the polls, to act as challenger, and the challenger shall ascertain if each person presenting himself to vote has registered and paid all poll taxes due, such finding to be from an examination of the official list of the voters furnished by the mayor or other chief executive officer, or person acting in his stead.

Before the election officials commence receiving ballots the election inspectors must cause it to be proclaimed aloud at the places of voting that the election is opened.

After the polls have been opened no adjournment or recess shall be taken until the certificates of the result of the election are signed.

Where voting machines are used the election officials shall also comply with the provisions of Section 27 of this Act and upon completing the duties thereby imposed shall formally declare the polls opened.

The marshal, chief of police, or other chief law enforcement officer of the city or town shall preserve good order at all municipal elections held in the city or town, but not more than one officer shall at the same time be allowed to enter the polling place. Except as electors are admitted to vote and persons to assist them, as provided in this Act, and except the above mentioned law enforcement officers, the election officials and the watchers, no person shall be permitted within thirty feet of the polling place.

Section 10. On the failure of any person who has been duly appointed an election officer to attend the polls at the hour prescribed for his attendance such of the election officers appointed for that voting box or machine as are present may appoint such election officers as are needed to complete the number of election officials for the box or machine. All persons so appointed shall be qualified

electors who are entitled to vote at that polling place. Should all the appointed election officers fail to be present at a polling place by the hour prescribed on election day, then any three qualified electors who are entitled by law to vote at that polling place at the election then to be held may open the polls, act as three of the election officers for such box, and appoint such other officers as are required to fill the place of those absent, provided every person so appointed shall be a qualified elector entitled to vote at the polling place.

Section 11. When voting machines are to be used in any municipal election the board of commissioners shall provide for holding a school or schools of instruction for those who will actually conduct the election. The municipal clerk shall notify those persons who have been appointed election officials of the time and place of the holding of such school of instruction and shall also publish notice thereof at least forty-eight hours before the same is to be held.

No election official shall serve in any election district in which a voting machine is used, unless he has received such instruction, is fully qualified to perform the duties in connection with the machine, and has received a certificate to that effect from the authorized instructor; provided, however, that this requirement shall not prevent the appointment of an uninstructed person as an election official to fill a vacancy among the election officials.

Section 12. During the thirty days next preceding an election at which voting machines will be used, the board of commissioners shall place on public exhibition in such public places and at such times as it may deem most suitable for the information and instruction of the voters, one or more voting machines, containing the ballot labels, and showing the offices and questions to be voted upon, the names and arrangement of the parties, and, so far as practicable, the names and arrangements of the candidates for office. Such machines shall be under the charge and care of a person competent as custodian and instructor. No voting machine which is to be assigned for use in an election shall be used for such public exhibition and instruction after having been prepared and sealed for the election. Prior to any election the board of commissioners may cause copies of any diagram or diagrams, required to be furnished with voting machines at polling places, to be made, either in full size or reduced size, and to be posted, published, advertised or distributed among the electors in such manner as they may deem desirable.

Section 13. The mayor or other chief executive officer of the municipality shall, at the expense of the municipality, procure and superintend and insure the delivery to the election officers at each polling place within the corporate limits of the municipality of the necessary election supplies.

When paper ballots are used such supplies shall consist of: at least one hundred ballots for each fifty registered electors at each voting place; the same number of black seals, two inches square, around the outer edge of which is a mucilaginous surface one-fourth inch wide, so designed that a seal may be placed securely over the square bearing the ballot number in such manner that it will make it impossible to read such number without removing the seal yet such seal may be removed without obliterating the number; ballot boxes; blank poll lists; for each ward or voting district three or more cards of instructions to voters, which shall be printed in large clear type and shall contain full instructions to electors as to what should be done,

first, to obtain ballots for voting, second, to prepare the ballot for deposit in the ballot box, third, to obtain a new ballot in place of one accidentally spoiled, and, fourth, to instruct as to the right and manner of obtaining a watcher for each political party having candidates to be voted for; certificates of results; oaths, and any other stationery, blank forms, or supplies necessary in the conduct of the election.

When voting machines are used such supplies shall consist of; ballot labels, diagrams, blanks for keeping a record of assisted voters, seals, blank forms for a statement of canvass of the votes cast on each machine, such forms to conform to the type of voting machine to be used, and the designating number and letter if the construction of the machine is such as to require a designating number and letter of each candidate (or proposition) shall be printed next to the candidate's name on the statement of canvass, and all other necessary election supplies for use on voting machines.

Section 14. Whenever voting machines are to be used in any municipal election the municipal clerk shall: cause the proper ballot labels to be placed on the voting machines; cause the machines to be placed in proper working order for voting; examine all voting machines in the presence of authorized watchers for any interested persons, before they are sent out to the polling places; see that all the registering counters are set at zero; lock, in the presence of authorized watchers, all voting machines so that the counting machinery cannot be operated; and seal each one with a numbered seal, a list of which numbered seals and the number on the protective counters, together with the number of the voting place to which it was sent, shall be kept as a permanent record in such clerk's office, open to any citizen. The inspection and scaling of voting machines shall begin not later than nine o'clock a.m., of the Friday before any election at which such machines are to be used, and shall continue until all machines are sealed. When all machines are locked and sealed, the key to each machine shall be placed in an envelope and sealed, the signature of the municipal clerk and the signature of two watchers of opposed interest (if such there be) shall be placed across the seal, and on the envelope shall be written the number then on the protective counter and the number on the seal of the voting machines. This envelope shall be delivered to the election inspector who will serve as an election officer at the polling place where such machine is used. It shall be the duty of the municipal clerk to see that a voting machine, or machines, together with an instruction model for each machine, showing a portion of the face of such machine in use at such election, is delivered to each and every polling place where machines are required by law to be used, at least one hour before the time set for opening the polls in such ward. After the machine has been delivered the clerk shall cause such machine to be set up in the proper manner and cause protection to be given so that such machine shall be free from molestation and injury. The protective curtains shall be examined to see that they properly conceal the actions of the voter while such voter is operating the machine. All poll lists and necessary supplies shall be delivered to the inspector at the same time the key or keys to the machine are delivered.

Section 15. For all elections at which paper ballots will be used, the chief executive officer of the municipality, at the expense of the municipality, shall provide at each polling place in all municipalities having a population of over three thousand inhabitants, a room or covered enclosure, and in such room or covered enclosure shall provide booths or compartments, one booth or compartment for each one

hundred, or fraction of one hundred over fifty, electors registered in the ward or wards in such municipality for that election, and shall furnish each booth or compartment with a shelf or table for the convenience of the electors in the preparation of their ballots. Each booth or compartment shall be so arranged that it will be impossible for one elector at a shelf or table in one compartment to see an elector at a shelf or table in another compartment in the act of marking his ballot. Each voting shelf or table shall be kept supplied with conveniences for marking the ballots. In voting places in cities having a population of three thousand or less no booths shall be required.

Section 16. Each political party having nominated candidates, by the chairman of the municipal executive committee or by the nominees for office or by the beat committeeman, and each independent candidate may name a watcher for every polling place where paper ballots are used and a watcher for every machine where voting machines are used. The watcher, upon presentation of his appointment in writing and being sworn faithfully to observe the rule of law prescribed for the conduct of elections, shall be permitted to be present at the place where ballots are cast from the time the polls are opened until the ballots are counted and certificates of the result of the election are duly signed by the proper election officers.

When paper ballots are used at the election the watcher shall be permitted to see the ballots as they are called during the count.

When voting machines are used the watchers shall, upon presentation of their appointment in writing, be permitted to be present when the machines are being prepared and sealed for use at the election. On election morning the watcher may witness the breaking of the seal on the envelope containing the key or keys to the voting machine, and, when the machine has been unlocked and the counters exposed, he shall carefully examine each and every counter to see that it registers zero, and he shall also examine the ballots and satisfy himself that they are in their proper places on the machine and that the machine is properly placed. Such watcher must also sign a certificate setting out the above facts, as required by Section 27. He may also be present and witness the opening of the machine after the polls have closed, the reading and tabulating of the result of the election as recorded on the voting machine, and the resealing of the machine.

Section 17. The mayor or other chief executive officer of the city or town shall cause to be made a list of the registered and qualified voters who reside within the corporate limits of such city or town, dividing the same into separate alphabetical lists of the qualified voters of each ward, where such city or town has been divided into wards and all qualified voters thereof vote at one box or voting machine, or dividing such list into separate alphabetical lists of voters authorized to vote at each respective box or voting machine if the list of qualified voters has been divided alphabetically and each alphabetical group assigned a box or machine at which to vote. He shall have such lists compared with the official list of electors qualified to vote during the current year on file in the probate office of the county in which the municipality is situated, and shall certify on each list prepared pursuant to this section that it is a correct list of the qualified voters of the municipality, ward, ballot box or voting machine to which it appertains. He shall have full access to all registration lists of the county for this purpose. A copy of each list so prepared shall be filed with the municipal clerk, on or before the second Monday in May preceding a regular municipal election, who shall file and retain

each such list as a public record in his office. The clerk shall prepare a copy of the list of qualified voters authorized to vote at each of the respective polling places in the municipality, and prior to the opening of the polls on election day he shall furnish to the inspectors, or one of them, of each ballot box or voting machine at each polling place a copy of the list of qualified voters authorized to vote at the box or voting machine for which he was appointed an inspector. The clerk shall also publish the list of qualified voters authorized to vote at the ensuing election at least five days prior to the election, either by publication in a newspaper of general circulation in the municipality or by posting copies thereof in at least three public places in the municipality, as directed by the municipal governing body.

Section 18. At all municipal elections the elector must vote only in the ward of his residence and at the box or voting machine to which he has been assigned. No person may vote at any such election unless he is a registered and qualified elector of the State of Alabama, who has resided in the county one year and in the ward three months prior to the election and who has registered not less than ten days prior to the date of the election at which he offers to vote. It is provided, however, that any elector who, within three months next preceding the date of the election at which he offers to vote, has removed from one ward to another ward in the same city or town shall have the right to vote in the ward from which he has removed, if he would have been entitled to vote at such ward but for such removal. If any elector attempts to vote in any ward other than that of his residence, except as hereinabove authorized, his vote must be rejected.

Any qualified elector of a ward who knows or suspects that a person proposes to vote or will offer to vote in such ward who is not entitled or duly qualified to vote in such ward may challenge such person. The challenge shall be communicated to the inspector before the challenged person is permitted to vote by the person in charge of admissions to the polling place. The person so challenged shall not be permitted to vote until he takes and subscribes the oath prescribed by Section 21 hereof and identifies himself in the manner therein prescribed.

Section 19. Where paper ballots are used, the inspector designated as challenger, upon the elector's entering the polling place shall examine the list of qualified electors furnished by the municipal clerk pursuant to Section 17 of this Act; and if it appears from this examination that the person is a qualified elector of the state authorized to vote at that box, unless such elector has been challenged by another qualified elector in the manner prescribed by Section 18 hereof, the inspectors shall then give him one ballot, on the stub of which one of the inspectors shall write or shall have already written his name or initials. If such person's name does not appear on the list of qualified voters for that ward or box then the challenger shall challenge said person. Any person so challenged or challenged by a qualified elector, as authorized in Section 18, above, shall not be allowed to vote until he has taken and subscribed to the oath prescribed in Section 21 hereof, and proved his identity in the manner therein prescribed. However, if such person duly executes the oath and establishes his identity in the manner prescribed then his ballot must be received and deposited in the ballot box in the same manner as the ballots of qualified electors.

In cities or towns of more than three thousand inhabitants each elector on receiving his ballot shall forthwith and without leaving the

polling place retire alone to one of the booths or compartments provided for that purpose and there prepare his ballot in the manner hereinafter provided. In all other cities or towns the elector may prepare his ballot at any point within the polling place.

Any elector who shall by accident or mistake spoil a ballot so that he cannot conveniently or safely vote the same, may return it to the inspectors and receive another in lieu thereof, which must be voted or returned by such elector.

After preparing his ballot the elector shall fold the same so as to conceal the face thereof and show the stub thereto attached with the name or initial of the inspector, and hand it to the receiving inspector, who must receive the folded ballot and call the name of the elector audibly and distinctly.

One of the clerks shall immediately enter on one of the lists, headed "names of voters" and called "poll lists," the name of such elector opposite the number indicating the order in which electors vote, the first elector voting being numbered one, the second two, and so on, to the last elector voting; and at the same time the other clerk shall see that the elector, whose name was called shall immediately sign his own name on another poll list, on a line bearing the same number appearing opposite such elector's name on the above mentioned poll list, unless such elector, because of physical handicap or illiteracy, is unable to write his own name on such list. If the voter is physically handicapped an election official shall write the name of such voter on said list together with the cause of assistance, and shall sign his own name on the poll list on the same line with the voters name. If the voter is unable to sign his name because of illiteracy, his name shall be written for him and the voter shall, in the presence of one of the election officials, make his mark upon the poll list. The election official witnessing the act shall record his name, as witness, on the same line with the name of the voter.

The receiving inspector shall then write the number of the ballot in the square provided therefor, and forthwith, in the presence of the voter, shall place one of the black seals, furnished along with the other election supplies, over the square in such manner as to make it impossible to see the number placed therein without removing the seal, yet so that the seal may be removed without obliterating the number placed in the square. After numbering the ballot the inspector shall detach the stub and pass the ballot to each of the other inspectors, and it must then, without being opened or examined, be deposited in the proper ballot box.

Section 20. When paper ballots are used any elector applying to vote, who shall state under oath to any of the inspectors (which oath may be administered by any one of the inspectors) that by reason of his inability to write the English language, or by reason of blindness or the loss of the use of his hand or hands, he is unable to prepare his ballot, may have the assistance of any person he may select. In such case, said elector must remain within the polling place and the inspector shall send for the person selected. If the person first selected can not be found, then such elector may select another person to assist him. The person so selected shall render said elector all such assistance in the preparation of his ballot as he may require, so that the ballot may be voted for the candidate of his choice, in the manner herein provided. In cities or towns of more than three thousand inhabitants the elector and the person selected to assist him shall retire

to a booth or compartment and there prepare the elector's ballot. In all other cities or towns they shall be permitted to prepare it at any point in the polling place.

No candidate for election shall act as assistant to any elector in the preparation of his ballot.

Section 21. Before any person who has been challenged by an inspector or a qualified elector, as hereinabove authorized, shall be allowed to vote, he shall take and subscribe to an oath, in the form hereinafter prescribed, and, in addition prove his identity and residence in the state, county, municipality, and ward in which he offers to vote by the oath of some elector personally known to one of the inspectors to be a qualified elector and a freeholder and householder.

Before administering the oath prescribed, one of the inspectors shall inform the challenged person that if he takes the oath wilfully and falsely, he is guilty of perjury and on conviction may be imprisoned in the penitentiary for not less than two years. One of the inspectors shall also inform any person making the affidavit of identity that if he makes such oath wilfully and falsely, he is guilty of perjury, and, on conviction, may be imprisoned in the penitentiary for not less than two years.

The oath hereinabove required of the challenged elector shall be tendered, read, and administered to him by one of the inspectors; shall be executed in duplicate; and shall be in the following form:

"State of Alabama, County of \_\_\_\_\_. I do solemnly swear (or affirm): 1. That I am a duly qualified elector under the Constitution and laws of the State of Alabama. 2. That I have resided in the State of Alabama two years next preceding this day. 3. That I have resided twelve months in this county next preceding this day. 4. That I have actually resided three months in this ward next preceding this day, or within three months next preceding this day have removed from this ward to another ward in this incorporated town or city, and would have been entitled to vote but for such removal. 5. That I am twenty-one years of age or upwards. 6. That I have not been convicted of any crime which disfranchises me. 7. That I have been duly registered and have paid all poll taxes due by me at the time prescribed by law, or am exempt by law from the payment of poll taxes. 8. I know of no reason why I am not entitled to vote. 9. I am generally known by the name under which I now desire to vote, which is \_\_\_\_\_. 10. I have not voted and will not vote in any other ward, (or if the ward has been divided into districts, in any other voting district) in this election. 11. My occupation is \_\_\_\_\_, the name of my employer is \_\_\_\_\_. 12. My residence is \_\_\_\_\_ (if in a city or town, give street number). 13. During the last twelve months I have resided at \_\_\_\_\_. 14. During the last three months I have resided at \_\_\_\_\_. 15. That \_\_\_\_\_ and \_\_\_\_\_ have personal knowledge of my residence in the State of Alabama for two years, in this county for twelve months and in this ward for three months next preceding this day. 16. This affidavit has been read to me. So help me God.

\_\_\_\_\_. Signature.

"Subscribed and sworn to before me this \_\_\_\_\_ day of \_\_\_\_\_, 19\_\_\_\_."

The oath to establish identity of a challenged applicant to vote shall be executed in duplicate and shall be in the following form:

"State of Alabama, County of \_\_\_\_\_. I, \_\_\_\_\_ do solemnly swear (or affirm) that I have known \_\_\_\_\_ (here insert the name of the person offering to vote) for the last two years next preceding this election, and that he has been a resident of this state for said time, twelve months in this county, and he has actually resided in this ward for the last three months preceding this election (or in case of change of residence provided for by Section 178 of the Constitution, he has resided in this state for two years next preceding this election, twelve months in this county, and within three months next preceding the date of this election, he removed from this ward to another ward in this incorporated town or city, and would have been entitled to vote but for such removal), all immediately preceding this election; I do solemnly swear (or affirm) that I am a qualified elector of this ward; that I have been a freeholder and householder in this ward for one year next preceding this election; that my occupation is \_\_\_\_\_; my residence is \_\_\_\_\_; my business address is \_\_\_\_\_.

\_\_\_\_\_ Signature.

"Subscribed and sworn to before me this \_\_\_\_\_ day of \_\_\_\_\_, 19\_\_\_\_."

After the above mentioned oaths have been duly taken and subscribed, the ballot of the person offering to vote must be received and deposited in the ballot box as the ballots of qualified electors.

Should a person be challenged after he has received a ballot and refuse to take the oath or fail to prove his identity and residence by the oath of a freeholder or householder, as hereinabove required, his vote shall be rejected, and his ballot marked with his name shall be laid aside by the inspectors.

Section 22. Where paper ballots are used no more than ten electors shall be allowed in the polling place at the same time. In all elections for which voting booths or compartments have been provided if all such booths or compartments are occupied and other electors are waiting to vote, no elector shall occupy a booth or compartment for a longer time than five minutes. No elector shall be allowed to occupy a booth or compartment already occupied by another, nor to speak or converse with any one except as herein provided while in the polling place. After having voted, or declined or failed to vote within five minutes, the elector shall immediately withdraw from the polling place and go beyond the prohibited distance and shall not enter the polling place again.

Section 23. Every voter in a municipal election shall have the right to vote a secret ballot, which shall be kept secret and inviolate.

Electors shall not be entitled to vote for any person whose name does not appear on the ballot, and no elector shall write in the name of any person on a ballot.

If the elector desires to vote a straight ticket, that is for each and every candidate for one party for whatever office nominated, he shall mark a cross mark (x) in the circle under the name of the party at the head of the ticket.

If the elector does not desire to vote for each and every candidate nominated by his party he may vote blank for any office on his party ticket by making a cross mark (x) in the circle at the top of

the ticket and striking out with pen or pencil the name or names of candidates he does not desire to vote for on the ballot.

Any elector who desires to vote a split ticket, that is, for candidates of different parties, may do so: (1) By making a cross mark in the voting space before the name of each candidate for whom he desires to vote on whatever ticket he may be; or (2) when the elector desires to vote for all of a party's nominees, except the candidate for one office, then the elector may make a cross mark (x) in the circle under the name of the party at the head of the ticket, and a cross mark before the name of the candidate for whom he desires to vote on the other ticket and mark through with a pen or pencil the name of the candidate for whom he does not desire to vote on his party ticket.

Section 24. No votes shall be counted until the polls are closed. Immediately after the polls are closed at elections where paper ballots are used the poll list signed by the voters and the poll list made by one of the clerks shall be sealed in separate envelopes and labelled before the inspectors begin to count the votes; and one copy of each affidavit made by a challenged voter and one copy of each affidavit identifying a challenged voter shall be sealed in a package by the inspectors, and the other copy of each of such affidavits shall be sealed in a package and forwarded to the solicitor of the county, who shall lay them before the next grand jury sitting for the county. As soon as this is done the ballots cast shall be counted in the following manner. The returning officer or one of the inspectors must take the ballots, one by one, from the box in which they were deposited, at the same time reading aloud the name of each person receiving a vote and the office for which he received such vote; and they must separately keep a calculation of the number of votes each person receives and for what office he receives them. If the elector has marked more names than there are persons to be elected to an office, or if for any reason it is impossible to determine the elector's choice for any office to be filled, his ballot shall not be counted for such office, but this shall not vitiate the ballot so far as properly marked, nor shall any ballot be rejected for any technical error which does not make it impossible to determine the elector's choice.

Section 25. At elections where paper ballots are used, as soon as the ballots are all counted, the inspectors must ascertain the number of votes received for each person and for what office, and must make a statement of same in writing. Each of the inspectors must sign this statement and must also certify in writing on the sealed envelope containing the poll list signed by the electors that such poll list is the poll list of the election ward at which they were inspectors, the day and year on which such election was held, and for what offices. The statement of the vote and the poll list thus certified, together with a list of the registered electors qualified to vote in such ward at such election on such day, must be sealed up in an envelope, furnished along with the other election supplies, and addressed to the municipal governing body. Each of the inspectors shall write his name across every fold at which the envelope when fastened could be opened; and such envelope shall be delivered immediately to the returning officer of the ward, who shall deliver it to the municipal clerk along with the ballot box.

As soon as the ballots contained in a ballot box have been counted and the statement of the vote prepared as above directed, the inspectors shall roll up the ballots so counted, seal the bundle thereof, and label the same so as to show for what officer or officers the

ballots contained therein were received. The rejected ballots, if any, shall also be rolled up, the package thereof labelled as rejected ballots and sealed up as the other parcel of ballots. These sealed packages, together with the sealed poll list made by one of the clerks, and the oaths relative to challenged voters, shall be returned by the inspectors to the ballot box from which the ballots were taken and the ballot box shall be securely sealed and labelled so as to show the nature of its contents. The inspectors shall also attach to the outside of the box a slip of paper, or other device, showing the total votes received by each candidate voted for in such election.

The envelope containing the statement of the votes, prepared pursuant to the first paragraph of this section, and the sealed ballot box shall be delivered to the returning officer of the ward who shall immediately and in any event not later than twenty-four hours after the polls have closed deliver them to the municipal clerk, who shall thereupon give such returning officer his receipt, stating therein the condition of the box when received.

Section 26. At the time appointed by the board of commissioners to canvass the returns of the election (which must not be later than noon on Thursday following the election) the municipal clerk shall deliver to such governing body the envelopes addressed to such board which were delivered to him by the returning officers of the several wards in the city or town immediately after the votes had been counted and the returns thereof prepared. The clerk shall securely keep the ballot boxes until it is known that there will be no contest, but in any event not less than six months and if in that time no contest has been properly instituted the clerk shall then destroy the contents of such boxes without examining the same; and no ballot box shall be opened except in one or the other of the following events: First, in the event of a contest, where the opening of a box has been ordered by the court hearing the contest, in which event the ballot box shall be opened by or under the supervision of the judge of such court and in the manner prescribed by him; and second for the purpose of canvassing the returns and obtaining the result of the election in a particular ward or voting district from the contents of the box when such box has been returned, but no certificate of the result of the election has been separately delivered to the municipal governing body by the election inspectors. If a box is opened for this latter purpose the certificate of result contained therein, if any, and if no certificate of result is enclosed then any other of the contents of the box, so far as necessary may be used to determine the result of the election, after which the papers shall be returned into the box and the box shall be resealed in the presence of the municipal governing body, and the box shall then be retained, without again opening it for the time prescribed above.

Section 27. Whenever voting machines are used for municipal elections the key or keys to the voting machine or machines, still in the envelopes in which they were placed when the machines were sealed for this election pursuant to Section 14 of this Act and with the seals thereof unbroken, and all other necessary election supplies, shall be delivered to the inspector of each poll at least thirty minutes before the time for opening the polls. The inspector shall compare the number appearing on the envelope containing the key or keys with the number shown in the protective counter and if these numbers are not identical he shall not break the seal on the envelope containing the keys, and he shall immediately so notify the municipal clerk or his representative, who shall immediately deliver the correct key

or keys or another properly sealed machine. If the numbers on the envelope and the respective numbers on the seal and on the protective counter are found to be the same, the inspectors shall open the doors concealing the counters. Before the polls are declared open the election officials and each authorized watcher, or any interested person, shall carefully examine each and every counter and see that it registers zero, and shall examine the ballots and satisfy themselves that the ballots are in their proper place on the machine. The election officials shall post the sample ballots and the model for the guidance of voters at conspicuous points about the polling place. All persons authorized to be in the polling place shall satisfy themselves that the voting machine is properly placed, and that the face of the machine is turned so that the election officials and the public may obtain a clear and unobstructed view of the same at all times except when the curtain on the machine is closed for the casting of the ballot. The election officials and at least two watchers of opposing interests (if any there be) shall then sign a certificate setting out that the keys were delivered intact, that the numbers on the protective counter and seal correspond with that on the envelope, that all the counters were set at zero, and that the ballot labels were in their proper places. If any counter, however, does not register zero, the inspector shall summon the custodian of the machine, who shall set the counter back to zero. The machine shall then be opened for voting, and the polls formally declared open.

Section 28. The municipal clerk shall furnish and deliver with each voting machine: Lighting facilities which shall give sufficient light to enable voters, while in the voting machine booth, to read the ballot labels, and suitable for the use of election officers in examining the counters; a model and two diagrams or sample ballots, of suitable size, representing such part of the face of such voting machine as will be in use in the election, and accompanied by directors for voting on the machine; a seal, or seals, for sealing the machine after the polls are closed; an envelope for the return of the keys, if the construction of the voting machine shall permit their separate return; such other election materials and supplies as may be necessary.

The lighting facilities, above mentioned, shall be prepared and in good order for use before the opening of the polls. The diagrams shall be posted prominently outside the voting booth for the instruction of electors. The model shall be placed in the polling place and at or outside the guard rail or barrier.

Section 29. At all elections where voting machines are used there shall be the following election officers for each voting machine: an inspector, a chief clerk and a first and a second assistant clerk.

The inspector shall be in general charge of the poll, shall see that the counter compartments of the machine are never unlocked or opened so that the counters are exposed during voting, shall see that the other election officers perform the duties hereinafter imposed on them, shall keep a record of all voters at such machine who received assistance pursuant to Section 31 (a) of this Act, and all other records required by law, and immediately after the polls have closed and the statement of the returns has been made shall deliver such statement and the key or keys to the machine to the municipal clerk. He shall also act as challenger.

The chief clerk shall examine the list of qualified electors and check off the names of voters which appear thereon as they vote.

The first assistant clerk shall attend the poll list and see that each voter signs his name thereon in the order in which he votes.

The second assistant clerk shall attend the voting machine at all times, and see that it is not tampered with. He shall also inspect the ballott labels at frequent intervals to see that none have been tampered with and that the machine has not been injured.

Section 30. The election officials, where voting machines are used, shall ascertain whether each applicant to vote is entitled to vote, and each applicant found to be entitled to vote shall be permitted to vote in the manner hereafter provided. Each applicant to vote shall identify himself to the chief clerk, who shall examine the list of qualified electors, furnished by the municipal clerk, and if such voter's name appears on such list, unless such voter has been challenged, the chief clerk shall mark the applicant's name off the list. The applicant, unless he is unable to write his own name, because of physical handicap or illiteracy, shall then sign his name on the poll list on the line numbered to indicate the order in which the voters cast their ballots, and thereafter he shall be admitted within the voting machine booth and permitted to vote. If such applicant is unable to sign his name because of physical disability or illiteracy his name shall be written for him in the manner prescribed in Section 20 for the writing of the names of voters on the poll list at polls where paper ballots are used.

If such applicant's name is not on the list of qualified voters, or if such applicant has been challenged by a qualified elector, the chief clerk shall so notify the inspector and the inspector shall challenge such voter. No challenged voter shall be permitted to cast his vote on a voting machine but any challenged voter shall be permitted to cast a paper ballot in the same manner and under the same circumstances, rules, and regulations that challenged voters may vote at polls where paper ballots are usually and customarily used.

Section 31. (a) The election officers shall, with the aid of the diagrams herein authorized, and the mechanically operated model, instruct each voter before he enters the voting machine booth, regarding the operation of the machine, and shall give the voter opportunity personally to operate the model. No voter shall be permitted to receive any assistance in voting at any election, unless he shall first state in writing upon printed forms supplied for that purpose and under oath or affirmation, which shall be administered to him by the inspector, that he can not read the names on the voting machine, or that by reason of physical disability, he is unable to see the machine or prepare it for voting, or to enter the voting machine booth without assistance. The voter shall state the specific physical disability which requires him to receive assistance. Thereupon he shall be assisted by one of the election officials, who shall aid him in voting, and the inspector shall forthwith enter in writing on the record of assisted voters: the voter's name; the fact that the voter can not read the names on the voting machine, if that is the reason for requiring assistance and, otherwise, the specific physical disability which requires him to receive assistance; and the name of the election official furnishing the assistance. If any voter, after entering the voting machine booth, and before the closing of such booth, shall ask for further instructions concerning the manner of voting, he may choose an election officer, who shall give him such instructions, but no official giving a voter such instructions shall, in any manner, request, suggest, or seek to persuade or induce any such voter to vote any particular ticket, or for any particular candidate, or for or against any particular question. After

giving such instructions, and before the elector closes the booth or votes, the election officer shall retire, and the voter shall forthwith vote.

(b) It shall be unlawful for any official to assist a voter who has not made the oath required herein, or for an official or any other person to do anything to enable himself to see how any voter votes other than in the course of assisting a voter as provided herein.

Section 32. When the time arrives for closing the polls, all qualified voters, who are then waiting within the voting room to vote, shall be permitted by the election officers to do so. As soon as the last voter has voted and the poll closed, the election officials shall immediately lock the machines against voting. They shall then sign a certificate stating that the machine was locked and sealed, giving the exact time. Such certificate shall also state the number of voters shown on the public counters, which shall be the total number of votes cast on such machine in that ward; the number on the seal; and the number registered on the protective counter. They shall then open the counting compartment in the presence of the watchers and of at least one representative of any newspaper or press association which cares to be represented, giving full view of all the counter numbers. The inspector shall, under the scrutiny of the watchers, in the order of the officers, as their titles are arranged on the machines, read and announce in distinct tones the designating number and letter on each counter for each candidate's name, if the construction of the voting machine is such as to require a designating number and letter, and the result as shown by the county numbers. He shall also read and the clerk shall tally the totals of all challenged ballots cast under the provisions of this Act. He shall in the same manner announce the result on each constitutional amendment, bond proposition, or any other question voted on. The vote as registered shall be entered on the statements of canvass in ink by the clerks, such entries to be made in the same order on the space which has the same designating number and letter, if the construction of the voting machine is such as to require a designating number and letter, after which the figures shall again be verified by being called off in the same manner from the counters of the machines. The returns of the canvass as required by law shall then be filled out, verified, and shall show the number of votes cast for each candidate, the number of votes cast for and against any proposition submitted, and shall be signed by the election officials. The counter compartments of the voting machine shall remain open throughout the time of the making of all statements and certificates, and the official returns, and until such have been fully verified; and during such time the watchers of any candidate or any representative of any newspaper shall be admitted. The proclamation of the result of the votes cast shall be deliberately announced in a distinct voice by the inspector who shall read: the name of each candidate with the designating number and letter, if the construction of the voting machine is such as to require a designating number and letter; his counter and the vote registered on such counter, and also the vote cast for and against each proposition submitted. During such proclamation ample opportunity shall be given to any person lawfully entitled to be in the polling place to compare the results announced with the counter dials of the machine and any necessary corrections shall then and there be made, after which the doors of the voting machine shall be locked and sealed with the seal provided, so sealing the operating lever or electrical control, if an electrically operated machine, that the voting and counting mechanism will be prevented from operation. Challenged

ballots, sealed in the same manner prescribed in Section 25 of this Act for sealing ballots at polling places where paper ballots are used, the record of assisted voters, the oaths of assisted voters, one copy of each oath relative to challenged voters, the poll list and a copy of the list of qualified electors shall be placed in the voting machine, if such machine is so constructed that this may be done, and if these items cannot be placed in the machine then they shall be sealed in an envelope or package, across the seal of which each election official shall sign his own name, and this envelope or package shall be delivered to the municipal clerk and retained by him unopened for the time prescribed by Section 33 of this Act for the retention of records of elections. The inspector shall deliver to the municipal clerk the keys of the machine, enclosed in a sealed envelope, across the seal of which shall be written his own name, together with that of the other election officials, and on this envelope shall be recorded the date of the election, the number of the voting district, the number of the seal with which the machine was sealed, the number of the public counter, and the number on the protective counter. One copy of each affidavit made by a challenged voter and one copy of each affidavit identifying a challenged voter shall be forwarded to the solicitor of the county in the same manner and for the same purposes prescribed in Section 24 of this Act for such oaths at polling places where paper ballots are used.

Section 33. The voting machines shall remain locked against voting for the time provided by law for the filing of contests and then shall have the seal broken only on the order of the board of commissioners and if, in the opinion of such body, the contest has developed or is likely to develop, shall remain locked until such time as ordered opened by the court hearing the contest, or until a final determination thereof. Provided that on the order of any court of competent jurisdiction or on the order of the board of commissioners, the seal may be broken for the purpose of proper investigation and when such investigation is completed, the machine shall again be sealed and across the envelope containing the keys shall be written the signature of the person or persons having broken same and provided further that in the event another election is held during the time for which the machines are required by this section to be locked and the machines are needed at such election, the municipal governing body shall be authorized to break the seal and make a record of the numbers on all counters on each machine and to remove all of the election records from the machine. The board of commissioners shall securely seal all records taken from a machine in an envelope or package and on the outside thereof label the package in such manner as to indicate plainly the machine from which they were removed and the month, day and the year, of the election of which they are records. Each commissioner present when the machines were opened shall certify to the accuracy of the record of the numbers on the counters and shall sign the envelope or package across the seal. This certificate and all other records removed from the voting machines shall be delivered to the municipal clerk and preserved by him for the same length of time prescribed in Section 26 of this Act for the retention of paper ballots, and then destroyed in the same manner that paper ballots are destroyed.

Section 34. The board of commissioners of any municipality procuring voting machines shall designate a person or persons who shall have the custody of the voting machines and the keys therefor, when the machines are not in use at an election; and shall provide for his compensation and for the safe storage and care of the machines and keys. All voting machines, when not in use, shall be properly boxed or

covered, and stored in a suitable place or places, by said custodian. The same authority that caused the delivery of the voting machines shall be charged with transporting such machines back to the custodian, and shall furnish all necessary protection to see that such machines are not molested nor injured from the time such machines leave the place where they are regularly stored until they are turned into the custody of the officials of a voting district and from the time that custody ceases on the part of the voting district officials and the machines are returned to the place of regular storage.

Section 35. Not later than noon on Thursday after the election as hereinabove required the board of commissioners shall proceed to open the envelopes, addressed to such governing body, which have been delivered by the several returning officers to the municipal clerk, canvass the returns, and ascertain and determine the number of votes received by each candidate and for and against each proposition submitted at such election. If it appears that any candidate or any proposition in such election has received a majority of the votes cast for that office or on that question the board of commissioners shall declare said candidate elected to such office, or said question carried, and a certificate of election shall be given to such persons by the board of commissioners, or a majority of them, which shall entitle the person so certified to the possession of their respective offices immediately upon the expiration of the terms of their predecessors, as provided by law.

If no candidate receives a majority of all the votes cast in such election for an office for election to which there were more than two candidates, then the board of commissioners shall order a second or "run-off" election to be held not later than the third Monday of September next thereafter, at which election the two candidates having received the most and the second most votes, respectively, shall be candidates and the person receiving the highest number of votes for that office in the run-off election shall be declared elected. In the event one of the candidates for a particular office in the run-off election withdraws, then there need not be a second election to fill such office nor shall the name of the party so withdrawing be printed on the ballot of any second election held under the provisions of this Act. This second election shall be held by the same election officers who held the first election and at the same places the first election was held. If there should be a tie vote cast at any such run-off election then in such event the tie shall be decided by the board of commissioners. The municipal clerk shall file a copy of each certificate of election in the office of the judge of probate of the county in which the city or town is situated, and the judge shall file such certificate in the same manner that he files the declaration of the result of elections to county offices.

Nor must any election be annulled or set aside because of the rejection of legal votes unless it appears that such legal votes, if given to the person intended, would increase the number of his legal votes to or above the requisite number of votes for election.

Section 48. If, on the trial of the contest of any municipal election, it shall appear that any person other than the one whose election is contested, received, or would have received, had the ballots intended for him and illegally rejected been received, the requisite number of votes for election, judgment must be given declaring such person duly elected, and such judgment shall have the force and effect of investing the person thereby declared elected with full right and title to have and to hold the office to which he is declared elected. If it appears that no person has, or would have had, if the ballots intended for them and illegally rejected had been received, the requisite number of votes for election, judgment must be rendered declaring this fact, and such fact must be certified to the municipal governing body and the vacancy in the office, election to which had been contested, shall be filled in the manner prescribed by law for filling the vacancy in such office. If the person whose election is contested is found to be ineligible to the office, judgment must be rendered declaring the election void, and the fact must be certified to the municipal governing body. The vacancy in such office shall be filled in the manner prescribed by law. If the party whose election is contested is found to have been duly and legally elected, judgment must be rendered declaring him entitled to have and to hold the office to which he was so elected.

Section 49. If any municipal election provided for in this Act should not take place on the day appointed, the municipal corporation shall not for that cause be dissolved, but the incumbent officers shall remain in office until their successors shall be elected and qualified. The

municipal governing body shall fix some day, as early as convenient, on which day said election shall be held; and the election shall be conducted in all respects as a regular election, and the person so elected shall hold office until the next general election, and until their successors are elected and qualified.

Section 50. There shall be no absentee voting in elections provided for by this Act.

Section 51. This Act shall not apply to cities having a population of 325,000 inhabitants or more, as determined by the 1950 decennial census, any provisions contained herein to the contrary notwithstanding.

Section 52. The provisions of this Act are severable. If any part of the Act is declared invalid or unconstitutional, such declaration shall not affect the part which remains.

Section 53. Act No. 465, S. 29, approved July 6, 1945 (General Acts of Alabama, 1945, page 699) is hereby expressly repealed; and any and all other laws or parts of laws in conflict herewith are to the extent of such conflict also hereby repealed. It is specifically declared, however, that the designation in this Act of certain acts and omissions relative to municipal elections as offenses shall not be exclusive and that any act or omission relative to a municipal election which is by law designated as an offense but which is not mentioned in this Act shall continue to be an offense punishable in the manner prescribed by law.

Section 54. This Act shall become effective immediately upon its passage and approval by the Governor, or upon its otherwise becoming a law.

And the substitute was adopted.

To provide for and regulate general and special elections in the cities and towns of this state, except those cities and towns which have a commission form of government; designating the date for regular elections, and authorizing the municipal governing body to call special elections; prescribing the manner of giving notice of municipal elections, and of designating voting places, and of appointing and compensating election officers; providing for the preparation of ballots and voting machines for such elections; prescribing the manner of casting ballots, counting the votes and making returns of elections; providing for and requiring a second or run-off election whenever no candidate receives a majority of the votes cast; designating certain acts and omissions relative to municipal elections as offenses and prescribing penalties therefor; prescribing the grounds on which such elections may be contested and the procedure for contests thereof; and providing that the costs of municipal elections shall be paid by the city or town holding such elections.

Be It Enacted by the Legislature of Alabama:

Section 1. (a) General and special elections in cities and towns of this state, except cities and towns organized under a commission form of government, shall be held and conducted at the times and in the manner herein prescribed; and the expenses of and costs incident to the conduct of all such elections shall be paid out of the treasury of the city or town holding the election.

(b) Whenever in this Act an hour of the day is prescribed for the doing of any act the time used shall be that of the ninetieth degree of longitude west of Greenwich, otherwise known as standard railroad central time. Whenever the last day on which an act may be done pursuant to this Act falls on a legal holiday as defined in Section 184 of Title 39, Code of Alabama 1940, or on a day which the office in which the act must be done is authorized by law to be closed such act may be done on the next succeeding secular or working day.

Section 2. (a) The regular municipal elections in cities and towns shall be held on the first Tuesday in September 1960, and quadrennially thereafter; and when necessary as provided in Section 33 of this Act a second or "run-off" election shall be held on the third Tuesday in September. Municipal officers elected at regular elections shall assume the duties of their respective offices on the first Monday in October following their election unless herein otherwise provided.

(b) Special elections shall be held on any second or fourth Tuesday between the fifteenth day of April and the second day of the

following February when ordered by the municipal governing body, provided that notice of such election was published, in the manner prescribed in the following section, on or before the corresponding Tuesday of the second month preceding the month in which the special election is held.

Section 3. It shall be the duty of the mayor to give notice of all municipal elections by publishing notice thereof in a newspaper published in the city or town, and if no newspaper is published in such city or town then by posting notices thereof in three public places in the city or town. When the notice is of a regular election such notice shall be published on or before the first Tuesday in July preceding the election. When the notice is of a special election to be held on the second Tuesday in a month such notice shall be published on or before the second Tuesday of the second month preceding the month in which the election will be held. When the notice is of a special election to be held on the fourth Tuesday of a month such notice shall be published on or before the fourth Tuesday of the second month preceding the month of the special election. Whenever and wherever two or more municipal offices of the same name (constituting a group) are to be filled at the regular election, prior to the first day of April preceding the election the municipal governing body may, in its discretion, by ordinance designate each of such offices by number. When such offices have been so designated by number, the notice of the election shall clearly indicate that such offices have been so numbered and each candidate for any such offices, in the announcement of his candidacy, shall designate the number of the office for which he is a candidate. The notice of an election for municipal officers shall be substantially in the following form:

"Notice of Election of Municipal Officers.

"Notice is hereby given that on (day of week), (date — month, day and year), an election for the purpose of electing a mayor (or other chief executive) and board of aldermen (town or city council or other governing body, or if the positions on such governing body have been designated by number, the position numbers to be filled at such election) and such other officers as pursuant to duly enacted law or ordinance, or any or all of such officers, are to be elected at such election for the city (or town) of \_\_\_\_\_, Alabama, will be held, and that all registered and qualified electors of the state, who reside within the corporate limits of \_\_\_\_\_, Alabama, and have resided therein for three months or more immediately preceding the date of such election, will be authorized to participate in said election.

"The polls will be opened at (here list the places of voting which have been designated pursuant to Section 5 of this Act)."

The notice of a special election to determine the sentiment of the people on any question shall be substantially in the following form:

"Notice of Special Municipal Election.

"Notice is hereby given that on (day of the week), (date—month, day and year) a special election for the purpose of ascertaining the sentiment of the citizens of the city (or town) relative to (the subject to be voted upon) will be held. The question which will be submitted is: (here state the question), and all registered and qualified electors of the state who reside within the corporate limits of \_\_\_\_\_, Alabama, and have resided therein for three months or more immediately preceding the date of such election, will be authorized to participate in said election.

"The polls will be opened at (here list the places of voting which have been designated pursuant to Section 5 of this Act)."

Section 4. The boundaries of wards within municipalities which have been divided into wards as now defined shall so remain until changed by ordinance. Hereafter the municipal governing body may, in its discretion, readjust the boundary lines of wards and may divide or consolidate any number of wards and resubdivide the same into voting districts; provided that no such adjustment is made within three months of an election. Whenever the municipal governing body readjusts any ward lines or divides a ward into voting districts the ordinance whereby the ward is established or subdivided into voting districts shall describe the territory composing the ward, and when the ward has been subdivided the territory composing each district therein, by metes and bounds; and the municipal clerk, within five days after adoption of the ordinances, shall file with the judge of probate of the county in which the municipality lies a certified copy of such ordinance, accompanied by a map or plat of the city or town showing the boundaries of all wards and voting districts in wards into which the municipality is then divided, and shall also publish notice of all such changes or adjustments of boundaries of wards and voting districts within wards, in a newspaper published in such city or town, or if no newspaper is published therein then by posting notice thereof at three public places in such city or town. This published notice need not be accompanied by a map or plat of the city or town.

Section 5. The municipal governing body shall, when it orders an election, designate at least one place of voting in each ward, and if such ward has been divided into voting districts then at least one place of voting in each district. In wards or voting districts where paper ballots are used in which there are more than three hundred legal voters or where voting machines are used six hundred legal voters the municipal governing body may divide alphabetically the list of qualified voters in such ward or voting district into groups and assign each qualified voter a designated voting place and a designated box or voting machine in such ward or voting district. Nothing herein shall be construed to require the municipal governing body to designate more than one voting place in any ward which has not been subdivided nor more than one voting place in any voting district, nor to provide a ballot box for every three hundred qualified electors when paper ballots are used or a voting machine for every six hundred qualified electors where voting machines are used.

Section 6. In all municipal elections on any subject which may be submitted by law to a vote of the people of the municipality and for any municipal officers, if paper ballots are used, the voting shall be by official ballot printed and distributed as hereinafter provided, and no ballot shall be received or counted in any election unless it is provided as prescribed by law.

There shall be but one form of ballot for all the candidates for municipal office, and every ballot provided for use at any polling place in a municipal election shall contain the names of all candidates whose nominations for any office on the ballot have been duly made and not withdrawn, as hereinafter provided, together with the title of the office for which they are candidates, arranged in tickets under the titles of the respective political parties or independent bodies as certified in the certificates of nomination.

All ballots shall be printed in black ink on clear book paper. At the bottom of each ballot and at a point an equal distance from the

sides thereof there shall be printed a one-inch square in which the number of the ballot shall be placed by the inspector when the ballot is cast; and every ballot shall contain a party device for each political party represented on the ticket. The arrangement of the ballot shall in general conform substantially to the plan hereinafter given, and in all cases the party columns must be placed in alphabetical order, beginning on the left of the ballot. The list of candidates of the several parties shall be printed in parallel and perpendicular columns, each column shall be headed by the chosen device of such party, as shown by the certificate of the secretary of state filed with the probate judge of the county immediately prior to the last preceding general election for state officers, and the party name or other designation. There shall be a column for each separate ticket of candidates and such columns as are required for independent candidates to be voted for at the polling place for which the ballot is provided, and in the appropriate place the words "vote for one" (or "two" or other number as the case may be) to indicate the number which may be elected to each office.

Ballots shall be fastened together in convenient numbers in books or blocks in such manner that each ballot may be detached and removed separately and each ballot shall have attached to it a stub of sufficient size to enable one of the inspectors to write or stamp his name or initials thereon and so attached to the ballot that when the same is folded the stub can be detached therefrom without injury to the ballot or exposing the contents thereof.

In case of nomination by independent bodies, the ballot shall be so arranged that at the right of the last column for party nomination the several tickets of the names of independent candidates shall be printed in one or more columns according to the space required, having above each of the tickets the political or other names selected to designate such independent nominations. The ballot herein provided shall be substantially in the following form, viz:

| Name of officers<br>to be voted for | (Emblem)<br>Democratic<br>O | (Emblem)<br>Republican<br>O | (Emblem)<br>Independent<br>O      |
|-------------------------------------|-----------------------------|-----------------------------|-----------------------------------|
| Mayor                               |                             |                             |                                   |
| Vote for one                        | ( ) John Doe                | ( ) Richard Roe             | ( ) J. W. Smith<br>( ) Jas. Jones |
| Alderman:                           |                             |                             |                                   |
| Place No. 1                         | .....                       | .....                       | .....                             |
| Place No. 2                         | .....                       | .....                       | .....                             |

The names of all the candidates who have been put in nomination by any caucus, convention, mass meeting, primary election, or other assembly of any political party or political faction in the municipality, and certified in writing and filed in the office of the municipal clerk by five o'clock p.m. on the first Tuesday in August preceding the date of the election shall be printed on the ballots. The certificate must contain the name of each person nominated and the office for which he is nominated, and must be signed by the presiding officer and secretary of the caucus, convention, mass meeting or other assembly, or by the chairman and secretary of the canvassing board of the primary election at which such candidates were nominated.

The mayor, except when he is a candidate in such election, in which case some person appointed by the municipal governing body to serve in his stead, shall also cause to be printed on the ballots the name of

any qualified elector who has, by five o'clock p.m., on the first Tuesday in August preceding the date set for the election, filed a statement of candidacy, accompanied by an affidavit taken and certified by an officer authorized to take acknowledgments in this state, that such person is duly qualified to hold the office for which he desires to become a candidate. Such statement shall be substantially in the following form: "State of Alabama, \_\_\_\_\_ County, I, the undersigned, being first duly sworn, depose and say that I am a citizen of the city (or town) of \_\_\_\_\_ in said county, and reside at \_\_\_\_\_ in said city (or town); that I desire to become a candidate for the office of \_\_\_\_\_ in said city (or town) for the term of \_\_\_\_\_ years at the election for such office to be held on the \_\_\_\_\_ day of \_\_\_\_\_, 19\_\_\_\_; that I am duly qualified to hold said office if elected thereto and I hereby request that my name be printed upon the official ballot at said election. (Signed) \_\_\_\_\_ Subscribed and sworn to before me by said \_\_\_\_\_ on this \_\_\_\_\_ day of \_\_\_\_\_, 19\_\_\_\_. (signed) \_\_\_\_\_ (Style of officer)."

No names shall be printed upon the ballot as a candidate for election except the names of such persons as become candidates in the manner above prescribed, nor may any person be a candidate or be permitted to file his declaration for more than one place or position in a group of offices of the same name when such offices have been designated by number as authorized by Section 3 of this Act.

All certificates of nomination and statements of candidacy filed with the mayor, or person appointed to act in his stead when he is a candidate in such election, within the time prescribed above shall be preserved for six months after the election for which such nominations or statements of candidacy were filed.

Section 7. The municipal governing body, or a majority of them, must, not more than twenty nor less than fifteen days before the holding of any municipal election, appoint from the qualified electors of the respective wards or voting districts, officers to hold the election as follows: where paper ballots are used one returning officer for each ward and three inspectors and two clerks for each box at each voting place; and where voting machines are used an inspector, a chief clerk and a first and second assistant clerk for each voting machine.

The chairman of the municipal executive committee of any political party which has made nominations for office or the nominees thereof, may furnish the municipal governing body a list of not less than three names of qualified electors from each voting place, and an inspector and a clerk shall be appointed from said lists for each voting place; provided, that where there are more than two lists filed, the appointments shall be made from the lists presented by the two political parties having received the highest number of votes in the preceding regular municipal election, if each of said parties presents a list.

In the event a person appointed as an election official is excused from serving or otherwise disqualifies himself prior to election day, the vacancy created thereby shall be filled by the municipal governing body, or a majority of them, in the same manner that original appointments are made. It is provided, however, that if the vacancy is among the officers appointed to serve at a polling place where voting machines will be used, after the school of instruction for election officials has been held as prescribed in Section 10 of this Act, a person who has received a certificate from a previous school of instruction shall, if possible, be appointed to fill the vacancy.

The mayor or other chief executive officer of the municipality, or when he is a candidate in such election the person appointed to act in his stead shall publish a list of the election officers so appointed, either by posting a list thereof, showing the voting places and the election officers appointed for each such voting place, at three public places in the city or town, or by publishing such list in a newspaper published in the city or town at least ten days prior to the election.

The mayor or other chief executive officer of the municipality, or when he is a candidate in such election the person appointed to act in his stead, shall notify the inspectors, clerks and returning officers of their appointments.

The returning officer, the inspectors and the clerks at polling places where voting is solely by paper ballots shall each be entitled to five dollars, and each election officer at a polling place where elections are conducted in whole or in part by voting machines shall be entitled to eight dollars. The compensation of the election officials shall be paid as preferred claims out of the general fund of the municipality holding the election, on proper proof of service rendered.

Section 8. The election officers at voting places where paper ballots are used shall meet at the respective places of holding elections for which they have been appointed, by eight o'clock of the morning of the election; and before nine o'clock open the several polling places as designated, and keep them open without adjournment or recess until six o'clock in the afternoon, and no longer.

The election officials at voting places where voting machines are used shall meet at the place of holding elections for which they have been appointed by 7:30 o'clock, a.m., the morning of the election; and at eight o'clock, a.m., shall open the polls and keep them open without adjournment until six o'clock, p.m., and no longer, except that in counties having a population of 400,000 or more inhabitants, according to the last or any subsequent federal decennial census, the poll shall be kept open until seven o'clock, p.m., and any qualified elector entitled to vote at such polling place who has identified himself with the election officials at such polling place by such closing time shall be permitted to cast his ballot. Before entering upon their duties the election officers must take an oath to perform their duties at the election according to law, and such oath may be administered either by any person authorized by law to administer oaths, or by an election inspector.

When paper ballots are used, the inspectors shall select one of their number, on opening the polls, to act as challenger, and the challenger shall ascertain if each person presenting himself to vote has registered and paid all poll taxes due, such finding to be from an examination of the official list of the voters furnished by the mayor or other chief executive officer, or person acting in his stead.

Before the election officials commence receiving ballots the election inspectors must cause it to be proclaimed aloud at the places of voting that the election is opened.

After the polls have been opened no adjournment or recess shall be taken until the certificate of the result of the election is signed.

Where voting machines are used the election officials shall also comply with the provisions of Section 26 of this Act and upon completing the duties thereby imposed shall formally declare the polls opened.

The marshal, chief of police, or other chief law enforcement officer of the city or town shall preserve good order at all municipal elec-

tions held in the city or town, but not more than one officer shall at the same time be allowed to enter the polling place. Except as electors are admitted to vote and persons to assist them, as provided in this Act, and except the above mentioned law enforcement officers, the election officials and the watchers, no person shall be permitted within thirty feet of the polling place.

Section 9. On the failure of any person who has been duly appointed an election officer to attend the polls at the hour prescribed for his attendance such of the election officers appointed for that voting box or machine as are present may appoint such election officers as are needed to complete the number of election officials for the box or machine. All persons so appointed shall be qualified electors who are entitled to vote at that polling place. Should all the appointed election officers fail to be present at a polling place by the hour prescribed on election day, then any three qualified electors who are entitled by law to vote at that polling place at the election then to be held may open the polls, act as three of the election officers for such box, and appoint such other officers as are required to fill the place of those absent, provided every person so appointed shall be a qualified elector entitled to vote at the polling place.

Section 10. When voting machines are to be used in any municipal election the municipal governing body shall provide for holding a school or schools of instruction for those who will actually conduct the election. The municipal clerk shall notify those persons who have been appointed election officials of the time and place of the holding of such school of instruction and shall also publish notice thereof at least forty-eight hours before the same is to be held.

No election official shall serve in any election district in which a voting machine is used, unless he has received such instruction, is fully qualified to perform the duties in connection with the machine, and has received a certificate to that effect from the authorized instructor; provided, however, that this requirement shall not prevent the appointment of an uninstructed person as an election official to fill a vacancy among the election officials.

Section 11. During the thirty days next preceding an election at which voting machines will be used, the municipal governing body shall place on public exhibition in such public places and at such times as may be deemed most suitable for the information and instruction of the voters, one or more voting machines, containing the ballot labels, and showing the offices and questions to be voted upon, the names and arrangement of the parties, and, so far as practicable, the names and arrangements of the candidates for office. Such machines shall be under the charge and care of a person competent as custodian and instructor. No voting machine which is to be assigned for use in an election shall be used for such public exhibition and instruction after having been prepared and sealed for the election. Prior to any election the municipal governing body may cause copies of any diagram or diagrams, required to be furnished with voting machines at polling places, to be made, either in full size or reduced size, and to be posted, published, advertised or distributed among the electors in such manner as they may deem desirable.

Section 12. The mayor or other chief executive officer of the municipality shall, at the expense of the municipality, procure and superintend and insure the delivery to the election officers at each polling place within the corporate limits of the municipality of the necessary election supplies.

When paper ballots are used such supplies shall consist of: at least one hundred ballots for each fifty registered electors at each voting place; the same number of black seals, two inches square, around the outer edge of which is a mucilaginous surface one-fourth inch wide, so designed that a seal may be placed securely over the square bearing the ballot number in such manner that it will make it impossible to read such number without removing the seal yet such seal may be removed without obliterating the number; ballot boxes, blank poll lists; for each ward or voting district three or more cards of instruction to voters, which shall be printed in large clear type and shall contain full instructions to electors as to what should be done, first, to obtain ballots for voting, second, to prepare the ballot for deposit in the ballot box, third, to obtain a new ballot in place of one accidentally spoiled, and, fourth, to instruct as to the right and manner of obtaining a watcher for each political party having candidates to be voted for; certificates of results; oaths, and any other stationary, blank forms, or supplies necessary in the conduct of the election.

When voting machines are used such supplies shall consist of: ballot labels, diagrams, blanks for keeping a record of assisted voters, seals, blank forms for a statement of canvass of the votes cast on each machines, such forms to conform to the type of voting machine to be used, and the designating number and letter if the construction of the machine is such as to require a designating number and letter of each candidate (or proposition) shall be printed next to the candidate's name on the statement of canvass, and all other necessary election supplies for use on voting machines.

Section 13. Whenever voting machines are to be used in any municipal election the municipal clerk shall: cause the proper ballot labels to be placed on the voting machines; cause the machines to be placed in proper working order for voting; examine all voting machines in the presence of authorized watchers for any interested persons, before they are sent out to the polling places; see that all the registering counters are set at zero; lock, in the presence of authorized watchers, all voting machines so that the counting machinery cannot be operated; and seal each one with a numbered seal, a list of which numbered seals and the number one the protective counters, together with the number of the voting place to which it was sent, shall be kept as a permanent record in such clerk's office, open to any citizen. The inspection and sealing of voting machines shall begin not later than nine o'clock, a.m., of the Friday before any election at which such machines are to be used, and shall continue until all machines are sealed. When all machines are locked and sealed, the key to each machine shall be placed in an envelope and sealed, the signature of the municipal clerk and the signature of two watchers of opposed interest (if such there be) shall be placed across the seal, and on the envelope shall be written the number then on the protective counter and the number on the seal of the voting machines. This envelope shall be delivered to the election inspector who will serve as an election officer at the polling place where such machine is used. It shall be the duty of the municipal clerk to see that a voting machine, or machines, together with an instruction model for each machine, showing a portion of the face of such machine in use at such election, is delivered to each and every polling place where machines are required by law to be used, at least one hour before the time set for opening the polls in such ward. After the machine has been delivered the clerk shall cause such machine to be set up in the proper manner and cause protection to be given so that such machine shall be free from molestation and injury. The protective curtains shall be examined to see that they properly conceal the actions of the voter

while such voter is operating the machine. All poll lists and necessary supplies shall be delivered to the inspector at the same time the key or keys to the machine are delivered.

Section 14. For all elections at which paper ballots will be used, the chief executive officer of the municipality, at the expense of the municipality, shall provide at each polling place in all municipalities having a population of over three thousand inhabitants, a room or covered enclosure, and in such room or covered enclosure shall provide booths or compartments, one booth or compartment for each one hundred, or fraction of one hundred over fifty, electors registered in the ward or wards in such municipality for that election, and shall furnish each booth or compartment with a shelf or table for the convenience of the electors in the preparation of their ballots. Each booth or compartment shall be so arranged that it will be impossible for one elector at a shelf or table in one compartment to see an elector at a shelf or table in another compartment in the act of marking his ballot. Each voting shelf or table shall be kept supplied with conveniences for marking the ballots. In voting places in cities having a population of three thousand or less no booths shall be required.

Section 15. Each political party having nominated candidates, by the chairman of the municipal executive committee or by the nominees for office or by the beat committeeman, and each independent candidate may name a watcher for every polling place where paper ballots are used and a watcher for every machine where voting machines are used. The watcher, upon presentation of his appointment in writing and being sworn faithfully to observe the rule of law prescribed for the conduct of elections, shall be permitted to be present at the place where ballots are cast from the time the polls are opened until the ballots are counted and certificates of the result of the election are duly signed by the proper election officers.

When paper ballots are used at the election the watcher shall be permitted to see the ballots as they are called during the count.

When voting machines are used the watchers, shall, upon presentation of their appointment in writing, be permitted to be present when the machines are being prepared and sealed for use at the election. On election morning the watcher may witness the breaking of the seal on the envelope containing the key or keys to the voting machine, and, when the machine has been unlocked and the counters exposed, he shall carefully examine each and every counter to see that it registers zero, and he shall also examine the ballots and satisfy himself that they are in their proper places on the machine and that the machine is properly placed. Such watcher must also sign a certificate setting out the above facts, as required by Section 26. He may also be present and witness the opening of the machine after the polls have closed, the reading and tabulating of the result of the election as recorded on the voting machine, and the resealing of the machine.

Section 16. The mayor or other chief executive officer of the city or town shall cause to be made a list of the registered and qualified voters who reside within the corporate limits of such city or town, dividing the same into separate alphabetical lists of the qualified voters of each ward, where such city or town has been divided into wards and all qualified voters thereof vote at one box or voting machine, or dividing such list into separate alphabetical lists of voters authorized to vote at each respective box or voting machine if the list of qualified voters has been divided alphabetically and each alphabetical group assigned a box or machine at which to vote. He shall have such lists compared with

the official list of electors qualified to vote during the current year on file in the probate office of the county in which the municipality is situated, and shall certify on each list prepared pursuant to this section that it is a correct list of the qualified voters of the municipality, ward, ballot box or voting machine to which it appertains. He shall have full access to all registration lists of the county for this purpose. A copy of each list so prepared shall be filed with the municipal clerk, on or before the second Monday in May preceding a regular municipal election, who shall file and retain each such list as a public record in his office. The clerk shall prepare a copy of the list of qualified voters authorized to vote at each of the respective polling places in the municipality, and prior to the opening of the polls on election day he shall furnish to the inspectors, or one of them, of each ballot box or voting machine at each polling place a copy of the list of qualified voters authorized to vote at the box or voting machine for which he was appointed an inspector. The clerk shall also publish the list of qualified voters authorized to vote at the ensuing election at least five days prior to the election, either by publication in a newspaper of general circulation in the municipality or by posting copies thereof in at least three public places in the municipality, as directed by the municipal governing body.

Section 17. At all municipal elections the elector must vote only in the ward of his residence and at the box or voting machine to which he has been assigned. No person may vote at any such election unless he is a registered and qualified elector of the State of Alabama, who has resided in the county one year and in the ward three months prior to the election and who has registered not less than ten days prior to the date of the election at which he offers to vote. It is provided, however, that any elector who, within three months next preceding the date of the election at which he offers to vote, has removed from one ward to another ward in the same city or town shall have the right to vote in the ward from which he has removed, if he would have been entitled to vote in such ward but for such removal. If any elector attempts to vote in any ward other than that of his residence, except as hereinabove authorized, his vote must be rejected.

Any qualified elector of a ward who knows or suspects that a person proposes to vote or will offer to vote in such ward who is not entitled or duly qualified to vote in such ward may challenge such person. The challenge shall be communicated to the inspector before the challenged person is permitted to vote by the person in charge of admissions to the polling place. The person so challenged shall not be permitted to vote until he takes and subscribes the oath prescribed by Section 20 hereof and identifies himself in the manner therein prescribed.

Section 18. Where paper ballots are used, the inspector designated as challenger, upon the elector's entering the polling place shall examine the list of qualified electors furnished by the clerk pursuant to Section 16 of this Act; and if it appears from this examination that the person is a qualified elector of the state authorized to vote at that box, unless such elector has been challenged by another qualified elector in the manner prescribed by Section 17 hereof, the inspectors shall then give him one ballot, on the stub of which one of the inspectors shall write or shall have already written his name or initials. If such person's name does not appear on the list of qualified voters for that ward or box then the challenger shall challenge said person. Any person so challenged or challenged by a qualified elector, as authorized in Section 17, above, shall not be allowed to vote until he has taken and subscribed to the oath prescribed in Section 20 hereof, and proved his identity in the manner therein prescribed. However, if such person duly executes

the oath and establishes his identity in the manner prescribed then his ballot must be received and deposited in the ballot box in the same manner as the ballots of qualified electors.

In cities or towns of more than three thousand inhabitants each elector on receiving his ballot shall forthwith and without leaving the polling place retire alone to one of the booths or compartments provided for that purpose and there prepare his ballot in the manner hereinafter provided. In all other cities or towns the elector may prepare his ballot at any point within the polling place.

Any elector who shall by accident or mistake spoil a ballot so that he cannot conveniently or safely vote the same, may return it to the inspectors and receive another in lieu thereof, which must be voted or returned by such elector.

After preparing his ballot the elector shall fold the same so as to conceal the face thereof and show the stub thereto attached with the name or initial of the inspector, and hand it to the receiving inspector, who must receive the folded ballot and call the name of the elector audibly and distinctly.

One of the clerks shall immediately enter on one of the lists, headed "names of voters" and called "poll lists," the name of such elector opposite the number indicating the order in which electors vote, the first elector voting being numbered one, the second two, and so on, to the last elector voting; and at the same time the other clerk shall see that the elector whose name was called shall immediately sign his own name on another poll list, on a line bearing the same number appearing opposite such elector's name on the above-mentioned poll list, unless such elector, because of physical handicap or illiteracy, is unable to write his own name on such list. If the voter is physically handicapped an election official shall write the name of such voter on said list together with the cause of assistance, and shall sign his own name on the poll list on the same line with the voter's name. If the voter is unable to sign his name because of illiteracy, his name shall be written for him and the voter shall, in the presence of one of the election officials, make his mark upon the poll list. The election official witnessing the act shall record his name, as witness, on the same line with the name of the voter.

The receiving inspector shall then write the number of the ballot in the square provided therefor, and forthwith, in the presence of the voter, shall place one of the black seals, furnished along with the other election supplies, over the square in such manner as to make it impossible to see the number placed therein without removing the seal, yet so that the seal may be removed without obliterating the number placed in the square. After numbering the ballot the inspector shall detach the stub and pass the ballot to each of the other inspectors, and it must then, without being opened or examined, be deposited in the proper ballot box.

Section 19. When paper ballots are used any elector applying to vote, who shall state under oath to any of the inspectors (which oath may be administered by any one of the inspectors) that by reason of his inability to write the English language, or by reason of blindness or the loss of the use of his hand or hands, he is unable to prepare his ballot, may have the assistance of any person he may select. In such case, said elector must remain within the polling place and the inspector shall send for the person selected. If the person first selected can not be found, then such elector may select another person to assist him. The

person so selected shall render said elector all such assistance in the preparation of his ballot as he may require, so that the ballot may be voted for the candidate of his choice, in the manner herein provided. In cities or towns of more than three thousand inhabitants the elector and the person selected to assist him shall retire to a booth or compartment and there prepare the elector's ballot. In all other cities or towns they shall be permitted to prepare it at any point in the polling place.

No candidate for election shall act as assistant to any elector in the preparation of his ballot.

Section 20. Before any person who has been challenged by an inspector or a qualified elector, as hereinabove authorized, shall be allowed to vote, he shall take and subscribe to an oath, in the form hereinafter prescribed, and, in addition prove his identity and residence in the state, county, municipality, and ward in which he offers to vote by the oath of some elector personally known to one of the inspectors to be a qualified elector and a freeholder and householder.

Before administering the oath prescribed, one of the inspectors shall inform the challenged person that if he takes the oath willfully and falsely, he is guilty of perjury and on conviction may be imprisoned in the penitentiary for not less than two years. One of the inspectors shall also inform any person making the affidavit of identity that if he make such oath wilfully and falsely, he is guilty of perjury, and, on conviction, may be imprisoned in the penitentiary for not less than two years.

The oath hereinabove required of the challenged elector shall be tendered, read, and administered to him by one of the inspectors; shall be executed in duplicate; and shall be in the following form:

"State of Alabama, County of . . . . . I do solemnly swear (or affirm): 1. That I am a duly qualified elector under the Constitution and laws of the State of Alabama. 2. "Subscribed and sworn to before me this ..... day of  
....., 19 ....."

The oath to establish identity of a challenged applicant to vote shall be executed in duplicate and shall be in the following form:

"State of Alabama, County of ..... I, ..  
..... do solemnly swear (or affirm) that I have  
known ..... (here insert the name of  
the person offering to vote) for the last two years next preceding this  
election, and that he has been a resident of this state for said time,  
twelve months in this county, and he has actually resided in this ward  
for the last three months preceding this election (or in case of change

months in this county, and within three months next preceding the  
date of this election, he removed from this ward to another ward in  
this incorporated town or city, and would have been entitled to vote  
but for such removal), all immediately preceding this election; I do  
solemnly swear (or affirm) that I am a qualified elector of this ward;  
that I have been a freeholder and householder in this ward for one year  
next preceding this election; that my occupation is .....;  
my residence is .....;

..... Signature.

"Subscribed and sworn to before me this ..... day of  
....., 19 ....."

After the above mentioned oaths have been duly taken and subscribed, the ballot of the person offering to vote must be received and deposited in the ballot box as the ballots of qualified electors.

Should a person be challenged after he has received a ballot and refuse to take the oath or fail to prove his identity and residence by the oath of a freeholder or householder, as hereinabove required, his vote shall be rejected, and his ballot marked with his name shall be laid aside by the inspectors.

Section 21. Where paper ballots are used no more than ten electors shall be allowed in the polling place at the same time. In all elections for which voting booths or compartments have been provided if all such booths or compartments are occupied and other electors are waiting to vote, no elector shall occupy a booth or compartment for a longer time than five minutes. No elector shall be allowed to occupy a booth or compartment already occupied by another, nor to speak or converse with any one except as herein provided while in the polling place. After having voted, or declined or failed to vote within five minutes, the elector shall immediately withdraw from the polling place and go beyond the prohibited distance and shall not enter the polling place again.

Section 22. Every voter in a municipal election shall have the right to vote a secret ballot, which shall be kept secret and inviolate.

Electors shall not be entitled to vote for any person whose name

does not appear on the ballot, and no elector shall write in the name of any person on the ballot. Nor may any elector cast a ballot commonly known or referred to as a "single shot." When two or more candidates are to be elected to the same office, the voter must express his choice for as many candidates as there are places to be filled, and if he fails to do so, his ballot, so far as that particular office is concerned shall not be counted or recorded.

If the elector desires to vote a straight ticket, that is, for each and every candidate for one party for whatever office nominated, he shall mark a cross mark (x) in the circle under the name of the party at the head of the ticket.

If the elector does not desire to vote for each and every candidate nominated by his party he may vote blank for any office on his party ticket by making a cross mark (x) in the circle at the top of the ticket and striking out with pen or pencil the name or names of candidates he does not desire to vote for on the ballot.

Any elector who desires to vote a split ticket, that is, for candidates of different parties, may do so: (1) By making a cross mark in the voting space before the name of each candidate for whom he desires to vote on whatever ticket he may be; or (2) when the elector desires to vote for all of a party's nominees, except the candidate or candidates for one office, then if only one candidate is to be elected to any office the elector may make a cross mark (x) in the circle under the name of the party at the head of the ticket, and a cross mark before the name of the candidate for whom he desires to vote on the other ticket and mark through with a pen or pencil the name of the candidate for whom he does not desire to vote on his party ticket; or if two or more candidates are to be elected to the same office the elector may make his cross mark in the circle at the top of his party's column, make a cross mark (x) before the names of the candidates for whom he desires to vote on the other ticket and mark through with a pen or pencil an equal number of names of candidates on his party ticket for the same office for whom he does not desire to vote.

Section 23. No votes shall be counted until the polls are closed. Immediately after the polls are closed at elections where paper ballots are used the poll list signed by the voters and the poll list made by one of the clerks shall be sealed in separate envelopes and labelled before the inspectors begin to count the votes; and one copy of each affidavit made by a challenged voter and one copy of each affidavit identifying a challenged voter shall be sealed in a package by the inspectors, and the other copy of each of such affidavits shall be sealed in a package and forwarded to the solicitor of the county, who shall lay them before the next grand jury sitting for the county. As soon as this is done the ballots cast shall be counted in the following manner. The returning officer or one of the inspectors must take the ballots, one by one, from the box in which they were deposited, at the same time reading aloud the name of each person receiving a vote and the office for which he received such vote; and they must separately keep a calculation of the number of votes each person receives and for what office he receives them. When two or more candidates are to be elected to the same office if the elector has failed to express his choice for as many candidates as there are places to be filled his ballot so far as that particular office is concerned shall not be counted and recorded. If the elector has marked more names than there are persons to be elected to an office, or if for any reason it is impossible to determine the elector's choice for any office to be filled, his ballot shall not be

counted for such office, but this shall not vitiate the ballot so far as properly marked, nor shall any ballot be rejected for any technical error which does not make it impossible to determine the elector's choice.

Section 24. At elections where paper ballots are used, as soon as the ballots are all counted, the inspectors must ascertain the number of votes received for each person and for what office, and must make a statement of same in writing. Each of the inspectors must sign this statement and must also certify in writing on the sealed envelope containing the poll list signed by the electors that such poll list is the poll list of the election in the ward or voting place at which they were inspectors, the day and year on which such election was held, and for what offices. The statement of the vote and the poll list thus certified, together with a list of the registered electors qualified to vote at such voting place at such election on such day, must be sealed up in an envelope, furnished along with the other election supplies, and addressed to the municipal governing body. Each of the inspectors shall write his name across every fold at which the envelope when fastened could be opened; and such envelope shall be delivered immediately to the returning officer of the ward, who shall deliver it to the municipal clerk along with the ballot box within the time herein-after prescribed.

As soon as the ballots contained in a ballot box have been counted and the statement of the vote prepared as above directed, the inspectors shall roll up the ballots so counted, seal the bundle thereof, and label the same so as to show for what officer or officers the ballots contained therein were received. The rejected ballots, if any, shall also be rolled up, the package thereof labelled as rejected ballots and sealed up as the other parcel of ballots. These sealed packages, together with the sealed poll list made by one of the clerks, and the oaths relative to challenged voters, shall be returned by the inspectors to the ballot box from which the ballots were taken and the ballot box shall be securely sealed and labelled so as to show the nature of its contents. The inspectors shall also attach to the outside of the box a slip of paper, or other device, showing the total votes received by each candidate voted for in such election.

The envelope containing the statement of the votes, prepared pursuant to the first paragraph of this section, and the sealed ballot box shall be delivered to the returning officer of the ward who shall immediately and in any event not later than twenty-four hours after the polls have closed deliver them to the municipal clerk, who shall thereupon give such returning officer his receipt, stating therein the condition of the box when received.

Section 25. At the time appointed by the municipal governing body to canvass the returns of the election (which must be not later than noon on Thursday following the election) the municipal clerk shall deliver to such governing body the envelopes addressed to such governing body, which were delivered to him by the returning officers of the several wards in the city or town immediately after the votes had been counted and the returns thereof prepared. The clerk shall securely keep the ballot boxes until it is known that there will be no contest, but in any event not less than six months, and if in that time no contest has been properly instituted the clerk shall then destroy the contents of such boxes without examining the same; and no ballot box shall be opened except in one or the other of the follow-

ing events: First, in the event of a contest, where the opening of a box has been ordered by the court hearing the contest, in which event the ballot box shall be opened by or under the supervision of the judge of such court and in the manner prescribed by him; and second for the purpose of canvassing the returns and obtaining the result of the election in a particular ward or voting district from the contents of the box when such box has been returned, but no certificate of the result of the election has been separately delivered to the municipal governing body by the election inspectors. If a box is opened for this latter purpose the certificate of result contained therein, if any, and if no certificate of result is enclosed then any other of the contents of the box, so far as necessary may be used to determine the result of the election, after which the papers shall be returned into the box and the box shall be resealed in the presence of the municipal governing body, and the box shall then be retained, without again opening it for the time prescribed above.

Section 26. Whenever voting machines are used for municipal elections the key or keys to the voting machine or machines, still in the envelopes in which they were placed when the machines were sealed for this election pursuant to Section 13 of this Act and with the seals thereof unbroken, and all other necessary election supplies, shall be delivered to the inspector of each poll at least thirty minutes before the time for opening the polls. The inspector shall compare the number appearing on the envelope containing the key or keys with the number shown in the protective counter and if these numbers are not identical he shall not break the seal on the envelope containing the keys, and he shall immediately so notify the municipal clerk or his representative, who shall immediately deliver the correct key or keys or another properly sealed machine. If the numbers on the envelope and the respective numbers on the seal and on the protective counter are found to be the same, the inspectors shall open the door concealing the counters. Before the polls are declared open the election officials and each authorized watcher, or any interested person, shall carefully examine each and every counter and see that it registers zero, and shall examine the ballots and satisfy themselves that the ballots are in their proper place on the machine. The election officials shall post the sample ballots and the model for the guidance of voters at conspicuous points about the polling place. All persons authorized to be in the polling place shall satisfy themselves that the voting machine is properly placed, and that the face of the machine is turned so that the election officials and the public may obtain a clear and unobstructed view of the same at all times except when the curtain on the machine is closed for the casting of the ballot. The election officials and at least two watchers of opposing interests (if any there be) shall then sign a certificate setting out that the keys were delivered intact, that the numbers on the protective counter and seal correspond with that on the envelope, that all the counters were set at zero, and that the ballot labels were in their proper places. If any counter, however, does not register zero, the inspector shall summon the custodian of the machine, who shall set the counter back to zero. The machine shall then be opened for voting, and the polls formally declared open.

Section 27. The municipal clerk shall furnish and deliver with each voting machine: Lighting facilities which shall give sufficient light to enable voters, while in the voting machine booth, to read the ballot labels, and suitable for the use of election officers in examining the counters; a model and two diagrams or sample ballots, of suitable

size, representing such part of the face of such voting machine as will be in use in the election, and accompanied by directions for voting on the machine; a seal, or seals, for sealing the machine after the polls are closed; an envelope for the return of the keys, if the construction of the voting machine shall permit their separate return; such other election materials and supplies as may be necessary.

The lighting facilities, above mentioned, shall be prepared and in good order for use before the opening of the polls. The diagrams shall be posted prominently outside the voting booth for the instruction of electors. The model shall be placed in the polling place and at or outside the guard rail or barrier.

Section 28. At all elections where voting machines are used there shall be the following election officers for each voting machine: an inspector, a chief clerk and a first and a second assistant clerk.

The inspector shall be in general charge of the poll, shall see that the counter compartments of the machine are never unlocked or opened so that the counters are exposed during voting, shall see that the other election officers perform the duties hereinafter imposed on them, shall keep a record of all voters at such machine who received assistance pursuant to Section 30 (a) of this Act, and all other records required by this Act, and immediately after the polls have closed and the statement of the returns has been made shall deliver such statement and the key or keys to the machine to the municipal clerk. He shall also act as challenger.

The chief clerk shall examine the list of qualified electors and check off the names of voters which appear thereon as they vote.

The first assistant clerk shall attend the poll list and see that each voter signs his name thereon in the order in which he votes.

The second assistant clerk shall attend the voting machine at all times, and see that it is not tampered with. He shall also inspect the ballot labels at frequent intervals to see that none have been tampered with and that the machine has not been injured.

Section 29. The election officials, where voting machines are used, shall ascertain whether each applicant to vote is entitled to vote, and each applicant found to be entitled to vote shall be permitted to vote in the manner hereafter provided. Each applicant to vote shall identify himself to the chief clerk, who shall examine the list of qualified electors, furnished by the municipal clerk, and if such voter's name appears on such list, unless such voter has been challenged, the chief clerk shall mark the applicant's name off the list. The applicant, unless he is unable to write his own name, because of physical handicap or illiteracy, shall then sign his name on the poll list on the line numbered to indicate the order in which the voters cast their ballots, and thereafter he shall be admitted within the voting machine booth and permitted to vote. If such applicant is unable to sign his name because of physical disability or illiteracy his name shall be written for him in the manner prescribed in Section 18 for the writing of the names of voters on the poll list at polls where paper ballots are used.

If such applicant's name is not on the list of qualified voters, or if such applicant has been challenged by a qualified elector, the chief clerk shall so notify the inspector and the inspector shall challenge such voter. No challenged voter shall be permitted to cast his vote

on a voting machine but any challenged voter shall be permitted to cast a paper ballot in the same manner and under the same circumstances, rules, and regulations that challenged voters may vote at polls where paper ballots are usually and customarily used.

Section 30. (a) The election officers shall, with the aid of the diagrams herein authorized, and the mechanically operated model, instruct each voter before he enters the voting machine booth, regarding the operation of the machine, and shall give the voter opportunity personally to operate the model. No voter shall be permitted to receive any assistance in voting at any election, unless he shall first state in writing, upon printed forms supplied for that purpose, and under oath or affirmation, which shall be administered to him by the inspector, that he can not read the names on the voting machine, or that, by reason of physical disability, he is unable to see the machine or prepare it for voting, or to enter the voting machine booth without assistance. The voter shall state the specific physical disability which requires him to receive assistance. Thereupon he shall be assisted by one of the election officials, who shall aid him in voting, and the inspector shall forthwith enter in writing on the record of assisted voters: the voter's name; the fact that the voter can not read the names on the voting machine, if that is the reason for requiring assistance and, otherwise, the specific physical disability which requires him to receive assistance; and the name of the election official furnishing the assistance. If any voter, after entering the voting machine booth, and before the closing of such booth, shall ask for further instructions concerning the manner of voting, he may choose an election officer, who shall give him such instructions, but no official giving a voter such instructions shall, in any manner, request, suggest, or seek to persuade or induce any such voter to vote any particular ticket, or for any particular candidate, or for or against any particular question. After giving such instructions, and before the elector closes the booth or votes, the election officer shall retire, and the voter shall forthwith vote.

(b) It shall be unlawful for any official to assist a voter who has not made the oath required herein, or for an official or any other person to do anything to enable himself to see how any voter votes other than in the course of assisting a voter as provided herein.

Section 31. When the time arrives for closing the polls, all qualified voters, who are then waiting within the voting room to vote, shall be permitted by the election officers to do so. As soon as the last voter has voted and the poll closed, the election officials shall immediately lock the machines against voting. They shall then sign a certificate stating that the machine was locked and sealed, giving the exact time. Such certificate shall also state the number of voters shown on the public counters, which shall be the total number of votes cast on such machine in that ward; the number on the seal; and the number registered on the protective counter. They shall then open the counting compartment in the presence of the watchers and of at least one representative of any newspaper or press association which cares to be represented, giving full view of all the counter numbers. The inspector shall, under the scrutiny of the watchers, in the order of the officers, as their titles are arranged on the machines, read and announce in distinct tones the designating number and letter on each counter for each candidate's name, if the construction of the voting machine is such as to require a designating number and letter, and the result as shown by the counter numbers. He shall also read and the clerk shall tally the totals of all challenged ballots cast under the

provisions of this Act. He shall in the same manner announce the result on each constitutional amendment, bond proposition, or any other question voted on. The vote as registered shall be entered on the statements of canvass in ink by the clerks, such entries to be made in the same order on the space which has the same designating number and letter, if the construction of the voting machine is such as to require a designating number and letter, after which the figures shall again be verified by being called off in the same manner from the counters of the machines. The returns of the canvass as required by law shall then be filled out, verified, and shall show the number of votes cast for each candidate, the number of votes cast for and against any proposition submitted, and shall be signed by the election officials. The counter compartments of the voting machine shall remain open throughout the time of the making of all statements and certificates, and the official returns, and until such have been fully verified; and during such time the watchers of any candidate or any representative of any newspaper shall be admitted. The proclamation of the result of the votes cast shall be deliberately announced in a distinct voice by the inspector who shall read: the name of each candidate with the designating number and letter, if the construction of the voting machine is such as to require a designating number and letter; his counter and the vote registered on such counter; and also the vote cast for and against each proposition submitted. During such proclamation ample opportunity shall be given to any person lawfully entitled to be in the polling place to compare the results announced with the counter dials of the machine and any necessary corrections shall then and there be made, after which the doors of the voting machine shall be locked and sealed with the seal provided, so sealing the operating lever or electrical control, if an electrically operated machine, that the voting and counting mechanism will be prevented from operation. Challenged ballots, sealed in the same manner prescribed in Section 24 of this Act for sealing ballots at polling places where paper ballots are used, the record of assisted voters, the oaths of assisted voters, one copy of each oath relative to challenged voters, the poll list and a copy of the list of qualified electors shall be placed in the voting machine, if such machine is so constructed that this may be done, and if these items cannot be placed in the machine then they shall be sealed in an envelope or package, across the seal of which each election official shall sign his own name, and this envelope or package shall be delivered to the municipal clerk and retained by him unopened for the time prescribed by Section 32 of this Act for the retention of records of elections. The inspector shall deliver to the municipal clerk the keys of the machine, enclosed in a sealed envelope, across the seal of which shall be written his own name, together with that of the other election officials, and on this envelope shall be recorded the date of the election, the number of the voting district, the number of the seal with which the machine was sealed, the number of the public counter, and the number on the protective counter. One copy of each affidavit made by a challenged voter and one copy of each affidavit identifying a challenged voter shall be forwarded to the solicitor of the county in the same manner and for the same purposes prescribed in Section 23 of this Act for such oaths at polling places where paper ballots are used.

Section 32. The voting machines shall remain locked against voting for the time provided by law for the filing of contests and then shall have the seal broken only on the order of the municipal governing body and if, in the opinion of such body, the contest has developed or is likely to develop, shall remain locked until such time

as ordered opened by the court hearing the contest, or until a final determination thereof. Provided that on the order of any court of competent jurisdiction or on the order of the municipal governing body, the seal may be broken for the purpose of proper investigation and when such investigation is completed, the machine shall again be sealed and across the envelope containing the keys shall be written the signature of the person or persons having broken same and provided further that in the event another election is held during the time for which the machines are required by this section to be locked and the machines are needed at such election, the municipal governing body shall be authorized to break the seal and make a record of the numbers on all counters on each machine and to remove all of the election records from the machine. The municipal governing body shall securely seal all records taken from a machine in an envelope or package and on the outside thereof label the package in such manner as to indicate plainly the machine from which they were removed and the month, day and the year, of the election of which they are records. Each member of the municipal governing body present when the machines were opened shall certify to the accuracy of the records of the numbers on the counters and shall sign the envelope or package across the seal. This certificate and all other records removed from the voting machines shall be delivered to the municipal clerk and preserved by him for the same length of time prescribed in Section 25 of this Act for the retention of paper ballots, and then destroyed in the same manner that paper ballots are destroyed.

Section 33. The governing body of any municipality procuring voting machines shall designate a person or persons who shall have the custody of the voting machines and the keys therefor, when the machines are not in use at an election; and shall provide for his compensation and for the safe storage and care of the machines and keys. All voting machines, when not in use, shall be properly boxed or covered, and stored in a suitable place or places, by said custodian. The same authority that caused the delivery of the voting machines shall be charged with transporting such machines back to the custodian, and shall furnish all necessary protection to see that such machines are not molested nor injured from the time such machines leave the place where they are regularly stored until they are turned into the custody of the officials of a voting district and from the time that custody ceases on the part of the voting district officials and the machines are returned to the place of regular storage.

Section 34. Not later than noon on Thursday after the election as hereinabove required the municipal governing body shall proceed to open the envelopes, addressed to such governing body, which have been delivered by the several returning officers to the municipal clerk, canvass the returns, and ascertain and determine the number of votes received by each candidate and for and against each proposition submitted at such election. If it appears that any candidate or any proposition in such election has received a majority of the votes cast for that office or on that question the municipal governing body shall declare said candidate elected to such office, or said question carried, and a certificate of election shall be given to such persons by the municipal governing body, or a majority of them, which shall entitle the persons so certified to the possession of their respective offices immediately upon the expiration of the terms of their predecessors, as provided by law.

If a single office is to be filled at the election and there is more than one candidate therefor, then the majority of the votes cast

for said office in such election shall be ascertained by dividing the total votes cast for all candidates for said office by two, and any number of votes in excess of one-half of such total votes cast for all candidates for such office shall be a majority within the meaning of this section. If two or more offices constituting a group are to be filled, and there are more candidates for election than there are such offices, then the majority of the votes cast for said office in such election shall be ascertained by dividing the total vote cast for all candidates for such offices by the number of positions to be filled, and then dividing the result by two. Any number of votes in excess of the number ascertained by such last division shall be the majority herein prescribed as necessary for election. If in ascertaining the result in this way, it appears that more candidates have obtained this majority than there are positions to be filled, then those having the highest vote, if beyond the majority just defined, shall be declared elected to fill such positions.

If no candidate receives a majority of all the votes cast in such election for any one office or offices for the election to which there were more than two candidates, then the municipal governing body shall order a second or "run-off" election to be held on the third Monday of September next thereafter, at which election the two candidates having received the most and the second most votes, respectively, shall be candidates and the person receiving the highest number of votes for that office in the run-off election shall be declared elected. In the event one of the candidates for a particular office in the run-off election withdraws, then there need not be a second election to fill such office nor shall the name of either the party so withdrawing or the remaining candidate be printed on the ballot of any second election held under the provisions of this Act. This second election shall be held by the same election officers who held the first election and at the same places the first election was held. If there should be a tie vote cast at any such run-off election then in such event the tie shall be decided by the municipal governing body. A vote for a particular candidate by a majority of the total membership of the governing body shall be necessary to decide the election in his favor. The municipal clerk shall file a copy of each certificate of election in the office of the judge of probate of the county in which the city or town is situated, and the judge shall file such certificate in the same manner that he files the declaration of the result of elections to county offices.

Section 35. Any mayor or other chief executive officer of a municipality who fails to give notice of any municipal election as required by this Act shall be guilty of a misdemeanor and on conviction thereof shall be fined not more than five hundred dollars (\$500), and may also be imprisoned in the county jail or sentenced to hard labor for the county for not more than six months.

Any mayor or other chief executive officer of a municipality who knowingly puts on the list of qualified electors for a municipal election the name of any person who is not registered or who has not paid all poll taxes due, as shown by the records in the probate office of the county in which such municipality lies, shall be guilty of a misdemeanor, and, on conviction, must be fined not less than one hundred dollars (\$100).

Any mayor or other chief executive officer of a municipality, or other officer on whom the duty of the mayor may have temporarily devolved, who wilfully and knowingly neglects, fails, or refuses to

perform any of the duties prescribed in this Act shall be guilty of a misdemeanor, and on conviction, shall be fined not less than one hundred dollars (\$100) unless otherwise provided in this Act.

Section 36. Any municipal clerk who wilfully fails to properly preserve the certificate of results of an election and deliver it to the municipal governing body at the time appointed for canvassing the returns of the election, as required by Section 25 of this Act, shall be guilty of a felony, and on conviction, shall be punished by imprisonment in the penitentiary for not less than one nor more than five years.

Section 37. Any election officer appointed such by a municipal governing body who shall fail to attend a municipal election without a lawful excuse shall, on conviction, be fined not more than one hundred dollars (\$100).

Section 45. The election of any person declared elected to any office of a city or town may be contested by any person who was at the time of the election a qualified elector of such city or town for any of the following causes:

1. Malconduct, fraud, or corruption on the part of any election official, any marker, the municipal governing body, or any other person.

2. When the person whose election to office is contested was not eligible thereto at the time of such election.

3. On account of illegal votes.

4. On account of the rejection of legal votes.

5. Offers to bribe, bribery, intimidation, or other malconduct calculated to prevent a fair, free, and full exercise of the elective franchise.

Any contest of such an election must be commenced within five days after the result of the election is declared. Such contest shall be instituted in the manner prescribed by Section 245 of Title 17, Code of Alabama, 1940, and, except as herein otherwise provided, all proceedings relative to contests of elections to municipal offices shall be governed by the provisions of Articles 22 and 23, Chapter 1, Title 17, Code of Alabama 1940, insofar as they are applicable.

Section 46. No malconduct, fraud, or corruption on the part of the election officers, the marker, the municipal governing body, or other person, nor any offers to bribe, bribery, intimidation or other malconduct which prevented a fair, free, and full exercise of the elective franchise, can annul or set aside any municipal election unless thereby the person declared elected, and whose election is contested, be shown not to have received the requisite number of legal votes for election to the office for which he was a candidate, nor must any election contested under the provisions of this Act be annulled or set aside because of illegal votes given to the person whose election is contested, unless it appears that the number of illegal votes given to such person, if taken from him, would reduce the number of votes given to him below the requisite number of votes for election. Nor must any election be annulled or set aside because of the rejection of legal votes unless it appears that such legal votes, if given to the person intended, would increase the number of his legal votes to or above the requisite number of votes for election.

Section 47. If, on the trial of the contest of any municipal election, it shall appear that any person other than the one whose election is contested, received, or would have received, had the ballots intended for him and illegally rejected been received, the requisite number of votes for elections, judgment must be given declaring such person duly elected, and such judgment shall have the force and effect of investing the person thereby declared elected with full right and title to have and to hold the office to which he is declared elected. If it appears that no person has, or would have had, if the ballots intended for him and illegally rejected had been received, the requisite number of votes for election, judgment must be rendered declaring this fact, and such fact must be certified to the municipal governing body and the vacancy in the office, election to which had been contested, shall be filled in the manner prescribed by law for filling the vacancy in such office. If the person whose election is contested is found to be ineligible to the office, judgment must be rendered declaring the election void, and the fact must be certified to the municipal governing body. The vacancy in such office shall be filled in the manner prescribed by law. If the party whose election is contested is found to have been duly and legally elected, judgment must be rendered declaring him entitled to have and to hold the office to which he was so elected.

Section 48. There shall be no absentee voting in municipal elections covered by this Act.

Section 49. If any municipal election provided for in this Act should not take place on the day appointed, the municipal corporation shall not for that cause be dissolved, but the incumbent officers shall remain in office until their successors shall be elected and qualified. The municipal governing body shall fix some day, as early as convenient, or which day said election shall be held; and the election shall be conducted in all respects as a regular election, and the persons so elected shall hold office until the next general election and until their successors are elected and qualified.

Section 50. The provisions of this Act are severable. If any part of the Act is declared invalid or unconstitutional, such declaration shall not affect the part which remains.

Section 51. Act No. 465, S. 29, approved July 6, 1945 (General Acts of Alabama, 1945, page 699) is hereby expressly repealed; and any and all other laws or parts of laws in conflict herewith are to the extent of such conflict also hereby repealed. It is specifically declared, however, that the designation in this Act of certain acts and omissions relative to municipal elections as offenses shall not be exclusive and that any act or omission relative to a municipal election which is by law designated as an offense but which is not mentioned in this Act shall continue to be an offense punishable in the manner prescribed by law.

Section 52. This Act shall become effective immediately upon its passage and approval by the Governor, or upon its otherwise becoming a law.

And the substitute was adopted.

Be It Enacted by the Legislature of Alabama:

Section 1. Section 703, Title 51, Code of Alabama (1940) is amended to read as follows:

"Section 703. Every trailer, small trailer, and semi-trailer subject to a license shall pay a license fee as herein provided. On every trailer, small trailer or semi-trailer, not eligible to qualify as a farm trailer, the license fee shall be ten dollars. The cost of the license plate or tag issued for such trailer or semi-trailer shall not be deemed a part of the license tax of any motor truck or truck-tractor with which the trailer or semi-trailer may be operated in combination. Trailers of any kind or description for hauling passengers for hire are prohibited by law. Small trailers attached to passenger cars, which are used for the transporting of less than fifteen hundred pounds except such units as are leased, rented, or otherwise operated for hire, are exempt from payment of any license. Provided that small trailers supported by their own wheels when used on a highway by a farmer for the purpose of transporting to and from his farm, farm products or products to be used on the farm, but for all other purposes they are prohibited, except as permission is given in other provisions of this article."

A BILL  
TO BE ENTITLED  
AN ACT

To amend Section 697 of Title 51, Code of Alabama (1940), which prescribes the license taxes imposed upon motor trucks using fuel on which tax has been paid or is to be paid, to provide for the basing of such licenses on owner-declared gross vehicle weight.

Be It Enacted by the Legislature of Alabama:

Section 1. Section 697 of Title 51, Code of Alabama (1940), is amended to read as follows:

"Section 697. — (a) Each motor truck using exclusively motor fuel on which the excise tax imposed by this state has been paid, or motor fuel which will be included in the report required to be made to the department of revenue of motor fuel sold or stored and on which the state excise tax on motor fuel will be paid when same becomes due, shall pay a license tax in accordance with the following schedules, based on owner-declared gross vehicle weight. For purposes of computing the license tax payable hereunder, the term 'gross vehicle weight' shall mean the empty weight of the truck or truck-tractor, and, in the case of combinations, the empty weight of the heaviest trailer or semi-trailer with which the power unit shall be placed in combination, plus the heaviest load to be carried. No tolerance or margin of error allowable under any other provisions of law shall be deemed applicable to the provisions of this section.

"(b) Trucks and Truck-Tractors used on Farms. Motor trucks and truck-tractors for which the owner submits a sworn statement as a part of the registration application to the effect that the vehicle is used on and is domiciled upon a farm, or upon a woodlot (which for the purposes of this section means an area devoted to the growing of forest trees) and is used primarily for the carriage of logs or pulpwood (not including, however, vehicles owned or operated by forest products operators exclusively for this purpose), shall pay the following licenses:

| Gross Vehicle Weight in Pounds | Amount of License Tax |

"(e) Except for trucks purchased prior to November fifteenth of any tax year, the licenses called for under this section shall be purchased on a monthly declining basis of one-twelfth, or for each month of the tax year, and the purchaser shall only buy a license for the then remaining months of the tax year; provided, however, that licenses costing less than twelve dollars (\$12.00) a year may not be purchased on such monthly declining basis. In figuring the license on a one-twelfth reduction for each month, the amount of any fraction shall be figured to the nearest ten cents above the fraction thereof. The purchaser of a motor truck purchased after November fifteenth of any tax year shall have such time to purchase the license called for hereunder as may be prescribed by rules and regulations affecting the purchase of said license promulgated by the department of revenue.

"(f) The owner of a motor truck or truck-tractor may voluntarily increase the allowable gross weight for which his vehicle is licensed by purchasing the license hereinabove prescribed for the appropriate weight classification and paying the difference in fees between the license which is surrendered and that for the higher weight classification desired. The license classification may not be decreased for a vehicle, however, except once a year at the time new license tags or plates are purchased for such vehicle. If upon inspection any vehicle licensed hereunder is found to weigh more than is permitted by the license plates which it carries (regardless of whether such weight is below the legal maximum permitted for other than licensing purposes), the owner of such vehicle shall purchase immediately a new license for the weight of the vehicle as inspected. In such an event, no credit shall be allowed for the surrendered under-rated license plates or tags, and the owner of the vehicle shall be subject to the penalty prescribed by law for using a motor vehicle with an improper license."

Section 2. All laws or parts of laws which conflict with this Act are repealed.

Section 3. This Act shall become effective on October 1, 1960.

And the substitute was adopted.

Amend Section 1, paragraph (b) by striking out "used on and is domiciled upon a farm, or upon a woodlot (which for the purpose of this section means an area devoted to the growing of forest trees) and is used primarily for the carriage of logs or pulpwood (not including, however, vehicles owned or operated by forest products operators exclusively for this purpose)," and inserting in lieu thereof, "either (I) used and domiciled upon a farm; or (II) used exclusively for the transportation of limestone or limestone products; or (III) primarily used and designed for the transportation of logs, lumber, poles, pulpwood or other forest products, as exempt under the Alabama Motor Carrier Act of 1939, as amended,"

Amend Section 1, paragraph (d) by inserting the words "or trucks primarily used and designed for the transportation of logs, lumber, poles, pulpwood or other forest products", so as to read:

"(d) Trucks and Truck-Tractors Not For Hire. — Motor trucks and truck-tractors which do not qualify for registration as either farm trucks or trucks primarily used and designed for the transportation of logs, lumber, poles, pulpwood or other forest products or limestone and limestone products or trucks for-hire or which are used exclusively for the transportation of household goods, personal furniture, or other personal household effects, or any truck, or tractor-semi-trailer combination operated under any rental, lease or other agreement when the person furnishing the transportation is legally and regularly in the business of transporting his own property exclusively, shall pay the following licenses:

A BILL  
TO BE ENTITLED  
AN ACT

For the relief of Sisk and Meade, contractors, of Centre, Alabama; making an appropriation of state highway department funds to compensate such contractors for certain construction work done on Alabama highway projects.

WHEREAS the state highway department approved Kisor Construction Company, of Centre, Alabama, as a general contractor for highway contracts in this state, and awarded such company contracts for certain construction work in connection with Alabama highway projects F-FG-387(3), Talladega County, and F-859-(1), Marion County, and accepted as surety for the faithful performance of such contracts by said Kisor Construction Company, a bond, or bonds, issued by Alabama General Insurance Company; and

WHEREAS Sisk and Meade, contractors, of Centre, Alabama, was a subcontractor of said Kisor Construction Company on said highway projects and such work was in fact completed by Sisk and Meade, contractors; and

WHEREAS said Kisor Construction Company and Alabama General Insurance Company have both been declared bankrupt or are insolvent and the assets of these companies are not sufficient for any further or additional payment to the said Sisk and Meade, contractors, although there is a balance due the said subcontractors by the said prime contractor amounting to ten thousand one hundred fifteen dollars and twenty-eight cents; and

WHEREAS according to the terms of the contract or contracts with the said prime contractor, the state highway department owes a balance of three thousand eight hundred thirty-four dollars and thirty cents on the said Talladega County contract and the sum of

six thousand two hundred ninety-nine dollars and twenty-six cents on the said Marion County contract; and

WHEREAS the state highway department has not paid the above balances due, either to the prime contractor, to the Alabama General Insurance Company, or to Sisk and Meade, the subcontractors; now therefore,

Be It Enacted by the Legislature of Alabama:

Section 1. The sum of ten thousand one hundred fifteen dollars and twenty-eight cents is hereby appropriated from any unpledged funds in the state treasury to the credit of the state highway department, to the use and benefit of Sisk and Meade, contractors, of Centre, Alabama, to compensate said Sisk and Meade for construction work done on the above described Alabama highway projects.

## RESOLUTION

The following resolution was introduced:

By Mr. Hanby:

H. J. R. 96. Whereas the Legislature deplores the tragic toll of dead from traffic accidents occurring in the State of Alabama; and

Whereas it has been authoratively reported that traffic accidents will cost fifty thousand lives by the year 1966 in the United States unless effective action is taken by the respective states; and

Whereas the Legislature feels it imperative that a study of highway accidents and fatalities within the State be made to determine the legislation necessary to curb this ever-present threat to the lives and welfare of our citizens; now therefore,

BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES AND SENATE OF THE LEGISLATURE OF ALABAMA:

1. That there shall be a joint legislative interim committee on traffic safety, which shall be composed of three members of the House appointed by the Speaker of the House and three members of the Senate appointed by the President of the Senate. The committee shall make a complete and detailed study of highway accidents and fatalities within the State and make a report of its findings, conclusions, and recommendations concerning the legislation necessary to curb the dreadful death toll taken of our citizens by traffic accidents. The committee shall make its report to the Legislature, together with such suggested legislation as it deems necessary, by filing the same with the Clerk of the House and the Secretary of the Senate not later than the fifth legislative day of the 1961 regular session of the Legislature.

2. The members of the committee shall elect a chairman and a vice-chairman from among their number. The committee shall have the power to hold meetings and conduct its business at such places within the State as it may deem advisable. It shall meet at the call of the chairman, or at the request of any two members of the committee. Committee members shall be entitled to receive their regular legislative per diem and allowances while engaged in the business of the committee while the Legislature is not in session. The committee may employ such staff assistants and clerical and stenographic personnel as may be necessary for the effective conduct of its study. The compensation of such assistance and the compensation and allowances of committee members shall be paid out of the funds appropriated to the use of the Legislature, on requisitions certified to the State Comptroller by the committee chairman; but the expenses of the committee for all purposes shall not exceed a total of ten thousand dollars (\$10,000). The committee may utilize the services, information, facilities, and personnel of such departments or agencies of the state government as it may deem necessary in the performance of its duties.

The motion of Mr. Hanby to suspend the rules in order to bring up for immediate consideration the above and foregoing H. J. R. 96 was lost.

The question was upon the adoption of the substitute reported by the Standing Committee on Constitution and Elections, said committee substitute being as follows:

A BILL  
TO BE ENTITLED  
AN ACT

To amend further Act No. 424, H. 351, approved August 19, 1949 (Acts of Alabama 1949, p. 601), entitled "An Act To provide for absentee voting in primary, general, special, and municipal elections: Prescribing penalties for violations of the Act and repealing conflicting laws," so as to provide for absentee voting only by certain electors.

Be It Enacted by the Legislature of Alabama:

Section 1. Sections 2, 5, and 9 of the Act approved August 19, 1949 (Acts of Alabama 1949, page 601) entitled "An Act To provide for absentee voting in primary, general, special, and municipal elections: Prescribing penalties for violations of the Act and repealing conflicting laws," as amended, are amended to read as follows:

"Section 2. (a) Any qualified elector of this state who is in service as a member of the armed forces of the United States, whose regular duty requires that he be absent from the county of his resi-

dence on the date any primary, general, special, or municipal election is to be held, and any qualified elector who is the wife of any such elector in service who resides with him at his duty station, or any qualified elector who is a disabled veteran confined in a facility or hospital operated by the Veterans Administration, may vote in the election in the manner and under the regulations hereinafter prescribed.

“(b) Any qualified elector of this state, whose name, at the time of any primary, general, special, or municipal election, appears on the official list of qualified voters in any county in the state, whose regular business or occupation regularly requires that he be absent from the county, and who may, at any primary, general, special, or municipal election held pursuant to law in this state by reason of his regular business or occupation, and in the performance of the duties thereof, being absent from the state, or from the county in which he is a qualified elector, may vote in such primary, general, special, or municipal election in the manner and under the regulations hereinafter prescribed, with like effect as if he were casting his vote in person at his regular and proper voting place. Such elector shall present himself to the board of registrars of his county at any time before March 1, 1960 or any subsequent year, at any regular or special meeting thereof for the purpose of having the board of registrars place his name on the list of qualified electors eligible to vote an absentee ballot in any primary, general, special, or municipal election held thereafter. The board of registrars shall ascertain from each person presenting himself before the board for the purpose of having his name placed on the list of qualified absentee voters, the name of the person, his address, age, whether or not he is a qualified elector of said county, the name and address of such person's employer and the exact nature of the duties of such person's employment. In the event the board of registrars finds that such person is a qualified elector of said county and is engaged in a regular business or occupation which regularly requires that he be absent from the county, the board of registrars shall place such person's name on the list of qualified electors entitled to vote an absentee ballot in any primary, general, special, or municipal election. Each board of registrars in the state shall, not later than March 15 of each year, prepare a list of the names of those persons enrolled on the qualified absentee voters list and file the same with the probate judge of their respective counties and with the Secretary of State.

“(c) The electors who register as absentee voters shall vote only in the absentee box, and shall not thereafter vote in any other manner, unless and until his name has been removed from the absentee voter list. The probate judge of each county, at the request of an elector made at least 30 days before any election, shall remove the name of the elector from the official list of absentee voters.

“(d) The judge of probate of each county in the state shall, not less than twenty-one days prior to the holding of any election to which this Act pertains, deliver to the register or person serving in his stead the list of those persons certified by the board of registrars to the judge of probate as being qualified to vote an absentee ballot.

“Section 5. The official absentee ballots for any election to which the Act pertains shall be in the same form as the official regular ballots for the election, except that they shall bear printed thereon the words ‘Official Absentee Ballot’ and except that there shall be printed thereon one of the affidavit forms herein required. Further,

each absentee ballot shall be in duplicate, the intent of this provision being that every absentee voter under this Act shall submit two copies of his completed ballot, one original and one carbon.

"Section 9. Any prospective absentee voter who meets the requirements prescribed in Section 2 (b), above, and whose name appears on the official list of absentee voters, may, not more than twenty days and not less than five days prior to the election at which he desires to vote, present himself before the register of the county wherein the election is to be held or before the person designated to serve instead of the register. If the name of the voter is on the official list of qualified voters of the county, and on the official list of qualified absentee voters for said county, and the register is satisfied that the voter is the person he claims to be, and a member of the party in which he claims to be a member, the register shall tender the voter the duplicate absentee ballot required for this Act, including necessary carbon paper, and the required envelope, first filling in the blanks in the upper left corners thereof. The official list of qualified voters herein referred to shall be furnished the register by the probate judge or other person preparing said list at least twenty-one days before the election.

"Any prospective absentee voter meeting the requirements of Section 2 (a) who is a member of the armed forces of the United States, or the wife of any such person, if she meets the requirements of said section, may, not more than forty-five nor less than five days prior to the election at which he or she desires to vote, make application for an absentee ballot, as herein provided to be made by a prospective voter in writing or by filling out the Federal post card application form, authorized and provided for under the provisions of 'The Federal Voting Assistance Act of 1955' (Public Law 296, Chapter 656, H. R. 4048, approved August 9, 1955, 84th Congress, 1st Session), and mailing such application to the register, or to the person designated to serve instead of the register. The affidavit herein provided to be attached to the absentee ballot shall be executed by the prospective voter in person before such commanding officer or authority in charge who shall certify to such fact. Such ballot shall be returned by United States mail to the register or to the person acting in his stead and shall be by him marked the day and hour of the receipt thereof. When received by the register or person acting in his stead, the ballot shall be handled and counted in the same manner as ballots voted before the register in person.

Such application shall have attached thereto a certificate signed by the authority in charge of the hospital or facility, certifying that the applicant is a disabled veteran then confined to such hospital or facility. The voter may make the affidavit on the ballot before any officer authorized to administer oaths or before any officer of the hospital or facility and mail the ballot to the register or other person acting instead. Such ballot shall be handled and counted in the same manner as ballots voted before the register in person."

Section 2. This Act shall become effective immediately upon its passage and approval by the Governor, or upon its otherwise becoming a law.

**MOTION TO SUSPEND RULES ADOPTED**

The motion of Mr. Nichols to suspend the rules in order to take up for immediate consideration the third reading of the bill, S. 133, was adopted.

And the bill:

S. 133 (with amendment): To revise and amend Title 24, Code of Alabama 1940, which relates to hotels and innkeepers.

Was taken up.

The question was upon the adoption of the amendment reported by the Standing Committee on Judiciary, said committee amendment being as follows:

Section 13 of S. B. No. 133 is hereby amended by striking Section 13 in its entirety and substituting in lieu thereof the following:

"Section 13. Conditional liability. Such hotel as shall maintain a safe depository and display notice as is required by the preceding section shall in no event and under no circumstances or conditions, be liable in any amount for any loss, damage or destruction of the valuables of a guest, by theft, burglary, fire or by any other cause whatsoever whether or not of a nature enumerated above, if the said valuables shall not have been left with the hotel, its clerk or agent, for deposit in said safe depository. (Whenever the phrase—loss, damage or destruction by theft or otherwise—is hereinafter used in this title, it shall include any loss, damage or destruction of the valuables, baggage or property of a guest, as the case may be, by theft, burglary, fire or by any other cause whatsoever whether or not of a nature enumerated above.) If a hotel maintains a safe depository and valuables are left by a guest with said hotel, its clerk or agent, for deposit in said safe depository, the limit of liability of said hotel for any loss, damage or destruction of said valuables, by theft or otherwise, shall be three hundred dollars, regardless of whether or not said hotel shall have displayed notice as required by the preceding section; provided, however, that upon accepting any such valuables said hotel must furnish to said guest a receipt upon which there shall appear in not less than ten point type on the face thereof the following words: "The liability for loss, damage or destruction of valuables by theft or otherwise, is limited by law to three hundred dollars (\$300) unless otherwise provided by special written contract". There shall also appear on said receipt in not less than ten point type and underlined the following words: "If the guest is depositing valuables in the safe depository of the hotel for safekeeping which said valuables exceed in value the sum of three hundred dollars (\$300), the guest may request the hotel

to enter into a special written contract, to be supplied by the hotel, whereby the hotel agrees to assume liability for the value of said valuables, provided, however, that in no event and under no circumstances or conditions shall the hotel (1) be liable in excess of the actual value of said valuables regardless of the stated value thereof in said contract, and (11), be required to enter into a contract assuming liability in excess of five thousand dollars (\$5,000) for the loss, damage destruction of said valuables by theft or otherwise regardless of the stated value or actual value thereof. Such contract must be in writing, signed by the guest and signed on behalf of the hotel by its manager, assistant manager, desk clerk, or other person in charge of or in authority in the hotel." Failure of the hotel to provide such receipt to any guest who leaves valuables with the hotel for deposit in its safe depository shall remove the three hundred dollar limitation of liability provided by this section.

Section 14 of S. B. No. 133 is hereby amended by striking out the words "except as is hereinafter provided in this section" where these words appear together in line six of the Section, and also by striking the entire second sentence of the Section which reads, "The limitation of liability hereinabove provided for in this section shall not apply if a written contract providing for a greater liability is entered into and executed by such guest and hotel".

And the amendment was adopted.

### SIGNING OF SENATE BILLS

The Speaker of the House in the presence of the House, immediately after the titles had been publicly read by the Clerk, the reading at length having been dispensed with by a two-thirds vote of a quorum present, signed the Bills, the titles to which are set out in the above and foregoing Message from the Senate.

### RESOLUTION

The following resolution was introduced:

By Mr. Lee:

H. R. 98. WHEREAS, the Hon. R. C. (Red) Bamberg, State Commissioner of Agriculture, on May 18, confidently and boldly accepted the challenge of the editor of the Montgomery Advertiser to prove his fitness for office by planting, cultivating and bringing to fruit a row of cotton in the editor's flower bed sufficient to fill a pillow case; and

WHEREAS, in the course of many early morning cultivations when other officials were yet in the arms of Morpheus, Commissioner Bamberg brought the 10-yard-long row of cotton to a praise-worthy stand of emerald velvet, heavily bejeweled with platinum squares; and

WHEREAS, slaughterous waves of boll weevil found this wind-fall of late cotton with its tender squares, and a stalk-twisting summer storm flattened the stalks, and acute vigilance had to be applied to forfend the marauding of neighborhood spooks on Halloween night; and

WHEREAS, an eminent jury of cotton experts from this very body—the Hon. Charles Adams (of Houston), the Hon. Emory Solomon, the Hon. Ralph Chambers—have examined and praised the cotton; and

WHEREAS, the said jury looked on November 5 as Robert Bamberg, Jr., a fifth grade scholar, picked his father's cotton as the rain fell and the jurors stood under the carport taking time-honored precautions against colds, chills and influenza; and

WHEREAS, the wet cotton was thence taken to a suburban beauty parlor and placed under a hair drier to dry it for processing in the Hon. Charles Adams' gin;

RESOLVED BY THE HOUSE OF REPRESENTATIVES, that it does commend and certify Commissioner Bamberg as a worthy example to Alabama's 97,000 cotton farmers and as a true prophet and aggrandizer of King Cotton.

On motion of Mr. Lee the rules were suspended and the resolution H. R. 98 was adopted.

### MOTION TO RECONSIDER ADOPTED

The motion of Mr. Goodwyn to reconsider the vote by which the bill, S. 110, was passed, was adopted.

And the bill:

S. 110. To amend Sections 278 and 279 of Title 17, Code of Alabama (1940), which relate to the filing of statements of election campaign expenditures.

Was again taken up.

Mr. Goodwyn offered the following substitute for the bill, S. 110:

A BILL  
TO BE ENTITLED  
AN ACT

To amend Sections 278, 279, and 280 of Title 17, Code of Alabama (1940), which relate to the filing of statements of election campaign expenditures.

Be It Enacted by the Legislature of Alabama:

Section 1. Section 278 of Title 17, Code of Alabama (1940), is amended to read as follows:

"Section 278. Statement of campaign expenditures filed. Every committee appointed under this article and each and every political committee as defined in section 268 of this title, shall file in the office of the judge of probate of the county in which the candidate by which said committee was appointed resides, if such candidate is a candidate for state senator, representative in the legislature, or for any county office or position, or in the office of the secretary of state, if he is a candidate for a national or state office, or position, or for representative in congress, or judge or solicitor of any judicial circuit, and if the political committee be one in support or opposition to any measure or proposition submitted to the popular party vote, if such measure or proposition is submitted to the voters of the state, then in the office of the secretary of state, and if it be submitted to the voters of any particular county or district or circuit, then in the offices of the judges of probate of such counties, detailed, itemized, statements of all expenditures made. It is provided, however, that the committee of any candidate who is not opposed for nomination or election shall not be required to file such statements."

Section 2. Section 279 of Title 17, Code of Alabama (1940), as amended, is amended further to read as follows:

"Section 279. Within thirty days after the election, every committee shall file a statement giving in itemized, detailed form, including names, items and detailed amounts, covering all of the expenditures made directly or indirectly, and all obligations, debts, or liabilities assumed or incurred at the time of filing of said statement. Such statement shall include the names of all contributors of amounts in excess of ten dollars, with amount given by each, and a list of all gifts, loans or contributions made. Such statements shall itemize all monies expended in sums over five dollars, and shall give the names of the various persons to whom such moneys were paid, the specific nature of each item, by whom the service was performed, and the purpose for which it was expended. There shall be attached to such statement an affidavit subscribed and sworn to by the treasurer of said committee setting forth in substance that the statement thus made is in all respects true, and that the same is a full and detailed statement of all

moneys, securities or equivalents for money coming under the control or custody of the committee and by them expended directly or indirectly. If any statement required herein shall have been postmarked at any United States post office not later than midnight of the last day on which such statement is required to be filed, the committee mailing such statement shall be deemed to have complied with the requirements of this section as to filing such statement not later than such date."

Section 3. Section 280 of Title 17, Code of Alabama (1940), is amended to read as follows:

"Section 280. If such statement is filed by a committee on behalf of any candidate, there shall also be attached to such statement an affidavit subscribed and sworn to by said candidate, setting forth in substance that said statement is to the best of his knowledge and belief in all respects true, and that he has not in person made any expenditures or received any contributions which are not set forth and covered by said statement. The failure of any committee designated by any candidate to file the statements herein required in the form and at the time specified, is a corrupt practice."

Section 4. All laws or parts of laws which conflict with this Act are repealed.

Section 5. This Act shall become effective immediately upon its passage and approval by the Governor, or upon its otherwise becoming a law.

And the substitute was adopted.

(c) If the Director of Revenue shall decide that the amount of any existing bond filed by any person is insufficient, the Director of Revenue may order such person to file, within ten days after written notice by the Director of Revenue to such person, a new or additional bond in such amount as the Director of Revenue may find reasonably necessary to insure payment of all amounts due or to become due the county, and if such new or additional bond is not filed within ten days after such notice from the Director of Revenue, the Director of Revenue may revoke the permit already issued to such person. (b) Upon demand by the Director of Revenue or his authorized deputy, auditor, or representative, it shall be the duty of any such person subject to the license tax imposed by this Act to furnish such demanding person, without delay, all such information as may be required for determination of the correct amount of license tax to which such person is subject, and to that end it shall be the duty of such person to submit to such demanding person, for inspection and examination, during reasonable hours, at such person's place of business within Jefferson County, all books of accounts, invoices, papers, reports, memoranda containing entries showing the amount of purchases, receipts, inventories, and any other information from which the correct amount of license tax to which such person is subject may be determined and any person failing or refusing to submit such records for such inspection and examination upon such demand shall be guilty of a misdemeanor. (c) If any person subject to the provisions of this act does not have in such person's control or possession, within Jefferson County, true and intelligible books of account, invoices, papers, reports or memoranda correctly showing the data and information necessary for determination of the correct amount of the license tax due, or if having in such person's possession or under such person's control such books, invoices, papers, reports or memoranda, such person shall fail or refuse to submit and exhibit the same for inspection and examination as herein required, then, in either event, it shall be the duty of the Director of the Department of Revenue of Jefferson County to ascertain, from such information and data as he may reasonably obtain, the correct amount of license tax due from such person, and to assess the same against such person and to give such person notice of said assessment and to demand of such person immediate payment of the amount of such license tax. If the amount of the license tax so ascertained and demanded is not paid within ten days after receipt of notice of the assessment and demand

for payment thereof, then, so long as said amount remains unpaid it shall be unlawful, and shall constitute a misdemeanor, for the person to engage in business, and each day's engagement in such business shall constitute a separate offense.

#### MESSAGE FROM THE SENATE

Mr. Speaker:

The Senate has originated and adopted the following Senate Joint Resolution and sends same herewith to the House for its consideration:

By Mr. Green:

S. J. R. 28. WHEREAS, the mental health program has received such publicity and attention by the people of Alabama as well as by the members of this Legislature; and

WHEREAS bills have been introduced in this Legislature and are now pending before the Legislature, and it appears that some relief will be granted to this most worthwhile program, but that the long range objectives and needs will not be fully met at this time; and

WHEREAS a legislative committee on mental health was created by the provisions of SJR 6 adopted at the Second Special Session 1959 and there is a need to continue the work of this committee, as well as to enlarge the scope of its inquiries; now therefore, be it

RESOLVED BY THE LEGISLATURE OF ALABAMA, BOTH HOUSES THEREOF CONCURRING, That the joint legislative committee created by S. J. R. 6, Second Special Session 1959, is hereby continued and authorized to continue working on the many problems which have not yet been solved in the field of mental health, and to study the legal status of the mentally ill in this State, with particular reference to commitment and discharge procedures for the mentally ill, and other related aspects of this problem. The committee is further directed to study the Alabama statutes relating to the problem of mental illness and bring in such recommendations for changes as in its judgment may be necessary in the light of modern psychiatric knowledge and the general practices prevailing throughout the Nation. The committee is also directed to conduct such hearings and make such inquiries as it may consider necessary to ascertain the relevant facts concerning the resources and needs for the operation of a program of providing medical and hospital care for indigent patients at the University Hospital in Jefferson County.

2. The committee shall advise with all agencies concerned with the administration of the State's health program, and make a complete investigation of the hospitals, bureaus, and agencies receiving and expending money in connection with the mental health program.

3. Each member of the committee shall receive his regular legislative compensation and expenses for each day of actual attendance at a meeting of the committee, but no member shall receive compensation or expenses for more than sixty days .

4. The committee is authorized to employ such clerical assistants as is necessary and such personnel shall be paid in accordance with Title 32, Section 13, Code of Alabama 1940. The per diem and expenses of the members of the committee and all other expenses incurred by the committee shall be paid out of any funds appropriated for the payment of expenses of the Legislature.

5. The committee shall report its findings, conclusions, and recommendations to the two Houses on or before the 5th Legislative day of the 1961 regular session.

J. E. SPEIGHT,  
Secretary.

Gentlemen:

As we reach the close of the biennial session of 1959, I want to express again my thanks and deep appreciation for the notable record

SENATE MESSAGE

On motion of Mr. Murphy the House concurred in and adopted the Senate substitute for the bill, H. 466, said Senate substitute being as follows:

A BILL

AN ACT

Relating to seafoods; providing for owners of private oyster reefs, beds or bottoms, or lessees thereof to use mechanical devices, including mechanical rake dredges, at any time, to cultivate and harvest or to remove their live oysters, under certain prescribed conditions.

Be It Enacted by the Legislature of Alabama:

Section 1. Owners of private oyster reefs, beds, or bottoms, and the lessees of such reefs, beds or bottoms, may use any mechanical means at their disposal and at any time between the hours of sunrise and sunset, including the use of mechanical rake dredges, to cultivate and harvest, or remove live oysters of any size upon or from such grounds. But such a person shall first obtain a dredge license as provided in Section 140 of Title 8, Code of Alabama 1940, as heretofore or hereafter amended, which the director of conservation shall issue if the applicant pays the required fee and posts bond payable to the state department of conservation, in the penal sum of one thousand dollars, conditioned upon his faithful and strict observance of all statutes and regulations relating to the use of such mechanical devices in taking live oysters; provided, such license may be revoked by the director of conservation if any condition of the bond is breached, and the director may thereafter refuse to issue a new license to such person.

Section 2. Such person operating a private oyster reef, bed or bottom, and in so doing utilizing seed oysters obtained from public reefs, beds or bottoms so designated by the department of conservation, shall be subject to the same laws and regulations controlling the taking of oysters from public reefs, beds or bottoms. Said person engaged in such operations shall file with the department of conservation through its seafood division notice to said department of the location and disposition of said seed oysters on the person's private reef, bed or bottom, and shall conform to all other regulations as specifically prescribed by law or regulation.

Section 3. Should private individuals, companies, or corporations desire to purchase seed oysters from the public reefs, beds or bottoms they may do so by paying to the department of conservation the prescribed tax as set by law. Upon purchase of seed oysters by said individual, company or corporation, and upon submission of accurate records as to the location or site of planting of said oysters, the operator of said oyster bed, reef or bottom may operate said reef, bed or bottom in conformance with section one of this act. The Department of Conservation shall, however, not sell to said individual, company or corporation, additional seed oysters taken from public reefs, beds or bottoms for a period of not less than three (3) calendar years, for replanting said individuals private reefs, beds or bottoms where subject seed oysters have been planted under the conditions set forth in this section.

Section 4. The taking of live oysters by means of rake dredges as provided for in this Act shall be under the supervision of the director of conservation and all rights granted to any person, firm or corporation by the provisions of this act may be exercised only after written notice shall have been given in each instance to the Division of Sea-

foods by the person, firm or corporation desiring to use rake dredges as provided herein.

Section 5. Should the private individual, firm or corporation operating under the conditions set forth in section 3, or any of the permittees of said individual, firm or corporation, be found guilty of harvesting undersized oysters as provided for by regulations governing the harvesting of oysters from public beds, bottoms or reefs, on any beds, bottoms or reefs belonging to another individual, firm or corporation or on a public reef, bottom or bed, the conditions and privileges set forth in section 3 of this act shall be voided and withdrawn to said individual, firm or corporation and shall not be renewed for a period of one (1) calendar year from the date of conviction of said individual, firm or corporation or any of its permittees.
